Your **observations**, **criticisms** and **suggestions** will help us to provide the *best possible experience* for participants at future nationals.

From what we have overwhelmingly heard this year, the middle school students and coaches really appreciated being with the NFL high school tournament.

We are already discussing implementing the following enhancements in the future, should we be able to bring the NJFL and NFL Nationals together again:

1. Advance “pre-registration” of high school judges as part of their NFL tournament registration. They would then “re-register” at the tournament, similar to what we do with high school supplemental and consolation events. This allows us to keep better track of who is judging, and when.
2. On-site judge training of both judges brought by schools, as well as high school students who judge. We are considering earmarking one person whose exclusive responsibility throughout the tournament is to conduct these sessions at various times throughout the weekend when those judges join the tournament.
3. Tweaking the schedule to ensure adequate power matching time between debate preliminary rounds.
4. Different patterning of speech events, given what we have found about cross-entering.
