National Speech and Debate Association
Middle School Administrator of the Year 2019 Nomination

To Whom It May Concern:

It is my honor to write a letter of recommendation for Computech Middle School Principal, Mr. Bradley Berrett. Mr. Berrett is a multitalented, positive administrator who loves students and our school. He joined Computech in 2018 as principal and immediately offered his support to our performing arts programs, especially Forensics. It was important to him to not only keep our Forensics program but to also ensure it continued to grow. Mr. Berrett is often the voice of reason to those around him as he leads with compassion and understanding. He is looked to for guidance and encouragement from staff and students. He is steady and reliable in all he does for our school.

Mr. Berrett makes a concerted, deliberate effort to attend all events at our school. He was proud to serve our Speech and Debate team as a judge at the Speech competition we hosted for the Redwood Middle School Region in October. Our school's Forensics program is the first of its kind at the middle school level in our district. We started the program as a club 5 years ago and were able to add a class 2 years ago. Because of the unfailing support of our administration, the middle school level Forensics program in our district has flourished and two other schools are able to offer Speech and Debate classes. Our program is the flagship Forensics program and our students compete at high school tournaments as well as at the middle school level. Mr. Berrett celebrates with our team and offers sincere encouragement.

Mr. Berrett has a compassionate heart and a capacity to love everyone. He is inclusive and makes others feel welcome. He is unafraid of challenges and sees them as opportunities to grow both professionally and personally. He will not be discouraged but instead, he eagerly finds solutions to problems while supporting everyone around him. He truly deserves this honor because he allows students to enjoy the experiences and spotlight while he quietly supports them though ensuring they have everything they need.

Sincerely,

Rachel L. Hibler
