Advisors are the main contact for a speech and debate program at a school. Among other permissions, they can create and pay invoices for school, student, and coach memberships. You can view your program's advisor from your school roster.

2 Do you have an NSDA Account?

I DON'T KNOW!

From an NSDA coach account, once linked to a school, you can view your school roster, track your points and recognition, and access resources via your school. Currently, coaches who advise at both a high school and a middle school must maintain separate accounts for each type.

If you believe you have a coaching account, please visit the [log in page](#).
