CDE Extemp, Team Debate, Congress And Lincoln Douglas Debate Camps

The Best in the Nation

More rounds, More classes, More success, Guaranteed.

* In 1990 became the first U.S. debaters to win the World College Debate Championship.
* In 1991 CDE graduates won two events at Nationals plus second and fourth place trophies.
* In 1993 CDE graduates won three events at Nationals plus two second places and two third place trophies.
* In 1994 CDE graduates were the first U.S. team to ever win the World High School Debate Championships.
* And at N.F.L. Nationals 5 of the 12 Lincoln Douglas finalists were CDE graduates!
* In 1995 CDE graduates won three National Championships.
* In 1996 CDE graduates took second in L. D. Nationals, won three National Extemp Championships, and second in debate nationals.
* In 1997 CDE alumni won two National Championships.
* In 1999 CDE alumni won the National Debate Championship and another National Extemp Championship
* In 2000 won our 12th National Extemp Championship

This year YOU are invited to join us.

$1,325, Alumni $1125, Commuters $540, Teachers and Coaches $540
(Held at Northern Arizona University in Flagstaff).
Costs include tuition, room, meals, free tourist day, 1,500 debate blocks or 400 articles, 15-24 critiqued practice rounds. Acceptance guaranteed or money refunded.

Both camps will be headed by WILLIAM H. BENNETT, the former national debate champion, author of over 50 texts and books, and coach of 9 national champions and championship debate teams.

Teacher-student ratio is guaranteed to be 8-1 or lower. Class actions are monitored.

Each camp is limited to the first 70 applicants. A $95 application fee must accompany your entry. Check or credit card accepted.

TOWN, STATE, ZIP __________________________
Whitman National Debate Institute

July 27 - August 7, 2003 (2 week session)
July 27 - August 13, 2003 (3 week session)
hosted by Whitman College, Quarters, 2002 NDT, Tenth, 2002 NPTE

Why Whitman’s camp?
1. **Individual attention:** 4 to 1 staff to student ratio and the vast majority of your time will be spent in small labs with four to six people and a staff member, not in a lecture room with 100 people; not in a lab with 12 to 16 people with two staff members.
2. **Practice and drills.** You won’t just do debates at the end of camp. You will do drills with clear feedback throughout the camp.
3. **Research.** We put out hundreds and hundreds of pages of cases and briefs with strategies that win debates.
4. **Instruction diversity.** You will not get stuck in one lab with one or two lab leaders you might not work with best. We rotate labs so you work with all of our staff members.
5. **Family feel.** People at our camp feel connected, not isolated. Whether you are shy, into sports, critical, outgoing, whatever, you will find your niche. We make an effort to reach out to students, to build up community, and to give people space to be who they are.

Policy Debate
You experience top-notch instruction in the arguments, theory, and strategies you need to win on the 2003-2004 high school topic.
- Ideas for cases, disadvantages, counters, etc.
- Intense analysis of the wording of the 2003-2004 topic
- Lectures on kritiks, counterplans, strategies, performativity, and rebuttals
You won’t just hear about these arguments. **You will practice plan inclusive counterplans, kritiks, permutations and more specific to this topic.** And, when you practice, you won’t just talk. Our staff of nationally competitive debaters and coaches will give you specific suggestions for improvement and you’ll rework your speeches.

Our camp works hard to produce the briefs you need to be successful during the year. You will leave camp with completely indexed and shelled briefs including affirmative cases with backup briefs, responses to key topic cases; disadvantage, kritik and counterplan shells with backup briefs and responses; and topicality arguments, definitions, and responses.

LD Debate
You receive an outstanding, well-rounded training in Lincoln-Douglas debate to make you nationally and regionally competitive. You’ll be part of intensive discussions on:
- Arguments to use for criteria, values, constancy, and philosophies
- Key aspects of the 2004 NR LD topics
- Lectures on judge adaptation, rebuttals, innovative strategies that win
You will work closely with our staff to develop your skills in making these arguments. **You won’t just hear about Rawls or Foucault. You will engage in many debates with critiques and ratios plus practice sessions covering refutation, rebuilding arguments, cross-examination, philosophy, values and criteria.** You will leave with affirmative and negative cases on the NFL-LD topics plus briefs on key values and criteria to use on any topic.

Everyone at camp receives all the policy or LD arguments produced while you are at the camp with no extra charges.

ON THE COVER: Derek Yuill, Coach of the Year
MARCH: Dr. Wayne Mammebach on Oratory. William Bennett on Ted Turner Debate.

THE DUDE

Name: Derek Yuill
Title: Coach
School: Lafayette Jefferson HS (IN)

Derek Yuill graduated from Lafayette Jefferson HS (IN) where he learned to love forensics under the coaching of Denise Walker and the late Jim Hawley. Derek became a head coach at Lafayette Central Catholic HS (IN) while he was a student at Purdue University. He coached at Central Catholic for six years while working three years as a local television program host and a brief stint with the local CBS evening news. After nurturing, Central Catholic's program and taking them to their first State and National Tournaments, Derek moved to the warm weather and sandy beaches of Los Angeles. There he took over a young program in the east suburbs of Los Angeles at a high school that was a mere three years old preparing for its first senior class. Over the past five years, the speech team at Gabrielino High School has grown each year and each year in not only size but success.

Under Derek's guidance, Gabrielino has won the past five Southern California Debate League Championships; four District Sweepstakes trophies; the Leading Chapter Award, and the District Sweepstakes Trophy. Gabrielino has led the district five years and produced three Academic All-American students.

Gabrieliino's team has qualified over 120 students to the California State Tournament with state finalists in Oratory, Oratorical Interpretation, Prose and Poetry, Humor, Drama, Duo, International and U.S. Extemp, with state champions in both Oratory and Drama. Thirty-seven students have qualified for the National Tournament with a semi-finalist in Drama and a national championship in Barbara Jordan Debate. In 1999, Derek was named the Southern California Debate League's Coach of the Year. The past two years, Gabrielino has been ranked in the U.S. Top Ten, including fourth in the nation in 2001 and second in 2002.

Derek has served the NFL East Los Angeles District Committee and is now serving his third term as the District Chairman. Derek has been awarded the NFL's Distinguished Service Award for five years this year, will earn his second diamond.

The California High School Speech Association's Executive Council, the NFL's Executive Council and the National Office are fully aware of Derek's active lobbying efforts for better publicity of forensics, making District Chair jobs easier, doing the right thing for students and speaking up for those programs and districts whose difficulties might sometimes be overlooked.

Derek attributes the success of Gabrielino's program to a talented, caring and supportive teaching staff, administration, and school board. As Derek states, "I'm just the guy that has the key to open the door of the speech room every day and never gets to go out on a date."

Currently, Derek is waiting for the likes of Shania Twain, Faith Hill, Nicole Eggert or FOX Sports net Anchor, Lisa Dagen, to give up their high profile careers and join him coaching forensics at Gabrielino.

NFL Hall of Fame
Nominations Due
Coaches with 25 years membership or retired are eligible.
Send to Albert Odom, NFL, Box 38, Ripon, WI 54971

February Ted Turner Debate Topic
R: The death penalty should be abolished in America.

Lincoln Financial Group/NFL MARCH/APRIL L/D Topic
R: When in conflict, the letter of the law ought to take priority over the spirit of the law.

NEW 2004 Policy Debate Topic

R: That the United States federal government should establish an ocean policy substantially increasing protection of marine natural resources.
2002

1st Place Video Speech Winner

Spencer Lewis, Dickson County High School, Dickson, TN was the first place winner and the recipient of a $2,000 scholarship. Lewis' coach, Glenda Lee Sullivan, received a $500 honorarium. Lewis' speech took him to the final round of the Expository Speech competition at Nationals.

Will the 2003 winner be you?

See opposite page on how to enter
Contest
Your speech could win $2,000 and qualify you for Nationals.

In turbulent times, it is easy to be stampeded into making unwise financial decisions... and follow the crowd in a panic. That's why it's important to have a sound financial strategy now more than ever.

The Lincoln Financial Group Video Speech Contest gives you an opportunity to learn about the advantages of retirement planning and compete for a scholarship for your future education at the same time.

What are the prizes?
- The first-place winner will receive a $2,000 scholarship
- The second-place winner will receive a $1,000 scholarship
- Both winners will qualify for expository speaking at the 2003 NFL National Tournament in Atlanta, GA.
- Video excerpts from the winning speeches will be online at LFG.com and at the 2003 NFL National Tournament in Atlanta.
- Coaches of each winner will be awarded a $500 honorarium.

What's the topic?
Taming the Bull and the Bear... the importance of a sound financial strategy

Who's eligible?
You are — if you are a high school speech student and a member of the National Forensic League.

How does the contest work?
- You must prepare an original expository speech no more than five minutes in length.
- The speech must be videotaped — production quality will not be part of the judging. Lincoln will retape the winning speeches, if necessary, for the excerpts on LFG.com and at the 2003 NFL National tournament.
- Only one videotaped speech per school may be submitted. If several students in your school wish to participate, a local school elimination should be held.

What's the deadline?
All entries are due to Lincoln Financial Group on or before March 24, 2003.
Entries should be mailed to:
Lincoln Financial Group
NFL Video Speech Contest
1300 S. Clinton St. — 7H00
Fort Wayne, IN 46802

Include with the videotape a typed transcript of your speech and include the name, address and phone number of the student, coach and school.

Who's judging?
A panel of judges from Lincoln Financial Group will select the winners. Judges' decisions are final. Winners will be contacted by April 30, 2003 and will receive their awards at the 2003 NFL National Tournament.

Who is Lincoln Financial Group?
Lincoln Financial Group is a diverse group of financial services companies, all dedicated to helping make the financial world clear and understandable so you can make informed decisions to help meet your financial objectives. As the NFL's overall corporate sponsor, Lincoln funds the national tournament and provides $78,000 in college scholarships and awards.

BROKEN PROMISES - DISASTROUS CONSEQUENCES FOR PEOPLE WITH MENTAL ILLNESSES

by
Ron Honberg, J.D., M.Ed

I am convinced that, if we apply our medical knowledge and social insights fully, all but a small portion of the mentally ill can eventually achieve a wholesome and constructive social adjustment. It has been demonstrated that two out of three schizophrenics - our largest category of mentally ill - can be treated and released within 6 months. ... if we launch a broad new mental health program now, it will be possible within a decade or two Deutsch’s Shame of the States had revealed in shocking detail the dehumanizing conditions inside many state hospitals (“insane asylums”). But, the idealism and optimism driving passage of the Community Mental Health Centers Act never translated into reality.

True, President Kennedy’s dream of reducing the census of large public psychiatric hospitals has largely come true. In 1955, there were approximately 565,000 individuals with mental illnesses in public psychiatric hospitals across the country. Today, there are barely 40,000 individuals with mental illnesses in these hospitals.

In one sense, this is truly good news. Advances in science have led to the discovery of new treatments for brain disorders such as schizophrenia, bipolar disorder (manic-depressive illness), major depression and other mental illnesses. Today, a psychiatric diagnosis doesn’t have to mean a life sentence to a psychiatric hospital. With appropriate treatment and services, most people with mental illnesses can recover — and live productive and dignified lives in the community.

But, President Kennedy’s vision of large numbers of individuals with mental illnesses living safely and independently in the community never truly materialized. The reasons are complex and multi-faceted.

Certainly, inadequate funding is one culprit. In 1980, the Community Mental Health Centers categorical grant program was repealed and replaced by the Community Mental Health Services Block Grant. Since then, according to the National Council on Disability, federal funding of community mental health services through this block grant program has decreased in real dollar value (factoring in inflation). (National Council on Disability, “The Well-Being of Our Nation: An Inter-Generational Vision of Effective Mental Health Services and Supports”, (September 16, 2002), p. 7, available at www.ncdd.gov/newsroom/publications/mentalhealth.html).

And, funding of vital services for people with mental illnesses is today at even greater risk, as states respond to budget deficits by considering cuts in mental health services and Medicaid.

Funding of vital services for people with mental illnesses is today at even greater risk, as states respond to budget deficits by considering cuts in mental health services and Medicaid.
But, inadequate funding is only part of the problem. Perhaps an even greater factor has been lack of coordination and fragmentation at all levels of the mental health services system. The stage for this fragmentation was set early on - in the regulations enacted to implement the Community Mental Health Centers Act of 1963 - which neglected to require coordination between the institutions discharging individuals and the CMHCs expected to serve them following discharge. (See e.g. R.J. Isaac and V.C. Armst, *Madness in the Streets: How Psychiatry and the Law Abandoned the Mentally Ill*, pp. 82-83 [1990].)

In hindsight, it was naïve to expect that CMHCs could effectively address the needs of formerly institutionalized individuals through simply providing medications and psychotherapy. The law and regulations implementing the Community Mental Health Centers Act of 1963 barely mentioned housing, despite the fact that many individuals discharged after long periods of institutionalization had no place to go. (Isaac and Armst, Id., pp. 80-81.)

Today, we know that people with serious mental illnesses require multiple services and supports to live in the community. Responsibility for these services is today vested with multiple agencies - all of which may be funded differently, and adhere to different rules. These agencies frequently don't communicate with one another - or work together to find ways to blend their services and resources. In view of this, is it any wonder why America's mental health service delivery system is, as stated by Michael Hogan, Chair of the President's New Freedom Commission on Mental Health in a letter to President Bush, "in shambles"?

**The Consequences of Lack of Treatment and Services.**

A recent study revealed that less than 40% of Americans with mental illnesses today receive stable treatment. (D.A. Kessler, et al. "The prevalence and correlates of untreated serious mental illness," *Health Services Research* 36(6), 9870-1007 [2001].) When people with serious mental illnesses don't receive the services they need, the results are often catastrophic. "The evidence of our failure to help people with mental illness is most apparent and most glaring on our Nation's streets; under our bridges, and in institutions like nursing homes and jails." (President's New Freedom Commission on Mental Health, *Interim Report to the President*, [October 29, 2002], p. 8.)

The costs and consequences of untreated or inadequately treated mental illnesses for persons with mental illnesses themselves as well as for American society are evident in many ways. These costs and consequences include:

**Economic Consequences:** As a nation, we have paid a tremendous price for our failure to develop and implement effective mental health service systems. This price is reflected both in the direct costs of providing crisis-oriented mental health care and in indirect costs such as productivity losses due to disability, productivity losses for individuals providing care, and the costs of public benefits such as Supplemental Security Income (SSI) and Medicaid.

An important report recently issued by the World Health Organization (WHO) revealed that serious mental illnesses (including depression, bipolar disorder and schizophrenia) ranks first in terms of causing disability in the U.S., Canada and Western Europe. (World Health Organization, *The World Health Report 2001 - Mental Health: New Understanding, New Hope*, [2001]. [www.who.int/whr/].) And, the Surgeon General's 1999 report revealed that the cost to the U.S. economy due to lost productivity caused by mental illnesses was $63 billion. (Mental Health: A Report of the Surgeon General, [1999], p. 41.)

Supplemental Security Income (SSI) is a federal program that provides income supports for individuals with disabilities who are indigent and whose disabilities prevent them from working. In 2001, 36% of SSI recipients nationally were diagnosed with mental illness. By comparison, 25% of SSI recipients had mental retardation, 9% suffered from disabilities of the nervous system (strokes, traumatic head injuries, etc.), and 8% from disabilities of the Musculoskeletal system. (Social Security Administration, SSI statistics for 2002, [www.ssa.gov/statistics/ssi_disability_years]().)

The costs of failing to provide adequate care for persons with mental illnesses are staggering! And, these costs are frequently unnecessary. With appropriate services and supports, many people with these illnesses can recover and become productive. We have truly paid a tremendous price for our short-sighted and ineffective mental health policies.

**Homelessness:** There are currently approximately 600,000 individuals who are homeless in the U.S. on any given day. According to the U.S. Conference of Mayors, approximately 40% of these, or 240,000 persons, suffer from serious mental illnesses. Many of these individuals also have co-occurring substance abuse disorders.

Poverty is frequently cited as the leading cause of homelessness in the U.S. While individuals with severe mental illnesses are often very poor, the causes of homelessness among people with mental illnesses are more frequently attributable to the symptoms of these illnesses themselves. For example, individuals experiencing terrifying paranoid delusions caused by their untreated schizophrenia may become suspicious of family members or friends trying to help them and end up living in the streets.

The solution to ending this tragedy is treatment - treatment and services that can control these horrific symptoms and help the person recover. However, these services are frequently unavailable, particularly for individuals who are homeless or have otherwise "fallen through the cracks."

**Criminalization:** One of the most disturbing trends is the emergence of U.S. jails and prisons as "psychiatric treatment facilities." A report issued by the U.S. Department of Justice in 1999 revealed that 16% of all inmates in these facilities, 283,000 persons, suffered from serious mental illnesses. (U.S. Department of Justice, *Mental Health and Treatment of Inmates and Probationers*, [1999], [www.ojp.usdoj.gov/bjs/pubhlp2.htm]. Today, the Los Angeles County jail, the Cook County (Chicago) jail, and Rikers Island (New York City) are the largest de-facto psychiatric hospitals in the U.S.

Individuals with mental illnesses in jails have usually not committed serious crimes. Most have been arrested for non-vio-
lent misdemeanors or felonies that can be directly attributed to the untreated symptoms of their illnesses.

Some individuals with mental illnesses are held in jails on no charges at all. They are brought to jail because there are no beds available in local hospitals, or because the police deem jails to be a safer place for these individuals than the streets. (National Alliance for the Mentally Ill and Public Citizen’s Health Research Group, Criminalizing the Seriously Mentally Ill: The Abuse of Jails as Mental Hospitals, 1992; revealing that 25% of U.S. jails acknowledged that they sometimes hold people with mental illnesses without charges).

African-Americans and Latins are disproportionately represented among the population of persons with mental illnesses incarcerated in jails and prisons. This, of course, is a microcosm of the general inmate population in the U.S. It is not hard to speculate that an African American individual with mental illness who acts in a psychotic or bizarre way in the streets will more likely be arrested and brought to jail than a Caucasian individual with mental illness.

Suicides: According to the National Institute of Mental Health, scientific evidence has shown that almost all people who take their own lives have a diagnosable mental or substance abuse disorder, and the majority have more than one disorder.

The prevalence of suicide is particularly high among teenagers and young adults. In 1966, more teenagers and young adults died of suicide than from cancer, heart disease, AIDS, birth defects, stroke, pneumonia, influenza, and chronic lung disease combined.

Treatment is the best way to reduce the risk of suicides. But, due to stigma and continuing taboos surrounding mental illnesses, many may tragically avoid treatment until it is too late. (Visit the NAMI website, www.nami.org/illness/info.html#19, for more information about suicide).

Violence: Age-old myths linking mental illness with violence are just that – myths. Research has firmly established that there is no general correlation between mental illnesses and violence.

However, there are certain factors that may increase potential risks for violence in certain cases. By far the greatest risk factor is the presence of a mental illness and co-occurring substance abuse. Lack of treatment can also be a risk factor in certain cases. But, with treatment, the risks of violence are minimal, no greater than with anyone else. In fact, as the next section describes, people with mental illnesses are more likely to be victims of violence than perpetrators of violence.

Victimization: Studies have shown that people with mental illnesses are at high risk of victimization by others. This is particularly true for individuals who are homeless or living in substandard housing. Studies have also shown that individuals with mental illnesses who are receiving treatment and services are less likely to be the victims of crimes by others. (See e.g. V.A. Hiday, et al., “Criminal Victimization of Persons with Severe Mental Illnesses” Psychiatric Services 50: 62-68 (1999).

Potential Solutions:

In 2003, NAMI’s advocacy priorities at Federal and State levels focus on finding solutions to the problems described above. A comprehensive discussion of these potential solutions is beyond the purview of this article. However, a few of these priorities will be described in this final section.

1. Protect state funding and Medicaid benefits for vital services and supports for people with mental illnesses. In 2003, already inadequate state funding for mental health services is at grave risk, as states respond to budget deficits by cutting discretionary mental health budgets. States are also considering damaging cuts to Medicaid benefits, including limits on access to newer psychiatric medications, as cost-cutting options. State governors and legislators must understand that the consequences of cutting state mental health services for children and adults with mental illnesses will be more misery, more suffering and ultimately more state and local resources depleted through responses to people experiencing psychiatric crises or emergencies due to lack of treatment.

2. Achieve parity in private and public systems that finance care for individuals with mental illnesses. Disparities exist in virtually every private insurance policy and public program that pays for treatment and services for individuals with mental illnesses and other medical disorders. NAMI’s advocacy in 2003 will include:

   • Advocating for enactment of a federal law requiring treatment of mental illnesses in the same way as other medical conditions in private health insurance policies.
   • Advocating for a Medicare prescription drug benefit for persons with disabilities and mental health benefits in Medicare equal to benefits for all other medical disorders. (Currently, Medicare requires a 50% co-pay for outpatient mental health treatment, whereas it requires only a 20% co-pay for outpatient treatment for other medical conditions).
   • Advocating for elimination or a narrowing of the “Institute for Mental Diseases” exclusion in federal Medicaid law, a federal policy that currently prevents federal Medicaid funds from being used to pay for inpatient treatment in psychiatric hospitals.

Advocate for humane treatment, including access to the most effective medications, for individuals with mental illnesses who are incarcerated.
Promote linkages with services, benefits and housing for individuals with mental illnesses upon discharge from jails and prisons.

The U.S. Congress has exerted leadership in recent years by authorizing federal funding for a variety of jail diversion initiatives. In 2003, Congress will be presented with an opportunity to take the next step by passing a bill to authorize resources to find services linking individuals diverted from incarceration with needed services and supports to achieve recovery and prevent recidivism. This bill, called the “Mentally Ill Offender and Crime Reduction Act of 2002”, is supported by a bipartisan coalition of Senators and Representatives, led by Senator Mike DeWine (R. Ohio) and Congressman Ted Strickland (D. Ohio).

4. Promote meaningful work incentives in the Federal Supplemental Security Income (SSI) and Social Security Disability Insurance (SSDI) programs.

In 1999, Congress enacted the “Ticket to Work and Work Incentives Improvement Act of 1999”, a milestone law designed to provide incentives for SSI and SSDI recipients to enter or re-enter the workforce without fear of immediate loss of benefits. Unfortunately, the law has been implemented in a way that does not effectively help individuals whose severe disabilities may require a more gradual reentry into the workplace, such as people with serious mental illness.

In 2003 and beyond, NAMI will advocate for changes that enable individuals with schizophrenia and other serious mental illnesses to benefit from this important new law. We will also undertake efforts to ensure that this law is effectively implemented at state and local levels.

5. Advocate for funding of programs that provide integrated and coordinated mental health and substance abuse treatment through the federal mental health and substance abuse block grants and other funding streams.

Seven to ten million Americans suffer from at least one mental disorder plus a co-occurring substance abuse or addictive disorder. Scientific evidence demonstrates that the most effective way to treat people with “co-occurring disorders” is through treatment that combines mental health and substance abuse treatment simultaneously, under one administrative roof.

Unfortunately, very few programs providing integrated mental health and substance abuse treatment exist across the country. The reason for this is that mental health and substance abuse services are financed through separate funding streams, with different rules and requirements. This is an example of what the New Freedom Commission means by “fragmentation of services”.

In 2003 and beyond, NAMI will advocate strenuously at federal and state levels to promote policies that increase the availability of integrated treatment for individuals with co-occurring mental illnesses and substance abuse.

(For more information about best practices in responding to people with co-occurring disorders, see “Report to Congress on the Prevention and Treatment of Co-Occurring Substance Abuse Disorders and Mental Disorders”, available at www.samhsa.gov.

- For information about NAMI’s advocacy agenda for children and adolescents with mental illnesses, see: D. Gruttadaro. “Child and Teen Mental Illnesses and the National Healthcare Crisis”, 

- Finally, for more information about NAMI’s advocacy and policy priorities, see: NAMI’s Advocacy Presented to the New Freedom Commission on Mental Health, July 18, 2002, available on the NAMI website at www.nami.org/pressroom/testimony/
  mentalhealth2002.html.

**Conclusion:**

To paraphrase Charles Dickens, 2003 is both the best of worlds and the worst of worlds for people with mental illnesses. It is the best of worlds because scientific progress has made recovery, productivity and dignity real possibilities for many people with these illnesses. But, it is the worst of worlds because the promises of discovery have not been adopted into actual practice. The consequences for people with mental illnesses have been disastrous. As a nation, we cannot afford to continue the shameful legacy of neglect that has so often characterized our mental health systems. We know how to do better – and we must do better.

1 The $60 billion figure was derived from 1990 data, the most recent year that such data was available. The costs to American society in terms of lost productivity due to mental illness are undoubtedly far greater today.

(Ron Houberg is NAMI’s National Director for Policy and Legal Affairs.)

Stanford National Forensic Institute
Lincoln Douglas & Individual Events

The Stanford National Forensic Institute offers a unique national caliber program conducted by the Stanford Debate Society of Stanford University, a registered student organization of the Associated Students of Stanford University.

Two Week Program: This program allows students of LD or Events to spend two weeks studying and practicing with other gifted students from throughout the nation. The LD camp provides students with a daily schedule of 14 expertly critiqued practice debates. One of the finest LD faculties in the nation will teach students both fundamentals and advanced techniques in a rigorous, carefully structured environment.

Three Week Program: The outstanding highlight of this program will be an extra 20 fully critiqued practice rounds. Students attending other camps during the summer can avail themselves of this one week experience or students in the regular camp can extend their stay for a total of 34 practice rounds between the two programs, for a total of three intensive weeks.

Stanford Advanced Seminar: An exclusive SNFI workshop dedicated to in-depth issue examination. This seminar will be taught by some of the top instructors from the SNFI staff. Ideal for students with previous institute experience, open to all experienced students returning to SNFI for a second or third year, and others by application.

Faculty: The SNFI LD faculty is comprised of coaches and former competitors who have achieved the highest levels of success in the activity. This year’s faculty will include: Dr. Michael Major, Director; Jon Gegenheimer, Assistant Director; Jonathan Alston, Newark Science High School; Michael Aron, New Orleans Jesuit High School; Chrenia Kang, Apple Valley High School; Richard Re, New Orleans Jesuit High School; Michael Ososkyl, Stanford University; Adam Landidesen, Bellarmine College Prep; Hetal Desai, Emory University; Noah Grabowitz, Stanford University; Gigi Garmentia, Harvard College; Matt Buchan, Trinity Prep; John Lynch, Ohio State University; and others. The institutions noted are where the relevant SNFI staff member works, debates or debated, and/or studies during the academic year, and are for identification purposes only.

Lincoln Douglas & Individual Events

Tentative Dates & Prices

July 23 – August 10, $1600

LD Extended Week

August 10 – August 17, $1000
The Stanford National Forensic Institute offers unique national caliber programs conducted by the Stanford Debate Society of Stanford University, a registered student organization of the Associated Students of Stanford University.

The Three Week Program: The Three Week curriculum balances improving students debate technique through expertly critiqued practice rounds, with in-depth discussion of debate theory and the topic for the year. Students will work with each other and the faculty on research and argument construction to create a full set of evidence available to all SNFI students. Students may also apply to the Swing Lab, a special program within the larger Three Week session. The Swing Lab program is designed to provide a continuation of participants prior camp experience with an advanced peer group and the finest instructors. To be eligible to apply students must have previously attended at least one previous debate institute during the summer of 2003.

The Four Week Program: The Four Week Program is fully integrated with the Three Week Program, but adds an additional week, which focuses primarily on technique and practice rounds. Students are guaranteed to get 16 fully critiqued practice rounds in the final week, which effectively means that participants will have the equivalent of a semester or more of experience by the start of the school year. Four Week students are welcome to apply to the Swing Lab for the first three weeks of the camp.

Faculty: The SNFI faculty is composed of current and former competitors and coaches from successful programs all over the country. Initially confirmed staff for summer of 2003 include:

Dr. Anne Marie Todd - San Jose State
Dave Arnett - UC Berkeley
Jon Sharp - University of Southern California
Sarah Holbrook - West Georgia
Casey Kelly - Wake Forest University
John Hines - University of North Texas
Chris Macfarlane - University of Southern California
Erik Holland - University of Southern California
Mikaela Kogosz-Solarz - Macalester College
Anna Armentrout - UC Berkeley
Eliot Tarloff - Harvard University
Beth Schaefer - Whitman College
Matt Fraser, Executive Director - Stanford University
Robert Thomas, Academic Director - Stanford University

The institutions noted are where the relevant SNFI staff member works, debates or debated, and/or studies during the academic year, and are for identification purposes only.
Policy Debate:
June 22 through July 11, 2003

Lincoln-Douglas Debate:
June 29 through July 11, 2003

Novice Policy:
June 22 through July 4, 2003

THE CHAMPION CALIBER FACULTY INCLUDES:

Policy Instructors
Scotty Gottbreht, Northwestern University
Brian Lain, University of North Texas
Shawn Powers, University of Georgia
Johnny Prieur, University of North Texas
Alex Pritchard, Westwood High School
Steve Stein, Chattahoochee High School
Jason Sykes, Grapevine High School
Tara Tate, Colleyville Heritage High School
Bunny Tucker, University of Southern California

Lincoln Douglas Instructors
Peter Fan, Emory University
Dave Huston, Highland Park High School
Stephanie Oravetz, University of Texas
Ann Turpin, R.L Turner High School

Lincoln Douglas Research Assistants
Daryl Pinto, Highland Park High School
Frank Sun, University of Texas

CANNED ATTENTION GETTING DEVICES: EXTEMPORANEOUS SPEAKING OR DINNER THEATER?

by

Brian J. Householder

Most speech texts recognize three basic parts of a speech, the introduction, body, and conclusion. In more advanced analyses the parts of a speech are further broken down. The introduction is arguably the most complex and important part of a speech. A speech introduction can be broken down into four distinct parts: (1) the attention getter, (2) specific purpose statement, (3) relation of speech topic to audience, and (4) preview. Addressing each one of these elements successfully is vital to giving a successful speech of any kind.

Clever speakers are able to craft a strong link between the attention getting device they use and the question they must attempt to answer.

The extemporaneous speaking contest is a unique animal. In general, competitors are given thirty minutes to prepare for a seven-minute speech. Topics are often centered on foreign and domestic news issues. In recent years, a problem has come to light: students and their coaches have been "canning" attention getters in an attempt to get an edge on their competition. First, this essay seeks to define the attributes of a successful attention step and explain the "canning" process. Moreover, this essay addresses the logistical and ethical problems with "canning." Finally, this essay proposes steps that speakers and coaches can take to assure that their attention getters are fresh.

Getting a speech off to a successful start is crucial for two reasons, the confidence of the speaker and the initial impression on the critic. Just like a basketball player who starts a game with a hot shooting hand, an extemporer who starts hot will more often than not have a good round. The critic, like a fan at a game, will have a more positive experience watching a confident and successful speaker and accordingly rank that speaker higher in the round. What constitutes a strong attention step? There are many attention getting devices that have been employed by good speakers: jokes, rhetorical questions, personal stories, literary illusions, fables, startling statistics, historic quotes, recaps of historical events, plot discussions of movie and television programs, descriptions of political cartoons, and others. The basic premise operating in the attention getter is that these devices are exciting, able to draw the critic into the speech with their natural drama by activating the critic's curiosity. Often times these attention devices are only loosely linked to the topic at hand. Clever speakers are able to craft a strong link between the attention getting device they use and the question they must attempt to answer.

Furthermore, a strong attention getting device creates a theme that functions as a linking mechanism through the speech. For example, a former foreign extemp champion used a pop music theme and worked that theme into each of his main point transitions. By using an attention getting device that lends itself to a theme, the speaker creates a strong sense of organization and rhetorical sophistication. That degree of rhetorical sophistication is difficult for many orators to achieve with a whole speech season for fine-tuning their speeches. Many extempers and extemp coaches are resorting to preplanning attention getting devices and themes to improve the perceived rhetorical sophistication of their speeches and gain an edge over the competition. Once an extemp has an attention getting device down s/he will call on that device repeatedly over the course of the speech season and even repeatedly in a tournament.

Canning of attention getting devices presents a multitude of logistical problems. It has become par for the course that a judge see a competitor use the same attention step in a preliminary round and in the final round of the same tournament. Likewise, it is not uncommon for a judge to hear the same attention getter and theme from members of the same team in different rounds. Moreover, this problem is compounded by competitors from different schools attending the same national summer institute. Competitions at summer institute, in their labs (work groups) will in teams or individually work on creating attention getters that are shared by the group. It is not unheard of for competitors who attended the same institute during the summer to approach an institute lab mate in the prep room when in the same panel to inquire about what attention getter they might be doing. Even in late elimination rounds of the national tournament competitors have used identical attention getters in the same panel. Canning presents a logical dilemma for evalu-
tors. When seeking a clearly canned attention step the critic must decide if they wish to punish (give a lower rank) the extemp for the lack of creativity or both in the case of two competitors using the same attention step in the same round.

Additionally, the canning of attention gets creates an ethical dilemma. The National Forensic League (NFL) recognizes extemporaneous speaking as an original speech event. As a result of being classified as an original event extemporaneous speakers are rewar ded with more NFL points than interpretative speech. Often times attention getters take up a significant portion of a speech (1-2 minutes). Since canned attention getters are often written in institute labs, intramural work groups, or by overly helpful coaches, the question of whether extemporaneous speech is an original or an interpretive event comes into question? Ought an extemp be awarded original event points for presenting something entirely unoriginal? It is my contention that the presentation of canned material constitutes fraud and is antithetical to the natural intent and definition of extemporaneous speaking. No words should be presented in a speech that are not the words of the speaker without that speaker offering a citation or authorship credit. Basically, canning is plagiarism. As educators and students we understand that plagiarism is unethical and uneducational.

Furthermore, promotion of canning threatens the pedagogical value of the contest as a whole. Oftentimes students who can are highly successful, younger students tend to learn via a social learning model and implement the techniques of the canners. As a result, students do not learn the value of the extemporaneous style, rather learning the memorized style of delivery. Why stop at the introduction? Why not memorize whole speeches? I know this is a slippery slope but I have had more than a few personal run-ins with seeing speakers do the exact same speech at different tournaments on different questions.

Extempers have been heard saying in prep rooms around the country, “Oh! This is a Russia topic. I will do my Russia speech.” Critics often complain about introductions and whole speeches that fail to really address the topic. Often, this is nothing more than the impact of canned introductions gone too far. Speakers learning to short cut entire speeches to gain any competitive edge, their speech no longer being truly extemporaneous and at the same time not having the value of flexibility and freshness that comes with the extemporaneous style of speech. Again, these speeches are not in-line with the true spirit of the extemporaneous speaking event.

The simplest solutions to this rampant problem are education and coaching. Educating coaches and competitors that canning is not proper. Educating coaches and competitors to alternatives to canning is also important. The only genuine alternative to canning is using fresh introductory material. This requires a great deal of work. Weekly, the quality extemp should be on the lookout for material that would make a good attention step and anticipating what questions might be in the loop of that week’s tournament. Oftentimes, extempers and extemp coaches are short cited in their approach to what constitutes a good source of attention material and what topics might appear. Remember that a major part of the successful introduction is critic or judge identification. Speakers tend to over estimate audience intelligence by picking material that is over their critics heads and/or not something the judge can relate to on a personal or interpersonal level. Picking odd local news events, cover stories in popular magazine (People, Entertainment Weekly, and Better Homes & Gardens), and story lines from top rated television programs would be strong aids in making the identification link. Chances are critics have seen those devices thought about those devices, and can identify with those devices more then a crusty old fable. Also, those devices are constantly changing, updating and fresh.

If going with a truly fresh introduction is not possible, freshen, change or twist an old introduction. Make-up a new character or add a new part to a fable/story used in the past. Augment the punch line of a joke used in the past. The key to any attempt to freshen is adding enough new material to the old, that the old is revitalized and timely. An extemporaneous speech should fit that moment in time and topic: not any moment in time and any topic.

There are additional advantages to going with fresh over canned. Other than the logistical problem with same competitors using the same introduction in rounds, speakers who use fresh will come across with more energy. After using the same introduction a few times speakers get flat or bored with the introductory segment. Energy is the main advantage of the extemporaneous style of delivery and the main criticism of short coming of the memorized style of delivery. Just like a performer in a stage show, it is hard to recreate the energy of opening night. Even the most seasoned actors will complain of the difficulty involved in getting up for the same performance night after night. If extempers where great actors, they would be doing D1 or HI and not DX or FX. Moreover, even the best interpers are making changes (adding or changing characters and gestures) to keep their pieces fresh though out the long forensics season. Extempers should never face the concern of energy or lack of pop due to boredom with a speech since each speech should be unique. In the end, speakers that use fresh introductions will be rewarded by critics for being energized and original and not penalized for being bored, boring, and indistinguishable from the previous speaker.

This essay explicates the importance and parts of a quality introductory segment, discussed the problem of canning in extemporaneous speaking contests and offered some alternatives to the canned introductions. Unless coach and competitors stop taking steps to eliminate the canning of introductions (and speeches) the extemporaneous speaking contest is in jeopardy. Maybe the NFL should change the name of the Extemporaneous Speaking Contest to Current Events Interpretation? Whatever the answer to that question, fresh introductions are always better than canned.

(Brian J. Householder (M.A., Wake Forest University, 2000) is a doctoral student in the Department of Speech Communication at The University of Georgia. He is the former coach of Danville-Monte Vista HS in California and Humboldt State University, and is a former instructor at the Stanford National Forensic Institute. He has judged the final round of Foreign Extemp at NFL Nationals and he has worked the prep room at NFL Nationals on numerous occasions.)

THE NEXT GENERATION
OF DEBATE EDUCATION

is Partnering with

MARQUETTE UNIVERSITY

Three Great Ways to Use SummerDebate.com...

A Summer Debate Institute

➢ Work with great lab leaders and America's finest faculty
➢ Learn the topic and debate theory
➢ Learn online at your convenience from June 1 - August 15
➢ Extremely Affordable!!
   Policy $349
   LD $299 or LD (Topic only) $199

A Comprehensive Classroom Resource

➢ Summer coach participants can use the program in which they participate as an online textbook for their own students.
➢ Program includes self-grading quizzes and assignments for each appropriate unit.
➢ Online text access for only $25 per student!

Summer School or Professional Development

➢ High School Seniors can earn 3 optional credits through Marquette University ($1750 fee)
➢ Coaches participating in the institute can earn three optional continuing education units through Marquette University ($100 fee)
➢ Coaches can learn to teach the program as an online course to their own students during the school year!

THE UNIVERSITY OF TEXAS NATIONAL INSTITUTE IN FORENSICS

THE RACE IS ON! AS YOU CONTINUE TO SPEAK ON THIS YEAR’S TOPIC, HIGH SCHOOLS ACROSS THE UNITED STATES HAVE BEGUN DELIBERATIONS TO DECIDE NEXT YEAR’S HIGH SCHOOL DEBATE RESOLUTION. WHAT WILL IT BE?

RESOLVED: THAT THE UNITED STATES FEDERAL GOVERNMENT SHOULD ESTABLISH AN OCEAN POLICY SUBSTANTIALLY INCREASING PROTECTION OF MARINE NATURAL RESOURCES.

RESOLVED: THAT THE UNITED STATES FEDERAL GOVERNMENT SHOULD ESTABLISH A POLICY SUBSTANTIALLY INCREASING THE CIVIL RIGHTS OF CHILDREN IN THE UNITED STATES.

HERE AT THE UTNIF WE HAVE ALREADY BEGUN CONSIDERING THE STRATEGIC POSSIBILITIES, HAVE YOU?

WHAT MAKES THE UTNIF UNIQUE BESIDES THE FACT THAT IT HAS CONSISTENTLY BEEN THE MOST AFFORDABLE QUALITY DEBATE INSTITUTE ON THE PLANET?

- A FACULTY COMPRISED OF SOME OF THE BEST COLLEGE AND UNIVERSITY COACHES WITH LENGTHY EXPERIENCE AT DEBATE INSTRUCTION.

- TOP NOTCH KRITIK INSTRUCTION. HAS KRITIKING GOT YOU DOWN? WHETHER YOU HATE THEM OR LOVE THEM, THE KRITIK / DEBATE MARRIAGE IS HERE TO STAY. LEARN FROM THE BEST INNOVATORS AND AGITATORS IN THE KRITIK BUSINESS. THE UTNIF HAS ASSEMBLED ONE OF THE BEST KRITIK STAFFS IN THE COUNTRY. DAVID BRESHEARS, JAIRUS GROVE, KEVIN KUSWA BRIAN McBRIDE, AND JOEL ROLLINS, JUST TO NAME A FEW, WILL HELP YOU TO RETAIN A WORKING KNOWLEDGE OF CRITICAL THINKING’S PLACE IN DEBATE, MAKING OFTEN OBTUSE PHILOSOPHICAL IDEAS PALATABLE AND STRATEGICALLY DEPLOYABLE IN ANY DEBATE CONTEXT. WHILE OTHER INSTITUTES WILL FILL THEIR KRITIK POSITIONS BY HIRING A COUPLE OF CURRENT “KRITIK-FRIENDLY DEBATERS” TO TEACH THE WHOLE CAMP, EVERY LAB AND LAB INSTRUCTOR AT THE UTNIF IS HIGHLY QUALIFIED IN BOTH CRITICAL AND POLICY STRATEGIES. OUR INSTRUCTORS WERE THERE AT THE VERY BEGINNING, STRUGGLING TO MANEUVER CRITICAL PRACTICE WITHIN THE CONFINES OF POLICY DEBATE. OUR STAFF DOESN’T SIMPLY TEACH KRITIK DEBATING, THEY HELPED BRING IT TO LIFE.

- A COMMUNITY WHERE STUDENTS CAN DISCARD THE ELITISM AND SCARRING SIDE OF COMPETITIVE DEBATE IN FAVOR OF A COOPERATIVE ATMOSPHERE WHERE IDEAS AND RESEARCH ARE SHARED FREELY AND PRIDE IN ONE’S ACCOMPLISHMENTS BECOMES ITS OWN REWARD.

- A TEACHING PHILOSOPHY THAT READIES STUDENTS TO DEBATE AS EARLY AS THE WORKSHOP BEGINS. EACH STUDENT WILL BE GIVEN TWO AFFIRMATIVES AND NEGATIVE STRATEGIES UPON ARRIVAL. AT THE UTNIF WE BELIEVE IN THE PEDAGOGICAL VALUE OF DEBATI NG, NOT LECTURING. EACH DEBATE WILL BE CRITIQUED BY A FACULTY MEMBER IN A WAY THAT EMPHASIZES TEACHING AND LEARNING, NOT JUST “WHO WON.” WHY WAIT UNTIL THE INSTITUTE IS HALF OVER, GETTING LOST IN ENDLESS LIBRARY TRIPS? LET THE DEBATES BEGIN.

- A LIBRARY THAT IS WORLD RENOWNED FOR ITS EXCELLENCE, WHERE STUDENTS WILL HAVE FULL BORROWING PRIVILEGES, ACCESS TO ELECTRONIC RESEARCH TOOLS AND EVIDENCE THAT WE GUARANTEE CANNOT BE FOUND AT OTHER CAMPS.

CHALLENGE YOURSELF IF YOU DARE! WE'RE MAKING SOME IMPROVEMENTS, CHECK IN AT OUR WEBSITE AT HTTP://WWW.UTEXAS.EDU/COC/CMS/UTNIF/ AND WATCH US GROW! CONTACT BRIAN McBRIDE WITH QUESTIONS AND SUGGESTIONS AT DFUDGE@NORTHWESTERN.EDU OR JAIRUS GROVE AT JAIRUSGROVE@HOTMAIL.COM.

TENTATIVE DATES:

- Plan 1: June 23rd - July 12th
- Plan 2: July 16th - August 9th
- Super Session: June 23rd - August 9th
Theatre for the classroom!

Perfection Learning® is pleased to announce the acquisition of Clark Publishing. Together, our companies have served educators for over 125 years. We look forward to offering you an even greater selection of textbooks in drama, forensics, speech, and journalism.

Basic Drama Projects
Seventh Edition By Fran Averett Tanner, Ph.D. ©1999
Over 30 projects on all aspects of theatre
Drama means doing. In this unique introductory theatre text, students are actively “doing” projects that explore theatre history, acting, and production in each chapter. The projects and activities are sequenced to lead students from an overall view of the theatre to the specifics of the art.

The Teacher Guide has extensive support material for beginning teachers or teachers new to the field of drama.

Drama for Reading & Performance
Collections One and Two ©2000
NEW plays by distinguished playwrights will revive your language arts or drama classroom!
These two excellent drama collections feature intriguing full-length plays by award-winning, contemporary playwrights and authors—many never before anthologized. Each anthology features 17 to 19 one- to three-act plays in multiple dramatic formats.
The comprehensive Teacher Resources have everything you need to involve students in a literary study or a performance.
Collection One—Middle School and High School, 340 pages.
Collection Two—High School, 440 pages. (Some plays have adult themes.)

Page to Stage
Plays from Classic Literature ©2002
A collection for the drama or literature classroom
All 17 plays in this anthology are adaptations of well-known short stories, novels, or myths, such as Frankenstein, Ordinary People, Animal Farm, Sir Gawain and the Green Knight, The Vedet, and many more. Each can be performed in a classroom or used to provide students with a deeper, richer understanding of the original text. The flexible design allows the plays to be used before reading, after reading, or as a substitute for the original literary format.
A Teacher Guide provides plot summaries, teaching suggestions, tips for a performance, media resources, Internet sites, and quizzes.

Rhetorical Canons and Extemporaneous Speaking

The conceptualization of rhetoric is linked with the formation of citizen juries in ancient Sicily. Unlike Athens, where democracy had flourished for a century and a half, Sicily became democratic suddenly and citizens found a need to speak publicly to defend their property in court (Kennedy 18). Teachers such as Corax and Tisias emerged, and successful practices in litigation began to be written down. This codifying of sound practices eventually led to the division of rhetoric into the five canons: Invention, Arrangement, Style, Memory, and Delivery. The canons have long been useful for both analytical and generative purposes. That is to say, they provide a template for the criticism of discourse (and orations in particular), and they give a pattern for rhetorical education (Burton 1). By defining the relationship of the canons to the practice of extemporaneous speaking, evaluative questions, which can serve as a guide for the critic of the extemporaneous performance, will emerge.

The first canon, Invention, "concerns finding something to say" (Burton 1). We must determine whether an extemporaneous speaker has, in the throes of Invention, both clearly defined a purpose for the speech, and provided content that is, in fact, inventive. Classically, rhetoric has three ends: to inform, to persuade, and to entertain. But Daniel Crom-Mills defines extemporaneous speaking inherently persuasive, as he writes that it is "an abbreviated form of persuasion designed to persuade an audience in a particular direction concerning current news issues" (8). Aristotle himself defined rhetoric as "the faculty of discovering in the particular case all the available means of persuasion" (Aristotle 37). For many in the ancient world, "Invention involved the choice not simply of a subject on which one could discourse, but rather of one for which a convincing case could be made" (Ulanov 298). Thus, even an informative speech is inherently persuasive if we adopt Crom-Mills definition of extemporaneous speaking and the ancient practice of Invention. Even an informative speech should be designed persuade the audience to share the carefully constructed view of the topic the speaker presents. This first step in Invention, defining a purpose, is key. The purpose of the speech is like the trunk of a tree, metaphorically speaking, from which all other rhetorical choices spring.

The second concern under the heading of Invention is whether the contents of the speech are fresh, or whether the speaker offers only "old wine in new bottles". Examining the introduction will give us some clues as to the inventiveness of the speaker. Canned introductions, used over and over by a speaker or speakers, are not only anathema to the impromptu nature of extemporaneous speaking, but are also often lacking in relevance. Often judges are forced to watch a good speaker try to fit the introduction to the speech as if the speaker were Cinderella's prince trying to fit the slipper onto one of the stepsister's feet. Introductions should be germane to the topic, and lead into analysis that reflects the original thoughts of the speaker, not unthinking eves which passes for an understanding of the topic at hand. Invention, then, is concerned with what the speaker has selected as the purpose of the speech, and the contents he has chosen to reach that purpose.

Classical rhetoric's second canon is that of Arrangement, which "concerns how one orders speech or writing" (Burton 2). The organization should emerge from the topic and purpose of the speech. In fact, James A. Benson argues, "certain patterns of organization are inherent in topics" (151). Trying to use organization unsuited to the speech at hand often leads to problems such as the inclusion of irrelevant information, subversion of the intent of the topic, shallow analysis, and misuse of time (Burton 151). A question arising for the major arguments against school vouchers cannot be effectively shoehorned into a "past, present, future" organization. A speaker asked to predict the
government's probable reactions to "aggressive accounting" in corporations would be ill advised to settle for a three point organization which examines local, national, and global feelings about the practice. In short, effective Arrangement serves the purpose of the speech.

Style is sometimes scorned as part of the canon, since too often in rhetorical history it has been the only concern of some schools of rhetoric. "The artful expression of ideas," however, must be considered in evaluating extemporaneous speaking, since it allows us to look closely at how the speaker expresses himself (Burton 3). Consideration of Style is like a microscope, in that it allows us to examine the choices of word and phrase that speakers make in their efforts to persuade the audience. Mark Twain once said, "the difference between the right word and the almost right word is the difference between lightning and the lightning bug". Speakers who exhibit Style in their speeches make choices that exhibit the striking effect of lightning rather than the feeble, intermittent glow of the lightning bug. As Clamor points out, "this is where the elements of grammar and syntax and figurative language enter" our evaluation of written and spoken communication (299). It is at this level that we may examine how the speaker has put all of the above to work in achieving the purpose of the speech.

Applying the canon of Memory in evaluating extemporaneous speaking is problematic. Burton offers two definitions of this canon that are relevant to the extemporaneous situation. He suggests that Memory is both the "facilit..." (4). Thus, Memory is both in the speaker and in his or her effect on the audience. Again, the effectiveness of Memory is measured by how well the storehouse of knowledge serves the speaker in achieving the purpose of the speech.

It is within this canon that we might also evaluate information the speaker uses to develop the speech. Loosely speaking, an extemporaneous may be judged on both simple accuracy and depth of information. Even if a speaker gives us "just the facts," and the correct facts at that, we also need to give credit to speakers whose knowledge shows a depth more indicative of an understanding of the historical and social context of the question, not just an acquaintance with the latest issues of Time, Newsweek, and The Economist. There is a gap between a student who has skimmed the latest issues and put together a speech based on the topic sentences in the latest magazine article and the student who shows a command of the subject by offering historical or literary allusions. Students who craft their own analogies may also be noted, because original attempts to make the complex clear show a logical approach to the topic, that is, an approach that illustrates the thinking process the speaker has gone through in developing the speech.

As Burton points out, the Greek word for the final canon, "Delivery" is "hypokosmos", or "acting", and rhetoric has borrowed from that art a studied attention to vocal training and to the use of gestures (Burton 5). A fluent speaker eschews metalanguage that impairs his or her purpose, such as filler phrases like "uh" and "ahm", and pursues fluency in speech. Gestures may be used effectively to underline the verbal message.

The canons of rhetoric allow us to frame five basic questions about an extemporaneous speaker's performance:

**Invention**: Has the speaker provided fresh content to achieve the purpose of the speech?

**Arrangement**: Is the organization of the speech intrinsic to the topic and purpose of the speech?

**Style**: Is the speaker's choice of words and phrases appropriate to the purpose of the speech?

**Memory**: Does the speaker demonstrate knowledge of strategies to achieve his purpose and make the audience retain his message?

**Delivery**: Are the speaker's voice and gestures effective in achieving his purpose?

All of these questions grow out of the speaker's ability to define a strong purpose and thesis in the invention stage. If the speaker nurtures a strong trunk, the rest of the tree grows from it.

**HATS OFF - NOT HATS ON**

See new NFL hats on pages 40-41
The National Debate Institute - D.C. offers an exciting opportunity for students to attend a national caliber debate institute at a cost competitive with the fees of most regional camps. The NDI-DC has a hand-picked staff of the best instructors in the nation, and the program curricula have been carefully developed and successfully implemented over the last 10 years.

30-Round Policy Debate Program: No other program in the country offers students the opportunity to improve as quickly and extensively: each student is guaranteed the opportunity for 30 full-length debates with extensive post-round critiques. Such concentrated and directed practice allows students to make improvements in argumentative sophistication and technical proficiency that normally take a semester or longer. The staff is carefully selected to provide a balance between high school coaches, assistant coaches, and current college debaters, and the 4:1 student:staff ratio ensures that each student will receive individualized feedback from every instructor.

Policy Debate Immersion Program: This program features an accelerated lab with a focus on teaching the skills and concepts needed to make the transition to higher-level debate. The curriculum features in-depth topic analysis, advanced theory seminars, rigorous technique drills, intensive evidence production, and a special focus on in-round decision-making. The lab will provide a comprehensive blueprint of advanced debate strategy, preparation, and execution, allowing students to model their approach to debate on that of two extraordinary debaters.

Wake Forest Summer Debate Workshops

Fifty Years of Workshop Experience
Year-Long Debate Instruction for the 21st Century

This summer, Wake Forest University will be celebrating a fifty year commitment to the instruction of debaters from across the United States through our Summer Debate Workshop programs. Four different programs are available to for students to choose from:

The Summer Debate Workshop. Team-taught laboratories, divided by experience level, allow each student to receive intensive individualized instruction as students are taught each phase of the debate process. Each lab of no more than eighteen students is led by two of the listed faculty members and is assisted by one Wake Forest debater.

The Policy Project. Other institutes have been playing catch-up in curricular design ever since we began the Policy Project. Now, while others are advertising shared evidence, early frequent practice, and other features we have long since refined, we are finding new ways to tailor the debater's experience to their specific needs. You and/or your coach can choose the specific lab you want. Lab choice is a function of the affirmatives you want to work on and/or the coaches you want to spend the most time working with. Regardless of your lab choice, your practice rounds, theory discussions and other activities for which tracking is important will be with people at your level. We never track by age, only ability. We aim to simply have the best overall group of debaters of any age and provide appropriate experiences for each of the ability levels.

The Fast-Track. What would it be like to be coached by those who have coached national champions at both the high school and college level? By coaches who contribute to the cutting edge of debate theory and argument construction at both the high school and college level? If you are selected for the Fast-Track you can experience the answer. Jenny Heidt and Ross Smith will get you, and a small, select, group of your peers off to the fastest start possible with practice drills and debates, discussions, seminars, and focused research. We will argue together about strategy, tactics, and key issues on the coming topic. You can apply individually or with a partner. The program is limited to the most talented and experienced debaters applying, but is not restricted by year in school.

Policy Analysis and Strategy Seminar. Debaters who want to start off with a unique intellectual opportunity are invited to attend a special seminar week before the beginning of the Policy Project. The Policy Analysis and Strategy Seminar provides directed readings and discussions on core topic issues; analyzes the arguments produced by early workshops and handbooks; and discusses high-level strategy, theory, and tactics of special interest.

Tentative Dates*
Summer Workshop: June 15-July 3
Policy Project: July 5-August 1
Fast-Track: June 20-August 1
PASS, June 27-July 4

Last Year's Prices*
Summer Debate Workshop $1575
Policy Project $2875
Fast-Track $3475

Why Attend Wake Forest?
50 years of workshop experience
Year-round learning
Affordable opportunities for all
Cutting edge strategy and curriculum
Professional, experienced staff
Safe and comfortable environment

Wake Forest Summer Debate Workshops
Fifty Years of Workshop Experience
Year-Long Debate Instruction for the 21st Century

In partnership with PlanetDebate.com, the Wake Forest Summer Debate Workshop programs are happy to announce that we will be providing the first ever year-round workshop experience, with a summer stop in Winston-Salem.

Instruction for students who attend any of the summer workshops will begin in mid-May with an introductory audio lecture on the topic, access to over 1000 topic-specific articles on the web, at least 25 essays on the topic, comprehensive bibliographies to support research at home and in Winston-Salem, and a practice debate affirmative. When students leave Winston-Salem, they will have continued access to a special collection of Planet Debate resources, which include:

- Over ten thousand cards on from leading debate handbooks and college debate coaches. The evidence is available 24 hours a day, 7 days a week in a searchable database;
- Special chats for Wake workshop students only;
- Special message boards and forums for Wake students where questions will be answered by lab leaders throughout the year;
- The delivery of audio lectures throughout the year on important topic-related arguments.

An extensive link directory to topic and instructional resources that will support your debating all year long.

2003 Faculty Includes

Ross Smith, Director, Debate Coach, Wake Forest
Jarrod Atchison, Asst. Coach, Wake Forest
Stefan Bauschard, Debate Coach, Boston College
Amy Collinge, Senior Debater, Lewis & Clark
Becca Eaton, Senior Debater, Wake Forest
Justin Green, Debate Coach, North Texas
Jenny Heidi, Director of Debate, Westminster School
Casey Kelly, Asst. Coach, Wake Forest
Jim Lyle, Director of Debate, Clarion University
Kristen McCaughill, Asst. Coach, Wake Forest
Tim O'Donnell, Director of Debate, Mary Washington
Kim Shanahan, Director of Debate, Fort Hays H.S.
Patrick Speice, Senior Debater, Wake Forest
Ed Williams, Director of Debate, Marist School

*See website for updates and bios of the faculty
THE MICHIGAN NATIONAL DEBATE INSTITUTE

STAFF
The following have already committed to MNDI 2003:

Tim Alderete, Director, East Grand Rapids High School
Jason Peterson, Coach, University of Southern California and Damien High School
Kendra Cunningham, University of North Texas
Greg Achten, Director, Pepperdine University
Dan Davis, Coach, State University of West Georgia
Rachel Saloom, Former Coach and Debater, State University of West Georgia
Aaron Kall, Assistant Director, University of Michigan and Former Coach, University of Kentucky

FEES
The cost is $1,550. This fee covers the full cost of tuition, housing in the Residence Hall, the dining room plan, lab copying fees, and several social events.

THE MICHIGAN CLASSIC
JULY 13 - AUGUST 9, 2003

STAFF
Classic for Sophomores:
LAB ONE:
Tim Alderete, Director of debate at East Grand Rapids High School
Jason Peterson, Coach at University of Southern California and Damien High School

LAB TWO:
Russ Hubbard, NDT finalist 2002 and Coach at the University of Kentucky
Aaron Kall, Assistant Director at the University of Michigan and former coach of NDT finalist at the University of Kentucky

Classic for Juniors:
LAB ONE:
Kendra Cunningham, former first speaker at the Dartmouth Round Robin and quarter-finalist at the NDT
Daniel Davis, NDT finalist for the University of Georgia, coach of 2002 NDT semi-finalists

LAB TWO:
Kirk Evans, Semi-finalist at the NDT for the University of Texas
Jonah Feldman, University of Michigan, highest ballot count at the 2002 NDT prelims, third speaker at Harvard 2002, participant at the 2002 Kentucky Round Robin

Classic for Seniors:
LAB ONE:
Rachel Saloom, former CEDA national champion for the State University of West Georgia
Tara Tate, Coach Colleysville Heritage High School, recipient 2002 Acoyte Award as the best argument coach in the country from St. Marks school of Texas

LAB TWO:
Calum Matheson, Michigan State University, former semi-finalist at the NDT, former finalist at the CEDA nationals
Scott Harris, Director of debate, University of Kansas, coached teams to elimination rounds at the NDT every year of his tenure at the University of Kansas

FEES
The cost is $3,200. This fee covers the full cost of tuition, a room in the residence hall, the dining room plan, lab copying fees, and several social events.

SEVEN-WEEK LABS AT MICHIGAN
JUNE 23 - AUGUST 10, 2003

STAFF
Scott Phillips, Emory University, One of the most successful high school debaters ever. A finalist at Georgia State University and Harvard University 2002, and participant in the 2002 University of Kentucky Round Robin.

Josh Hoe, Director of Debate, the University of Michigan. Former CEDA national champion and two-time first speaker at the Heart of America. Coached teams in out rounds of the NDT for the past five years, and coached multiple first-round "A-Large" bid teams to the NDT.

David Heidt, Coach Emory University. Former NDT champion and coach of NDT champions. Widely regarded as one of the best debate minds in all of America. Coached an average of two NDT first-round "A-Large" bids to the NDT for the past five years.

Eun Young Chai, Coach, Harvard University and Lexington High School. Very successful debater and coach for Harvard University.

FEES
The cost is $4,600. This fee covers the full cost of tuition, a room in the residence hall, the dining room plan, lab copying fees, and several social events.

www.michigandebate.com
As an extemp official at the National Tournament for the past few years, it has become increasingly apparent that the rule regarding what material is allowed in the extemp prep room needs clarification. I am referring, specifically, to Article X, section 4 of the national tournament rules and procedures located in the NFL National Manual. The rules are stated very clearly:

4. Preparation: As soon as a topic is chosen, the contestant shall withdraw and prepare a speech without consultation and without references to prepared notes. Students may consult published books, magazines, newspapers, and journals or articles therefrom, provided:
A. They are originals or xeroxed copies of originals.
B. Original articles or copies must be intact and uncut.
C. There is no written material on original or copies.
D. Topical index without annotation is allowed.

No other material shall be allowed in the extemp prep room other than stated above. Extimp speeches, handbooks, briefs, and outlines shall be barred from the extemp prep room. Underlining or highlighting on materials will be allowed if done in only one color on each article or copy. No electrical retrieval device may be used, but printed material from "online" computer services may be used. Source citations of such material must meet MLA standards. (See NFL Appendix V)

One would think that the issue here would involve online citations. The rise of the internet has certainly had a dramatic effect on forensics research and poses a myriad of issues involving citations and allowability (see NFL Appendix V). But, surprisingly, material printed from the internet has not been the source of the increasing number of violations documented in the prep room.

The real problem is one that has been around for longer than the personal computer and the "wired" generation. I am referring to the problem of written or prepared material including old speeches, notes, and annotated indexes. This past year in Portland, Oregon the problem of illegal material became so widespread that a speech was given between the second and third rounds in both the US and Foreign prep rooms clarifying the rules and offering a ten minute amnesty period in which extempers could disclose and dispose of "contraband" material. In the foreign prep room a second garbage can was brought in to accommodate the amount of discarded material during the amnesty period. While the majority of discarded material was previously written speeches, a variety of other questionable material surfaced. It is this material that I would like to focus on in this article.

First and foremost, it seems that today's extemper either does not understand the term annotated or is simply disregarding the rule. Again this year, multiple magazine indexes surfaced with annotated material. Any description of an article that is not the title, author, source, topic area, sub-topic area or page number is considered an annotation. Usually the problem occurs in a spreadsheet where a competitor will include a brief description of the article in a separate column following the title of the article or in lieu of the title. The annotation will help clarify the content of the article.

This practice may seem a benign bending of the rules to the average extemper, or even common practice to others, but such material is in fact illegal and will constitute a disqualification from the National Tournament. For those of you still confused, take a look at the following examples:
### Annotated Example

<table>
<thead>
<tr>
<th>Column 1</th>
<th>Column 2</th>
<th>Column 3</th>
<th>Column 4</th>
<th>Column 5</th>
</tr>
</thead>
<tbody>
<tr>
<td>Topic</td>
<td>Title</td>
<td>Description</td>
<td>Source</td>
<td>Date</td>
</tr>
<tr>
<td>Article 1</td>
<td>N. Korea</td>
<td>Encounter in Pyongyang</td>
<td>Focues on the problems involved in reconciliation</td>
<td>Economist</td>
</tr>
<tr>
<td>Article 2</td>
<td>Germany</td>
<td>Deal-clinching/Germany</td>
<td>Closing of various negotiations including slave labor under N Korea, threatened strikes, and phasing out nuclear reactors</td>
<td>Economist</td>
</tr>
</tbody>
</table>

### Non-annotated Example

<table>
<thead>
<tr>
<th>Column 1</th>
<th>Column 2</th>
<th>Column 3</th>
<th>Column 4</th>
<th>Column 5</th>
</tr>
</thead>
<tbody>
<tr>
<td>Topic</td>
<td>Sub-topic 1</td>
<td>Title</td>
<td>Source</td>
<td>Date</td>
</tr>
<tr>
<td>Article 1</td>
<td>N. Korea</td>
<td>Peace Talks</td>
<td>Encounter in Pyongyang</td>
<td>Economist</td>
</tr>
<tr>
<td>Article 2</td>
<td>Germany</td>
<td>Nazi labor compensation</td>
<td>Deal-clinching/Germany</td>
<td>Economist</td>
</tr>
</tbody>
</table>

As illustrated above, a legal index, correctly organized, can provide benefits similar to the annotated index. Furthermore, articles sort much better with an adept handling of sub-topics. Because of space constraints, I only included one sub-topic column in the example above. A second or third sub-topic would add even more clarity to an index. If you are still wondering if your index uses sub-topics or is, in fact, annotated, you might try the "multiples test." Take a look at the description of the article (column 3 of the annotated example). Each description you will notice is unique to the article it describes. To pass the multiples test and be considered a sub-topic, a description must be able to include multiple articles under the same description or sub-topic. In Article 1 of the annotated example the description, "Focues on the problems involved in reconciliation" refers to a unique article. Now, an argument could be made that other articles could focus on the problems involved in reconciling the two Koreas and, thus, this description could be considered a sub-topic.

At this point I would suggest a second test, the "sort test." To apply this test you would ask yourself, "Would this description sort properly in the framework of the index as a whole?" The answer in this case would be, "no." While it would sort next to article descriptions worded exactly the same, it would also sort next to articles "focusing" on a variety of issues. Certainly there will be cases where it is impossible to draw the line between sub-topics and annotations. In this case common sense should prevail. Tournament officials and students (beforehand) should ask themselves whether or not a consistent pattern of indexing was used to create an organized framework of reference or if each article was individually described.

This whole discussion of annotated vs. non-annotated indexes may sound tedious and nit-picky, but I think a clarification of this issue should help resolve problems of annotated indexes before a student arrives at Nationals. In the past years, students were forced to literally cut out annotations in their indexes. In cases where there are no titles or sub-topics listed in the index, the results of this type of forced editing could render an index unusable. Students should also be aware that descriptions on post-it notes and written notes on an article are also considered forms of annotation and are illegal under Article X, section 4. Articles may be highlighted but only in one color, and articles must remain intact.

Finally, I should address the most egregious of all illegal materials: written or typed out notes on issues, otherwise known as "cheat sheets" or "crib notes." Notes have been discovered neatly encased in glossy sheet protectors and hidden away in evidence tubs or simply scribbled in the middle of the flow pad. These prep aids require little clarification and are highly illegal. If found in your possession during the tournament, you will be swiftly disqualified. "Extrem speech, handbooks, briefs, and outlines" are also considered illegal material and are "barred from the prep room" (Article X, section 4). An exception was made for one such brief book being sold in the hallways during the Portland tournament, but the issue of brief books remains controversial. My advise to you would be to leave all handbooks and brief books outside the prep room as long as the rule against their use remains in the NFH Constitution.

If disqualification or forced editing of your index does not deter you from cheating, perhaps you should consider the old cliche: Cheaters never prosper. While we all know this is a big fat lie spread by disgruntled losers, and many cheaters do in fact prosper vigorously, there is some truth to the statement. At some point, either your lack of knowledge or the extemp official will catch up with you. There really is no substitute for old fashioned and honest study and practice.

But let's face the facts. The issue of cheating in the prep room will likely never go away completely, but the most common response to any infraction in the prep room - "nobody told me" - will no longer hold water.

(David J. Matley has served as an extemp official at Nationals since 1996. Mr. Matley has been coaching at Danville-Monte Vista HS (CA) for the past 11 years. His extemp competitors have finished in the top ten at Nationals four times and his LD debaters have also finished in the top four times, including the 2000 National Champion in Lincoln Douglas.)
The Kentucky Difference

Kentucky is a summer LD program with a difference: rather than imitating the latest fads of “cutting-edge” LD, we focus on our students with the skills and experiences that have made us excellent through the ages—careful reading, writing, logical thinking, and speaking. We always prioritize rhetorical integrity over a win. We teach philosophy and skills at a level of intellectual sophistication you can’t find at most LD worksho...

Unmatched Staff

No doubt about it, Kentucky’s staff is the driving force behind our vision of LD excellence. Because we have never aimed to be the biggest, only the best, we can afford to be incredibly picky about the people we hire. Every member of our staff embodies a rare combination of proven LD skill, academic accomplishment, and instructional ability. And every staff member is also committed to serve as a positive student role model.

For example, no other LD workshop can boast political science professor Scott Robinson or Jason Baldwin, the winningest debater in LD history. For 2003, Kentucky welcomes 2002 TOC Champion Jennifer Larson to our faculty. Our diverse curriculum ensures that every student has chances to work with every staff member. Our website and March Rostum ad contain current staff information...

Best Instructional Value

No other national-level LD workshop offers the amount of instruction Kentucky does for the money. We provide a full 18 days of instruction for what others charge for only 12 days.

Most workshops charge artificially high tuition to skimp off money for college teams, turn a profit for the director, or to give free rides to a few elite students. Kentucky is non-profit. We exist only to provide the best and most affordable LD instruction possible to our students.

Details

Our 2003 LD program runs from June 24 to July 13 at the University of Kentucky in Lexington. The cost for room, board, and tuition is $1575. Partial scholarships are available on the basis of demonstrated need. We will admit the first 64 students who apply by our May 1 deadline.

Our website, www.kndi.org, contains much more information than we could fit into this ad, including extensive 2002 student reviews, curriculum details, performance highlights, and application materials. If you have further questions, please call us at 859-257-6523, or write to Prof. J. W. Patterson at the Kentucky National Debate Institute, 205 Frazee Hall, Lexington, Kentucky 40506, or jwpatt00@pop.uky.edu.
California National Debate Institute
2003 Lincoln Douglas Debate Camps
at the University of California, Berkeley

Tentative Dates & Prices

Lincoln Douglas Debate
2 Week Session June 14 - June 29, $1525
1 Week Session June 14 - June 21, $775

"This camp is by far the best I have attended. The staff and intensity are unparalleled anywhere else."
- 2002 CNDI Participant

The California National Debate Institute is a national caliber two-week summer forensics program located in Berkeley, California. The CNDI provides serious debate students with the opportunity to interact with some of the finest and most renowned forensics instructors in the nation at an incomparable cost for a program of this nature, quality, and location.

Curriculum: The CNDI Lincoln Douglas curriculum emphasizes argument theory, logic, and analysis skills that will instill students with the capability to self-coach and generate quality arguments; the one-week program is perfect for students looking to get a head-start before attending a major LD summer program. The curriculum is also structured to include both concepts from moral and political philosophy that are relevant to the year's topics as well as introductions to more general material that ground the students' preparation in the history of ideas. The curriculum features:

- Philosophy Discussions
- Expertly Critiqued Practice Debates
- Theory Seminars
- Advanced Casing Strategies
- Analytical Technique Workshops
- Rebuttal and Cross-Examination Drills

Faculty: The CNDI is taught by an experienced faculty of former championship debaters and veteran coaches who have led students to late elimination rounds at competitive national tournaments. Former instructors who are expected to return for the summer of 2003 include Jon Gegenheimer of Georgetown University and the Woodson School, and Michael Osofsky of Stanford University.
California National Debate Institute
2003 Policy Debate Camps
at the University of California, Berkeley

Policy Debate
2 Week Session: June 14 - June 29, $1525
1 Week Session: June 22 - June 29, $775

"This camp is by far the best I have attended. The staff and intensity are unparalleled anywhere else."
- 2002 CNDI Participant

The California National Debate Institute is a national caliber two-week summer forensics program located in Berkeley, California. The CNDI provides serious debate students with the opportunity to interact with some of the finest and most renowned forensics instructors in the nation at an incomparable cost for a program of this nature, quality, and location.

Two Week Session: This two week policy debate program offers intensive instruction for students of all levels of experience and skill. Students will receive topic and theory lectures, numerous critiqued debates with rebuttal reworks, small-group seminars, and access to the best evidence researched at other NFC camps. Strictly limited lab size ensures personal attention from an elite staff who have been carefully selected for both their knowledge of debate and their multiple years of experience as lab-leaders.

One Week Program: This special CNDI program is designed to be a shortened version of the regular CNDI curriculum. The lab features in-depth topic analysis, extensive explorations of debate theory, affirmative and negative argument construction, practice rounds, seminars, and lectures. This lab will give participants a strategic perspective on researching the topic as well as the theoretical clout to put it all into action.

Faculty: The CNDI is directed by Robert Thomas. Robert has coached successful teams at both the high school and college level and has taught at or directed over 40 summer institutes. Currently the NDT coach at Stanford University. Other confirmed staff include Dave Arnett of UC Berkeley, Bruce Balsam of the State University of West Georgia, and Dave Butler of Georgia State.
Get information about increasing public mental health services.

www.Debate-Central.org

- More than 1,000 organized links to online articles, essays, studies, and other resources.
- NCPA topic analysis, arguments, and Affirmative and Negative case material.
- An "Ask the Expert" bulletin board where debaters can submit their own questions.
- Information and links about other debate topics: Lincoln-Douglas and Home School.

The NCPA is a 501(c)(3) nonprofit public policy organization. We depend entirely on the financial support of individuals, corporations and foundations that believe in private sector solutions to public policy problems.
SOME DO NOT'S FOR ORATORICAL CLARITY

by

Wayne C. Mannebach

Part Three:
Abusing the Nature of Dictionary Definition and Mistaking Similarity for Sameness and Words for Reality

LEARN WHAT NOT TO DO!

As stated in Part One of this series of articles treating oratorical clarity (See Rostrum, Vol. 76, No.7, March 2000, pp. 42-43, 46-47), perhaps the most practical way to improve oratorical effectiveness is to emphasize what not to do. In other words, the orator should focus on those features which compete with clarity. Like the first two, this article does not treat every obstacle to clear thought, for such endeavor would be futile for any person. Instead, this article covers three of the most notorious obstacles and sufficiently warns the orator to examine carefully language usage. The author assumes from his teaching and coaching experience that, if the orator knows what should not be done, he or she will employ what should be done.

DON'T ABUSE THE NATURE OF DICTIONARY DEFINITION!

Dictionaries can be very useful, but orators must realize that dictionary definitions are guides, not absolutes, to good usage. Good definitions are neither true nor false, but always intelligible and useful.

Dictionary definitions have no finality; for the editors of a dictionary do not establish what words should mean, but reveal how words are in fact used colloquially, as slang, as shop talk, and by educated people of the language. In other words, dictionaries are historical records, not data; they report and describe, but they don’t dictate.

Students of oratory must be careful not to mistake definitions for propositions of fact. Definitions are statements designed to give information about the meaning of a word. They express the association of a word with its meaning, but they do not claim to be true or false. On the other hand, propositions of fact are statements designed to assert a relation between two meanings. Propositions of fact are capable of being true or false. For example, a proposition of fact is: "The Empire State Building is taller than the Lincoln Memorial." A definition is: "A square is a rectangle with four equal sides.,"

Another way to illustrate the difference between propositions of fact and definitions is to focus on reversibility. In other words, the Empire State Building is taller than the Lincoln Memorial, but the Lincoln Memorial is not taller than the Empire State Building; whereas a square is a rectangle with four equal sides, and a rectangle with four equal sides is a square. Definitions are reversible with similar meaning; propositions of fact cannot reverse and maintain similar meaning.

To test the quality of a proposition of fact, the orator should determine if the proposition is intelligible and either true or false. A definition is similar to a proposition of fact in that it also must be intelligible, but it is unlike the proposition of fact in that it should be tested not for truth or falsity, but for usefulness.

An orator should never ask if a definition is true or false, because a definition is merely the explicit resolution to use words in a certain manner. Hence, if a speaker were to say, "A square is a rectangle with four equal sides," he or she and the audience are to understand each other as saying, "From now on, we shall use the word "square" to mean a rectangle with four equal sides." There is no truth or falsity here; it is only a linguistic convention, a social contract or agreement between orator and audience. It is, in all respects, like the command: "Go outside and rake the leaves!"; the command is intelligible and useful, but it is incapable of being true or false.

Suppose an orator defined baseball as "a ephoric desamination of the penata schematicus." Such a statement most likely would not be meaningful to the audience and, therefore, it would not be a good definition. On the other hand, meaning likely would occur, if the orator defined baseball as "any typed-written letter on orange paper": the words would be meaningful enough. However, the definition still would be poor because of the second test of a good definition, namely "Is the definition useful?" Because the word baseball traditionally is not defined as "any typed-written letter on orange paper," the definition would not be useful for social or conventional usage. Therefore, the definition would not promote communication effectiveness.

Some people would contend that the above defini-
tion of baseball is not true. The definition is peculiar, because in
the English language baseball customarily does not mean "any
typed-written letter on orange paper." However, to say that a de-
definition is uncustomary or peculiar is not to say that it is false or
true. Therefore, when people call a definition true or false, what
they probably mean is that the definition is useless, uncustomary,
or useless because of being uncustomary.

In brief, students of oratory must appreciate that dictionary
definitions are only guides to usage; they never dictate abso-
dolute definitions. A good definition is neither true nor false, but
always it is intelligible and useful. Definitions are not proposi-
tions to be proved. Statements about definitions can be proved,
but not the definitions themselves.

DON'T MISTAKE SIMILARITY FOR SAMENESS!

A major advantage that most humans have over animals is
the ability to abstract and then adapt to many varied situations.
Daily life for most humans demands that they observe condi-
tions in their environment, compare the conditions with past experiences,
label the conditions as similarities or dissimilarities, and react to-
ward the new conditions favorably or unfavorably. A major prob-
lem, however, is that many people fail to comprehend that similar
is not identical; that similarities occur only because dissimilarities
are excluded.

Similarity occurs when two or more phenomena employ likeness
or resemblance in a general way. Sameness occurs when two
or more phenomena which fail to share any difference in kind,
degree, or quality.

Some people confuse sameness with similarity by failing to
take into account differences which exist among members of a
given class. They point out only similar properties, and from these
similarities they employ the words same or identical. Results, for
instance, are such blatant remarks as "Teenagers who live in slums
carry concealed weapons"; "Russians are Communists and anti-
capitalists"; "Politicians are corrupt"; "Medical doctors are con-
cerned primarily with making money"; "Defendants who plead the
Fifth Amendment really have something to hide"; "Orientals look
alike"; "People on welfare are lazy"; "People who get tattoos and
body-piercings are decadent-minded"; "College and universities
are breeding grounds for professional sports"; and "Musicians are
junkies."

Surely such absolute evaluations are fallacies, for they fail to
treat how various members of each class differ from other members
of the class. Students of oratory would be wise to keep in mind
Walter T. Marvin's description of the uniqueness of each existing
thing. Cited in Austin Phelps' English Style in Public Discourse
(64-65), Marvin said, for illustration:

What could seem more nearly alike than the pebbles
strum along the seashore, but do we ever find two
really the same? Or the maple the leaves all look suffi-
ciently alike to be recognized at once as maple leaves,
yet how easy it is to pick any two and notice a dif-
ference between them. In some families the common type
of feature is so marked that we can recognize even
strangers as members. Yet seen together we easily can
distinguish even the very closely resembling twins.

From cases of this near similarity of features we turn
our attention to that of faces in a great crowd. All are
distinctly human, but there seem to be never two alike.

So we could go on recalling the wonderful variety
throughout every type or sort of object in the whole
realm of nature.

Is there any end to it as far as we can judge or as far as
the facts of nature lead us to believe? We have to
answer No, and thus regard the world as composed of
objects admitting of an indefinite variety. Not only do
these objects themselves differ, but their motions seem
likewise to differ whenever we are able to observe them
carefully. Who ever threw a stone through absolutely
the same path in the air, landing upon the identical
spot of ground as did the stone that he threw before?
In short, who of us ever repeated an act with absolute
accuracy? Careful measurement or observation would
be sure to show parts of the act a little different in the
case from like parts in the other.

We may try to play a piece of music twice over, but
every time we do so, and are keenly observant, we are
sensitive of differences. And what is true in such com-
licated activities as our own seems equally true, for
the best of reasons, of the simple activities in the ma-
terial world about us.

What day is the exact repetition of some previous day
in atmosphere and temperature? What river flows two
successive days in exactly the same channel? We hear
over and over again of human nature being ever the
same and of history repeating itself, but we do not
mean this except in a rough way. No two instances of
human conduct, no two stages in the world's history,
or in a nation's, are mere repetitions. A new element,
and a very large element, is sure to be found, if our
observations and information be but fairly accurate
and complete.

Thus, we find no matter where we look, and we believe
we could find even where our senses fail at present to
reveal it, an indefinite variety of actions or changes
taking place in or through these objects.

In brief, when arguing from examples, or from analogies
in the form of simile, metaphor, parable, fable, or allegory, orators
should bear in mind that such evidence or arguments enjoy only
general resemblances and, therefore, are similarities, not same or
identical phenomena. Differentiating between sameness and sim-
ilarities can generate an image of being unbiased, accurate, and of
good will, all traits that enhance oratorical effectiveness.

DON'T MISTAKE WORDS FOR REALITY!

Students of oratory must realize that people live in a verbal
world as well as in a non-verbal one, and that many people fail to
appreciate that words are not the reality they represent. The word
or symbol is not inherently connected with the thing symbolized.
For instance, when people are hungry, they do not eat the word
bread; they eat the bread itself. When people are thirsty, they do
not drink the word water; they drink the water itself.

Because language does not precisely correspond to what it
(Mommsen continued to page 62).
BAYLOR UNIVERSITY
A tradition of excellence in high school forensics education for over 60 years

- Outstanding Faculty at every level

  The Baylor faculty have been successful coaches at the high school and/or Intercollegiate level. The focus is on teaching students the skills they need to become better debaters and to succeed in their region or at the national level. The student-teacher ratio is maintained at 10 to one in order to facilitate as much individual instruction as possible.

- Extensive library resources for all of our students

  Students have access to the physical and electronic holdings of the Baylor University libraries. In addition, a reserve collection created just for our workshop, will assist students in preparing for their upcoming season.

- Challenging curriculum for every experience level

  For policy debaters we emphasize the skills of refutation, extensive analysis of the topic and contemporary debate theory, briefs specific to the topic and practice debates and speeches.

  For LD debaters we emphasize instruction in analyzing values and value propositions, preparation for the upcoming possible topics, practice speeches and debates, as well as instruction in LD practice and strategy.

  For Turner debaters we emphasize current events research, crossfire cross examination skills, argumentation and persuasion skills, and audience analysis.

  For teachers we emphasize the information necessary to administer a speech program and to effectively prepare your students

  We offer instruction at the novice, junior varsity and varsity level

ENROLLMENT IS LIMITED TO THE FIRST 200 STUDENTS. APPLY EARLY!

The Scholars Program at the Emory National Debate Institute
June 15 - June 28, 2003 • Emory University, Atlanta, Georgia

The Emory National Debate Institute, which has contributed to the education of high school debaters for a quarter of a century, now offers a specialized workshop-within-a-workshop catering to experienced high school debaters with advanced skills. The Scholars Program, which was conceived and designed by some of the nation's most competitively successful college coaches, gives accomplished debaters the opportunity to receive the kind of instruction, research opportunities, and feedback they will need in order to meet their competitive goals for the coming year.

The Scholars Program will take place alongside the established Emory National Debate Institute, under the direction of Melissa Maxcy Wade. Those who enter the Program will have access to the entire faculty of the ENDI. However, the Scholars Program contains a number of additional features designed specifically to benefit the advanced debater.

Special Features of the Scholars Program

Advanced curriculum: Every aspect of the Scholars Program has been redesigned by our staff of accomplished coaches, from the lecture schedule to the structure and pace of lab groups. Members of the Program will receive advanced library instruction, including guided research in the Woodruff library system and targeted use of Internet resources. Our curriculum helps students understand and utilize the most advanced modern debate positions, but without sacrificing their ability to win rounds with traditional skills and strategies.

Emphasis on evidence accumulation: Rather than forcing experienced students to endure redundant basic lectures, we let Scholars get on with the business of researching the topic and practicing advanced techniques.

Amazing staff-to-student ratio: We maintain a 1:4 staff-to-student ratio in lab groups, and each student will interact with nearly every member of our large Scholars Program faculty.

Unique, separate lectures: Outside their lab groups, members of the Program will receive direct instruction from top-rated college coaches. Even in lecture settings, our staff-to-student ratio is unusual, with no more than 20 students listening to one instructor. Furthermore, we offer a small group theory seminar menu targeted to students' needs and interests.

Numerous debate rounds: Our curriculum includes a minimum of 12 rounds, with extended time for critiques from our staff.

Select faculty: The Program will be directed by a select group of the nation's best debate minds. Past Directors of the Scholars Program have included award-winning college coaches, multiple NDT winners, and some of the country's most prominent high school coaches. In the last few years alone, Joe Zompetti (Director of Forensics at Mercer University), David Heidt (winner of the 1996 NDT), Jon Paul Lupo (winner of the 2000 NDT), and Kacey Wolmer (NDT first-round debater and multiple participant in the finals of CEDA Nationals) have all been a part of the Program's administrative team. The rest of the Scholars faculty will be selected from among the ENDI's staff of accomplished college debaters and coaches.

Great value: Scholars will pay the same price as other students at the Emory National Debate Institute. We are a nationally competitive institute at a discount price!

You must apply for the Scholars Program at the ENDI. Those seeking admission should call or write:

Barkley Forum · Emory National Debate Institute
June 15 - June 28, 2003 · Emory University, Atlanta, Georgia
Under the Direction of Melissa Maxcy Wade

The Emory National Debate Institute has been contributing to the education of high school debaters for twenty-eight years. The curriculum is steeped in the most fundamental aspects of debate, presentation, research, and critical thinking. An excellent combination of traditional argument and debate theory and an emphasis on current debate practice makes the Emory National Debate Institute one of the most successful year after year. Novice, mid-level, and varsity competitors have found the Institute a worthwhile learning experience because the staff has the expertise to teach all levels of students and the experience to adjust to a variety of student needs.

Features of the Policy Division
Under the Direction of Bill Newnam

Experienced staff: Our senior level staff has worked at this Institute and many others, including: American University, Bates College, Baylor University, Berkeley, Dartmouth College, Georgetown University, University of Iowa, University of Kentucky, Northwestern University, University of Michigan, Wake Forest University, Samford University, and Stanford University.

Excellent staff student ratio: The Institute offers debaters the opportunity to work with one senior level instructor accompanied by at least one active college debater in small lab groups of 10 to 20 students.

Flexible curriculum: The Institute has always provided students a wide variety of instruction suitable to their levels of experience. Each laboratory group has explicit objectives and a field tested curriculum for the two week period, dependent upon their level of experience.

Commitment to diversity: The Institute has always been committed to making instruction accessible to urban and rural areas. We have several funded scholarships dedicated to promoting diversity. Additionally, ongoing grants make it possible to support many students from economically disadvantaged areas.

Dormitory supervision: An experienced staff including high school teachers, graduate students, and college upperclass students will supervise the dormitory.

Coaches workshop: An in-depth coaches workshop is conducted. Topics will include administration, organization, and coaching strategies. A set of lectures appropriate for the classroom will be developed.

Inclusive Fees: The standard Institute fee includes tuition, housing, meals, lab photocopying fees, entertainment, a t-shirt, and a handbook—leaves no work.

Features of the Lincoln-Douglas Division
Under the Direction of Jim Wade

Experienced staff: The Director of the Lincoln-Douglas division has been in the activity for over twenty years, and has served in his current position for ten years. Other staff members include an array of the finest college coaches, as well as some of the top college debaters in the nation.

Excellent staff student ratio: The Institute offers debaters the opportunity to work with one senior level instructor accompanied by at least one active college debater in small lab groups of 10 to 14 students.

Flexible curriculum: The Institute has always provided students a wide variety of instruction suitable to their levels of experience. Our classes deal with general philosophical issues and practical technique. There is a strong emphasis in lab groups on building speaking experience and providing constructive critique. A typical day involves three classes dealing with philosophy or technique and theory, followed by five hours of practical lab sessions.

Commitment to diversity: The Institute has always been committed to making instruction accessible to urban and rural areas. We have several funded scholarships dedicated to promoting diversity. Additionally, ongoing grants make it possible to support many students from economically disadvantaged areas.

Dormitory supervision: An experienced staff including high school teachers, graduate students, and college upperclass students will supervise the dormitory.

Inclusive Fees: The standard Institute fee includes tuition, housing, meals, lab photocopying fees, entertainment, and a t-shirt—the works.

29th Annual Samford University Summer Forensics Institute

Lincoln-Douglas Debate Division: Samford is so committed to Lincoln-Douglas debate that it hosted the nation's first Lincoln-Douglas workshop. The program is designed for students who are entering into debate or transitioning to the varsity level. In addition to providing a primer on the fundamentals of moral philosophy, the L-D Institute also seeks to develop fundamental skills such as flowing, briefing and casing. The Lincoln-Douglas workshop is directed by national champion coach Pat Bailey (Hornewood H.S., AL).

Policy Debate Division: The SSFI Policy debate program is designed for students in their first few years of debate. Many of the nation's largest programs start their students at Samford. At the end of the institute, each student will have participated in writing a case, a disadvantage, a critiqua, and taken part in at least eight practice debates. For students beyond their first year of debate, the curriculum focuses on research and negative strategies. First year students focus on learning how to flow and the fundamentals of debate. Policy debate labs are directed by professional coaches, including: Michael Janas, Ph.D., Ben Coulter, MA, Ben Osborne, MA and Ryan Galloway, Ph.D..

Teacher's Institute: Designed for new teachers or those that find themselves in charge of a program for the first time, Skip Coulter (Mountain Brook Jr. H.S.) will conduct a workshop on the basics of debate coaching. We can help orient you to the bewildering world of high school forensics. We will help strengthen your confidence as you enter the forensics classroom for the first time. The cost of the Teacher's Institute is $200.00.

Cost: $1000.00 for both students divisions. This includes all room, board, tuition and group copying fees. Housing is in air conditioned, double-occupancy Samford dormitories. Classes are held on the Samford campus and dining is in the Samford cafeteria. There are no additional lab fees. Dormitories will be directed by William Tate (Montgomery Bell Academy, TN). Financial aid is available for students with demonstrated need.

come join us...
"I didn't join til senior year because I thought it had to do with investigating crime scenes."

"Isn't it like Future Detectives of America?"

"I thought it had to do with looking at dead bodies!"

The above responses really aren't exaggerations. They're just some of the comments I heard when students tell me their initial thoughts when we do our annual recruitment for new members for the school forensics team. Before going further, I must explain that in our Maryland County, the responsibilities of a forensics coach and debate coach are completely separate, as are the teams, leagues, and meeting times. While the term "debate team" is easily, universally, and even somewhat accurately recognized, the word "forensics is a different story."

The problem came to mind once again a few months ago (May, 2002) when the tragic story of Chandra Levy, the world famous missing intern, became front page news once again. If you did a key word search using "forensic" in any news website or current topics data base, you'd turn up many articles about the investigation into her death and its continuing mystery, but very few about the NFL; its local affiliates, the national tournament, etc. To the average person on the street, "forensic" and "speech" are two words that just do not go together.

What do dictionaries have to say about all this? Surprisingly, one of the most recent ones, and an often quoted authority on standard as well as colloquial American usage, The Scott Foresman, Advanced Dictionary, provides a definition which clearly supports the NFL's use of the word, defining "forensic" as an adjective meaning "of or used in a court of law or in public debate" and as a noun meaning "a spoken or written exercise in argumentation."

"Webster's New Collegiate Dictionary (Ninth Edition) basically recapitulates these two definitions in its first two entries for the adjective, but adds a third—"specializing in or relating to forensic medicine"—which helps explain some of the confusion students have with the word ("forensic medicine" is then defined as "a science that deals with the application of medical facts to legal problems.")

The Oxford English Dictionary gives us more on the derivation of the word. It originally had to do with "courts of law; suitable or analogous to pleadings in court." In the mid 1800's it became linked with the word "medicine, linking the term "medicine" to law and jurisprudence. In the 1830's in the United States, it came to mean "a college exercise, consisting of a speech or (at Harvard) written thesis maintaining one side or other of a given question." The OED further tells us that the word forensic has its origin in the word "forum," a term from Roman antiquity for "the public place or market place of a city" which in ancient Rome was "the place of assembly for judicial and other public business."

Clearly, all of the above definitions as well as the derivation of the word from "forum," link the word to the concept of public debate and/or persuasive oratory. The problem that becomes apparent is that, as all coaches are well aware, forensics as practiced at the national, district and local levels includes far more than debate or even persuasive speaking. In many tournaments and contests, the majority of events involve oral interpretation of literature such as drama, humorous pieces, prose, poetry, and even children's stories. The emphasis in these events is much more on skilled delivery and deep personal understanding and evocation of the tone and voice of literature to enhance its aesthetic value—an art that is radically different from the logical analysis, questioning and rebuttal used in debate and oratory.

Our duty as coaches and spokespersons for the NFL is to clarify this situation. However, the confusion we coaches face is apparently being compounded in some high schools, which according to the news report aired in late May, 2002, are now offering brand new courses and clubs in "forensics." But as you may have guessed, these are in fact medical investigation clubs, and have become instantly popular with students where they've (McCready continued to page 62).
HATS ON

Available now!

A "Flexfit" hat that any NFL member would be proud to wear.

Three logos / Two styles available
Well constructed, boldly stitched.
Dark silver in color with ruby red stitching
Sizes available: S/M or L/XL.
Cost: $18

"National Qualifier" inscribed on front!
NFL logo on back
(available only to national qualifiers)

Cotton Skateboard Cap
"relaxed" with no crown

Wool Baseball Cap
with "stiff" crown

Letters "NFL" inscribed on front with NFL logo on back
NFL logo on front with NFL inscribed on back

Born in 1736, Patrick Henry died just a year before the 19th Century dawned. There were giants on our earth in those days, and Henry both literally and figuratively stood tall among them. He was a big man, red-headed, brown-eyed, a country lawyer who became a statesman. He had an orator's voice, with the resonance of a bass viol and the range of a theater organ. There was a time in our own century when boys took lessons in elocution; we declaimed, with gestures, Henry's speech of 1768 against the Stamp Act ("If this be treason, make the most of it"), and we rose to forensic heights with his speech of 1775: "Give me liberty," we cried, with a pause in which the audience sat transfixed, "or give me death!" Every schoolboy knew the speeches.

It was not for Henry's role in the Revolution that the old gentleman was honored the other evening. It was rather for his role in the Virginia Ratification Convention of 1788. Two hundred years ago this week, 168 delegates met in Richmond to decide whether the Commonwealth should join eight other states in approving the new Constitution. By the time the convention ended on June 25, New Hampshire had become the necessary ninth state to bring the new union into being, but Virginia's decision was far from academic. Without Virginia's approval, the fledgling nation would have died aborning, with Georgia and South Carolina severed altogether from Delaware and Maryland.

The two leading players in the Virginia convention were James Madison, who earnestly favored the Constitution, and Patrick Henry, who bitterly opposed it. In the end, Henry lost. Virginia ratified by a vote of 89 to 79, but it was Henry's insistence upon amendments in the nature of a bill of rights that three years later would prevail.

A shorthand reporter took down the speeches. You may read them today — and great reading it is — in Elliot's Debates. Henry was at his best. He was skeptical, cynical, suspicious. "That government is no more than a choice among evils is acknowledged by the most intelligent among mankind, and has been a standing maxim for ages."

The proposed government, he feared, would be dominated by a federal bureaucracy: "The salaries and fees of the swarm of officers and dependents on the government will cost this continent immense sums." The states would not be able to compete with the "rich, snub, fine, far" allurements of federal office. "Who can cope with the excise-men and taxmen?" He scoffed at the notion of checks and balances: "What can avail your spectious, imaginary balances, your rope-dangling, chain-rattling, ridiculous ideal checks and contrivances?"

With remarkable powers of prophecy, Henry saw what would be swallowed up, "What will the states have to do? Take care of the poor, repair and make highways, erect bridges, and so on, and so on." The powers granted to the national government were vast; the powers reserved to the states were petty. It was the nature of power that absorbed Henry's most thoughtful attention.

"Human nature never will part from power. Look for an example of a voluntary relinquishment of power: from one end of the globe to another — you will find none ... Can you say that you will be safe when you give such unlimited powers without any real responsibility? Will not the members of Congress have the same passions which other rules have had?"

Henry made no apologies for his suspicions: "I hope to be one of those who have a large portion of suspicion. Too much suspicion may be corrected. If you give too little power today, you may give more tomorrow. But the reverse of that proposition will not hold. If you give too much power today, you cannot retake it tomorrow, for tomorrow will never come for that purpose."

You will hear nothing at national conventions to match Henry's glorious command of the language, but you will hear the same fundamental issues debated. What is the proper role of the federal government in child care, labor relations, parental leave, economic regulation? What are wise limits upon executive and legislative power? Patrick Henry raised the right question 200 years ago. The old dissenter rests in his grave but his truth goes marching on.

(James J. Kilpatrick was the most widely syndicated political columnist of his time. This "Patrick Henry Essay" was originally published by NHL oratory sponsor Patrick Henry Memorial Foundation.)
last year, students across the nation converged on los angeles, california why? find out this summer

vbi@ucla July 6 to 19, 2003

"VBI helped me debate better, smarter, and slower. Take the best of all the camps, throw it into one great blender, and there you have VBI. In other words, VBI was great on every level a debate camp could be, it was laid back, yet intense, progressive, yet conservative, slow yet fast. VBI was the way debate camp ought to be." "The social life at VBI was great. I know this is hard to believe but the camp actually allowed you to have fun." "The staff was stellar. The environment could not have been better." "VBI was a great learning experience for me as a novice." "If you think you know about debate, wait till you get to the VBI." "This camp was phenomenal. I've met life long friends." "I loved the emphasis on standards, ethics, and personalized attention." "This was one of the greatest times of my life! I am planning on coming back next year." "I loved this camp! It helped so much!" "VBI is much more advanced and appeals to today's type of LD." "I was impressed that all of the lab leaders were so personable. I talked to them every night about arguments, strategies, and other issues." "The food. The staff. Enough said!"
lincoln-douglas

It is our goal to provide every student with a curriculum that builds on their strengths while motivating them to develop new ones. Our philosophy? To teach students how to argue intelligently, how to adapt to every possible judging environment, and how to make rounds clear. The Victory Briefs debater knows how to establish a standard, how to make offensive arguments meet standard, what arguments to go for, and how to think strategically, rhetorically, and persuasively. The institute is designed for both beginning and elite debaters. The curriculum emphasizes student choice, practice rounds, interaction with staff, and hard work. Join us!

policy

The policy program offers a refreshing alternative to the existing debate institutes. Our intention is not to produce as much evidence as possible, rather we hope to provide debaters with the necessary tools and strategies for researching and compiling files, while focusing the majority of our time on interactive teaching sessions stressing the essentials of debate. With this in mind, we are resolved to produce well-rounded debaters and to teach fundamental, yet necessary, research habits. Emphasis will be placed on more classic negative strategies, such as disadvantages, engaged solvency attacks, counterparts, and topicality; whereas, kritiks and theoretical issues will be addressed from the standpoint of “how do we never lose to these arguments?” Style will be a major focus of this institute. Incomprehensible topicality shells, “eight off-case” roadmaps, and generic kritiks will be discouraged in favor of the more specific, above mentioned strategies. What does this mean? The emergence of a debater who is a master of winning both lay and upper-echelon judge’s ballots.

extemp

The Victory Briefs Extrem Institute has several key facets to helping extempers grow in multiple areas. Throughout the week we will focus on skills lectures, topic seminars, filing instruction and many, many critiqued practice rounds. We will systematically analyze each of your speeches to provide you with a foothold for improving not just during the week, but throughout the entire year, with this camp as a foundation. Our extemp camp is committed to an in depth skills focus—with lectures and practice in the areas of speaking, analyzing, researching, summarizing and more. Each day there will be several skills lectures and with each practice speech these skills will be applied and exercised. These skills seminars will go hand in hand with extemp topic focuses on pertinent and common question areas. These will include readings and research on topics such as the US Economy, American Politics, Europe, Russia, China and International Trade and much more. In addition, each day will include both material for filing as well as instructions on how to improve one’s file.

For more information, email vbi@victorybriefs.com. Or contact us at 310-453-1681 or Victory Briefs, 1144 Yale St. #3, Santa Monica, CA 90403. For applications and the latest news, visit the Victory Briefs website.

www.victorybriefs.com

Last year’s staff included: Tommy Clancy, Joey Seiler, David Vivero, Stephen Babb, Andy O’Connell, Leah Halvorson, Frances Schendel, Adam Preiss, Oscar Shine, Seamus Donavan, Victor Jih, Tammy Jih, Orijit Ghoshal, Eric Wolfish, Clay Calhoun, Michelin Massey, Tim Fletcher, Arif Javeed, Jon Squires, Jesse Nathan, Ran Yared, Andrew Swain, Ben Rolstein, and more.

The staff for this year’s policy institute will be drawn from Victory Briefs’ stable of policy writers. Check the website for the latest updates.

This project is a collaboration between Jason
Hernandez and Stefan Bauschard.
From sound Greek thought and practice
Came a strong, unyielding stance;
That oratory stand alone
Its stature to enhance.

None thought it should be classified
As simple public speech;
None classified it as a goal
That everyone could reach.

But times have changed.
The world's devoid
Of orators on the street.
And formal speech is out of
vogue.
Slang's in the driver's seat.

So controversy's loud and clear
Among the modern thought
And those who take the
Classic stance
And those who are self-taught.

The controversy harms us all.
It weakens all who teach.
When Classic discipline's
kicked aside,
The Ideal's hard to reach.

For students see that anything
Can win a final round
If judges sitting in the room
Liked, personally, the sound.

Criteria for judging lost,
Then Beethoven's "Ode to Joy"
Sounds no better performed by pros
Than by fourth-grade girls and boys;

And speakers taught that rhetoric
Need no great discipline wear
Go on to shape week voters' minds
Whose critical ears aren't there.

It takes no grand imagining
To see a future land
Where disciplines no longer guide
The mind, the voice, the hand.

Some Classic form must drive the one
Who's known as Orator
Else that grand name "oration"
Will be rotten to the core.

Oration made of Classic stuff
Will be far more than speech.
Their content lies in deep research
Bright audience to reach.
They'll not rely on cutey jokes Or shallow, mundane claims.
They start from solid premises.
They play no mindless games.
If humor's meant to make a point,
It's subtle and it's deep.
The stand-up comedy routine
Should make all judges weep.
Intelligent orations:
 Invite souls to rejoice and weep
While minds are forced by evidence
To make a quantum leap.
Intelligent orations
Are not paper-thin in thought
They do not build up joke and story,
Toward some shallow, cute,
Tired plot.
Unless orations deeply probe
And follow Classic Law,
They cannot earn our best respect
Nor judges' praises draw.
The Cicero ARRANGEMENT
Must guide each orator sure.
The Entrance to the subject
Sells an overview that's pure.
A deep, compelling Narrative
Gets the audience involved.
And the Proposition's very clear:
A problem should be solved!
In Division the good orator
Builds analysis that shows
That the problem's far more widespread
Than the average listener knows.
Then comes the Confirmation
That the problem's truly real.
The gathering of strong evidence
Must continue with great zeal.
It's never wise to advocate
With a careless ear toward foes.
Rebuttal of opposing claims
Is needed; goodness knows.
Synopses of stingy evidence,
A strong emotional appeal
Make the Conclusion sit tight down
The oration's content seal.
The parts seem very simple;
Yet, they're more than simple skill,
For Classic oratory lives
As Artful eloquence still.
It matters not how many try
To make it lesser stuff.
The writer of oration
Must be research-and logic-tough.
The writer of oration
Must also recognize
That Argument forms the basis
While Persuasion prods the wise.
Without the Pathos, integrally bound
Orations will fall short
And fit a first affirmative,
Extemp speech, or report.
Pathetic or emotional proofs
Will hold the listener tight
In anger, mildness, friendship,
In pity, envy, fright.
The Pathos that the orator speaks
Must move the listener free
To feel the proposition's bite
Through pity, mirth, glee.
Without the power of imagery
All oratory fails.
Against the weight of metaphor
The "I-AM-DO" just pales.
Inversion may a strong point make.
Sharp Paradox is the edge
On which clear thoughts can pivot.
To create the quiet ledge
From which the listener understands
Some literal harm that's seen
While recognizing Irony
In some stunning, life-large scene.
Parallel Structures drive the point
Narratives make tears swell.
Phrases and Short Sentences serve
Quint's "good guy speaking well."
Once the masterpiece is written
Then, it's time to sell its worth.
No mumbling, nasal, shotgun sounds
Should usher in its birth.
The richest voice must e'er be heard.
Sincerity clearly rings.
The oration now spellbinds us
As a harp when language sings.
Delivery must be masterful:
Voice, hand, and body merge.
The orator's a vessel.
Through which content can surge.
O, oratory's not to be
Performed by all who speak.
It's for the chosen who can prove
Their depth of skills not weak.
The Greek and Roman spirits
All are waiting for the time
When oratory's fully claimed
Its broad effect: sublime.
Perhaps, the world will hear again
Great minds with voices strong,
Who demonstrate the power of speech
With mindfulness 'gainst wrong.
An orator who will stick to facts,
Build syllogistic flow;
Ethically persuade, if possible
Some change from status quo.
"O, Oratory, where art thou?"
The Classicists all ask.
"Please stand apart. Lift up your head.
Throw off your choking mask."
Orations have inspired the world
Through struggling, happy years.
No other style has nourished us
Through history's growth and tears.
It's Oratory's dressed-up poise
We once more would applaud.
For at its best, it stretches us
To feel the power of God.

(Connie Mikesell Winfield was one of NFL's greatest teachers. She often conducts workshops for the National Federation.)

SPARTAN DEBATE INSTITUTES

Two-Week Institute: July 13 – July 25, 2003 - $925
Three-Week Institute: July 13 – August 1, 2003 - $1250
Coaches Workshop: July 13 – July 19, 2003 - $450

These prices include housing, food, copying of finished lab evidence, T-Shirt, and a 2003 SDI Evidence CD from the student’s session.

✓ Coaches’ Workshop – A unique opportunity for coaches to gain familiarity with both the topic and theoretical issues of their choice.
✓ Curriculum Diversity – Staff Members and lab placement are available for all skill levels, ranging from novice groups to those choosing to polish varsity skills.
✓ Superb Instruction – the SDI staff is not just a dedicated group of successful high school coaches, college coaches, and current college debaters who have excelled...Our staff members are chosen because they are experienced and dynamic teachers who have a passion for debate.
✓ Emphasis on Practice Debates – By providing SDI students with a packet of affirmative and negative positions at registration, practice debates and speeches typically begin the second day of the camp. All sessions conclude with judged tournaments for relaxed, yet structured, opportunities for students to validate their educational experiences.
✓ Excellent Library Resources – The newly renovated MSU Library offers a superb selection of materials that are housed in one easy to use facility. An in-house library in the residence hall also contains computer based research facilities. Student dormitory rooms each contain full Ethernet access.
✓ History of Competitive Success – SDI Alumni have won tournaments or Top Speaker awards at the Tournament of Champions, St. Marks, the Glenbrooks, the Michigan-Michigan State Round Robin, and various state championships.
✓ Scholarships – Limited need-based financial assistance is available.
✓ Competitive Prices – SDI is committed to offering outstanding debate institutes at affordable prices, which include tuition, room and board, and copying of lab evidence.
✓ Access to Our Unique “Evidence CD” – As part of SDI tuition, each student will receive a 2003 SDI Evidence CD that includes a scanned copy of every file produced within their particular session.

The 2003 Spartan Debate Institutes
East Lansing, Michigan

We are pleased to announce a new four-week debate intensive workshop for students ready to reach the next level! If you want to be taught by the best lab leaders in the nation, the 2003 SDI at Michigan State University is the place for you!

The new four-week session of the 2003 SDI is set to include the following amazing staff members:

Michael Eber - Interim Director of Debate at MSU - SDI Director and former champ debater at the University of Kansas.
Kamal Chali - Debate coach at Emory and two time NDT Finalist for Emory University. 1997 T.O.C. Champion.
Colin Kahl - Professor of Political Science at the University of Minnesota. 1991 NDT Finalist and long time lab instructor.
Adriana Midence - 2nd Speaker at the 2002 NDT and former champ debater at the University of Michigan.
Elizabeth Repko - 1995 CEDA National Champion. Widely considered one of the very best lab leaders around.
Will Repko - Head Debate Coach at Michigan State University. SDI Director and 2000 Coach of the Year.
*refers to staff tentatively scheduled to work at SDI

Dates: July 13th - August 8th
Price: $2,800

Compare our price to similar four week camps! We offer perhaps the best and most experienced staff around at a substantially lower cost and no hidden charges. Prices include housing on the MSU campus, food, lab copying expenses, several fun activities, a t-shirt, and a copy of our Evidence CD.

Why choose the four-week SDI?
* More actual debates. Each four-week student will start debates on day two using our opening evidence packet. Four-week SDI students will receive at least 18 practice debates.
* Increased emphasis on YOUR personal skills development with high quality instructors, not just mass lectures.
* A maximum of 1 student to teacher ratio.
* A new kind of demo debate: the Pro Debate Tour's last stop will be in East Lansing.
* Intense but fun atmosphere in East Lansing, Michigan.
* All four-week students will receive our unique Evidence CD which includes a scanned copy of all SDI 2003 files.

Please visit our newly updated website at http://www.msu.edu/~debate for additional information and application procedures concerning our four-week session. You can also email us at debate@msu.edu or contact Mike Eber at (517) 432-9667.

MICHIGAN STATE UNIVERSITY DEBATE - A TRADITION OF EXCELLENCE

CEDA National Champions: * 2006 CEDA Finalists * 2005 CEDA Semifinalists * 2004 CEDA Champions * 2003 CEDA Champions
*
POLITICS, POLITICS, POLITICS
by David M. Cheshier

The national debate circuit seems agreed on these propositions relating to the politics disadvantage (specifically this year, the Bush agenda arguments):

1. Fiat does not permit the affirmative to escape specifying the manner by which their plan will be passed and the president’s involvement in passage.

2. Though the likely threshold connections between mental health policy passage and other Bush initiatives (like war in Iraq, tax cut passage, or stem cell research prohibitions) are widely thought very high, simply saying so on the affirmative will get you nowhere without high quality evidence offering unusual uniqueness arguments.

3. The fact that in some circumstances arguments relating to the plan’s likelihood of passage are dismissed out of hand (as illegitimate “should/would” or repeal claims), the Bush politics argument is worthy enough on its merits to ignore claims it should be dismissed as “should/would.”

4. Counterplans implementing the plan but which vary or differently specify political processes of implementation are theoretically legitimate.

5. Critiques of political disadvantages arguing they should be ignored because they perpetuate political cynicism and horse race politics, fetishize today’s Lexis-Nexis downloads, or disable grassroots oppositional movement formation are interesting but not, finally, compelling.
debate away from mental health claims? But the idea makes sense, especially if your explicit strategy from the start is to impact turn politics anyway. Why not decide, where the strongest link evidence is, connect it to the strongest consistent impact claim, and put it in the first speech? Doing so forces your opponent to reconsider their default strategy, enables a major head start in the card count, and frees 2AC debaters to completely cover the issue. And if you're going to be stuck spending all your last minute time doing politics research, why not earn some regular mileage out of it when you're affirmative?

Still, the thought that the 1NC will simply read ten one-card reasons why President Bush needs political capital to implement his many good ideas will deter some debaters from running a 1AC politics argument. My point is simply this: teams eager to engage such a debate were probably going to rev it up in the 1NC anyway.

If you don't want to claim a politics advantage, then there are still ways the 1AC can be fortified. Consider scattering decision rule cards that favor you all over the first affirmative (obviously that is advice inconsistent with the idea of claiming a politics scenario). Think about hiding uniqueness cards wherever they make sense, as they often do when attached to inferences and harm contentions. That is, use the inferences position to craft as complicated and well supported a uniqueness position as possible.

Many teams are undoubtedly deterred from the 1AC manipulation I'm recommending because of what seems like the infinite variability of the politics shell. Why load up the first affirmative with evidence regarding presidential agenda-setting if the negative plan is to make an approval rating claim? But too much is made of this threat—in actual practice the multiple link versions have conflated. This is so both because the literature and fact situation makes it harder to sustain popularity claims, and therefore links debates are now centralized on political horse-trading, winners, and agenda-setting claims that are consistent with each other and which can be commonly answered without fear of contradiction.

Some affirmative teams make tactical and strategic modifications to strengthen their case against politics. It has become more common for the 2AC to answer politics fast in the speech, since that often denies prep time to the 2NC. Some very formidable teams are now in the habit of making politics the book on which they hang all kinds of essentially unrelated add-on arguments. And all along the smarter teams tightly scripted a huge flurry of 2AC answers designed to put pressure on the negative block. I suppose the theory is if the 2NC plans to spend time on politics, one may as well make it as tough as possible. But these are simplistic accommodations to a situation calling for a competitive situation requiring responses more drastic.

How Negatives Can Overcome the "Politics is a Lie" Presumption

Since the whole point of my essay is that the field has decisively tilted toward the negative on politics-related positions, I won't say too much about defending politics. But if you happen to debate in a region where my generalizations are plainly wrong, in a place where judges are increasingly hostile to what they see as contrived political scenarios, then I want to summarize some common but good advice about defending them.

One basic for hostility regarding Bush politics arguments is their insufficient development in the first negative shell. The trick of offering ambiguous link and uniqueness claims so as to pre-
Iowa's National Summer Institute brings together some of the most talented and accomplished teachers and coaches of forensics in the nation. Their students include dozens of national champions from coast-to-coast. NFL National Council members, Key Coaches of the Barkley Forum, and NFL Diamonds describe many of them. All have extensive experience, and collectively have won every national forensics award in the country.

All staff members are successful LD debaters and coaches. Only debaters or coaches of debaters who have been in late elimination rounds at national tournaments are invited to be on the Iowa staff. Staff members come from Alabama, California, Florida, Iowa, Louisiana, Minnesota, New Jersey, New York, North Carolina, Oklahoma, and Texas. They bring different perspectives to the Institute and offer students a diverse experience.

Iowa is an intensive learning environment that is fun and productive for students but also well supervised and safe. We attend to the little details because we understand that students and teachers are more likely to reach their potential when they feel comfortable and know exactly what to expect. We also understand that parents have serious concerns about safety and supervision.

Iowa delivers full value. We are not-for-profit and were among the first major institutes to cancel charges for copying collaboratively produced research materials. There are no lab fees, no hidden fees. We produce results. Most of the best debaters competing today got started at Iowa and return each summer of their high school career. Our Lincoln-Douglas participants dominate round robins and national tournaments.

PATRICIA BAILEY
MARILEE DUKES, Co-directors, Lincoln-Douglas Debate

Ms. Bailey and Ms. Dukes are recognized for excellence in and out of the classroom. At Iowa, they have built what many regard as the "only summer program" for Lincoln-Douglas debaters. Their standards, expectations and performance are nothing short of remarkable, and they demand and get the best from their very able staff. Their curriculum is organized, thorough and challenging to the very best students. They have found the right mix of theory and practice, and year after year, students come back for more.

IOWA LD OFFERS THREE DIVISIONS

The General Institute: Students who have never attended an institute will work in divisions based on their experience. Divisions and lectures will address philosophy, case writing, and skills that are fundamental to students who are attending their first workshop.

The Returnees: Students who have attended an institute in the past may opt to participate in the Returnee program. The emphasis in lectures and divisional meetings will be primarily on advanced skills and the more obscure yet valuable philosophies.

The Senior Philosophers: Students must be entering their senior year and have attended an Iowa LD institute in the past. The senior philosophers program is designed for students who have a firm grasp of theory and wish to explore approaches to the application of philosophy to debate. The program offers a unique institute experience.
IOWA'S LINCOLN-DOUGLAS FACULTY

CHAMPIONS TRAINING CHAMPIONS!

MICHAEL AKTON, Director of Forensics, New Orleans Jesuit; coached numerous debaters to the late elimination rounds of every major national tournament, including the NFL National Tournament and the TOC.

PATRICIA BAILEY, special consultant for LD Debate, Homewood High School; former Head Debate Coach, Homewood High School; B.A., Huntington College, M.A., Montevallo (AL); NFL Diamond Coach, Key Coach of the Barkley Forum; coached NFL LD champion, numerous NFL national qualifiers, LD state champion for seven years running; Alabama Speech Teacher of the Year Award; National Topic Selection Committee for LD debate; co-founder of Iowa's Lincoln-Douglas Summer Debate Institute; Blue and Gold Society.

REILLY DUNN, Graduate of Enloe High School; Champion debater, participated in late elimination rounds of every major high school tournament; 9 years at the Iowa Institute.

SETH HALVORSON, B.A., Macalester College; M.A., Stanford University; Ph. D. Candidate, Columbia University; former championship debater for Apple Valley High School; a veteran lab leader at the Iowa Institute.

MAC HAWKINS, Graduate, Loyola University, New Orleans; NFL National Champion; TOC qualifier; participant in late elimination rounds of every national tournament; assistant coach, Idaho Newman School; coached students to late elimination rounds of every major tournament and state champions.

BEN JOHANNSEN, Sophomore, Griffith College; former championship debater for Muscogee High School; 3 year participant at the Iowa Institute; late elimination debates at every major national tournament; champion foreign extempor; member of the inaugural class of The Senior Philosophers Program.

NADIR JOSHUA, B.A., Rutgers University, with honors; former debater Science High School, Newark, NJ; 2nd Stanford Round Robin; semi-finalist Harvard; semi-finalist TOC; participant in late elimination rounds of every national tournament; two time NFL, National qualifier.

KANDY KING, Director of Debate, Winston Churchill High School; B.A., Inractive World College; former Texas Speech Teacher of the Year; State Officer of Texas Forensic Association for past 14 years and past President; charter member of the Iowa Summer Debate Institute; member of the National Forensic League Executive Council.
CHERIAN KOSHY, Director of Lincoln-Douglas Debate, Apple Valley High School; NFL Diamond Coach; former champion high school debater; coached students to late elimination rounds of every national tournament including National Champions.

ANNAMARIE MANASCO, B.A., summa cum laude, Emory University; former debater, St. James School; Champion Wake Forest 1997; Bronx Round Robin 1997; Montgomery Bell Round Robin 1998; 1998 TOC runner-up; Girls National President 1997.

LYNSEY MORRIS, Carl Albert Doctoral Fellow in Congressional Politics, University of Oklahoma; B.A., Berry College; American Political Science Association Congressional Fellow, 2002; Intern for then-Senate Minority Leader Thomas Daschle, 1995; Georgia State Collegiate Champion in Parliamentary Debate, 1998; Extemporaneous Speaking, 1997; Rhetorical Criticism, 1998; Student Government President, Berry College, 1998-99; former champion debater at Homewood High School; veteran Iowa Institute staff.

KELSEY OLSO, Sophomore, Baylor University; former Champion debater at Apple Valley High School; Winner of St. Mark’s, Bronx Valley, Hopkins, MBA Round Robin; semi-finalist at Greenhill and Emory; Finalist at TOC; top 10 finish at the NFL National Tournament.

BRYCE PASHLER, Assistant Lincoln-Douglas Debate coach, West Des Moines Valley High School; former debater, Valley High School; third place, NFL, Nationals; two-time Iowa State Champion; Winner William Branstrom Freshman Prize (University of Michigan); coach of 1996 TOC Champion; coach of 1996 MBA Round Robin Winner.

R. J. PELICCIOTTA, Director of LD Debate, South Mecklenburg High School; A.B., UNC-Chapel Hill; coach numerous qualifiers to TOC and NFL Nationals; coached students to late elimination rounds of every national tournament; coached North Carolina State Champion.

BOBBY VANCE, Sophomore, University of Pennsylvania; former champion debater at Isidore Newman; participated in late elimination rounds of every major national tournament; participant of the Emerson Prize and the Gilder Lehman Institute of American History Award; former Iowa Institute participant.

WILLIE WARE, Debate coach at Homewood High School; former champion debater at Vestavia Hills High School; 2-time national qualifier; late elimination rounds at major high school tournaments; former debater for Stanford University.

CYNDY WOODHOUSE, B.A., University of Iowa; Director of Forensics Vestavia Hills High School; former coach, Iowa City High School; coached NFL and CFL qualifiers; former debater, Bettendorf High School; frequent participant in late elimination rounds at national tournaments.

JOHN WOOLLEN, Director of Forensics, Enloe High School; A.B., Wesleyan College; M.Ed. in Social Studies, UNC at Greensboro; Ed.D. in International Studies; certificates in Curriculum and Instruction and Social Sciences Education; NFL Double Diamond; Key Coach of the Berkley Forum; 100 students to NFL Nationals; Berkley Forum champion; state champions in extemp, oratory, HI/OI, LD; semi-finalist at NFL Nationals.

DANIEL YAVVERBAUM, B.A., philosophy and physics, magna cum laude, Amherst; coached National Champions at Isidore Newman; former successful high school debater; runner of marathons.

IOWA HAS A LAB THAT IS RIGHT FOR YOU!

Now Iowa provides several lecture alternatives that expose students to Lincoln-Douglas philosophical turn-numerous perspectives. Some lectures are designed for the entire institute, but must address the specific experience level of the individual students; theory and philosophy lectures which are more general for debaters with less experience; more advanced philosophy and strategy lectures for debaters with more experience. Students who have not attended workshops in the past may have lectures on rights and general theories of morality and justice in addition to the lectures on the commonly used philosophers like Mill, Locke, Rawls, etc. Debaters with institute experience (both at Iowa and at other workshops) are more likely to hear lectures on advanced theory and on alternative philosophies, like existentialists or Foucault.

MAKE THIS SUMMER AN IOWA SUMMER.

TRAIN TO BE A CHAMPION!
serve maximal 2NC flexibility to retell the story as necessary is now so ubiquitous that it doesn't fool anyone anymore. Meanwhile, the visceral antipathy to two or three card shells mounts. Ironically, this is the easiest bias to counter. Instead of reading one link card, consider reading three. Make up the time by highlighting down the nuclear impact card. This is a smart trade-off; in my view, since 2NC's will almost always be pressing the link debate more fully than the impact; if the 2AC simply impact turns, you still have the preferred abbreviated nuclear language in the round. The point is to find ways to add cards to the shell without calling special attention to the fact you've done so—for instance, I wouldn't number the additional link arguments. But when you're extending the link with new evidence at the top of the position in the block, you can hastily remind the judge that the 1NC read three link cards in the shell.

Of course in extending the politics position one can work, usually successfully, to overcome the bias against it held by the judge. Here's an example: You can safely predict that at least some, and maybe most, affirmative will make a series of arguments attacking the viability of the link or uniqueness claim. Because this is the very aspect that seems most suspect to many judges, these claims will be literally overwhelmed in the negative block. Often I recommend that at the first available opportunity ("2AC #1: No link"); the 2NC read as many tightly highlighted links back as possible. You say you only have two links, and both were read in the shell? No problem: expand the link story by adding evidence that actually reinforces the later internal links. Even if the link evidence is not exactly on point, that is, you can still overcome a presumption against the position by answering a "no link" claim with a run of nine efficiently marked pieces of evidence.

In debates I see where the affirmative strategy is to simply impact turn politics, I'm regularly surprised by how unprepared the 2NC is to efficiently respond. The 1NC says the plan enables Bush to buy off Democratic support for oil drilling in Alaska, which they say will decimate local species diversity. The 2AC responds that buying off Democratic support is good because Bush's tax cut and Iraqi disarmament proposals are good and need Democratic help.

What usually follows is some scenario where it's clear the 2NC just grabbed the "tax cut" and "Iraq" files and pulled impact cards saying the opposite. Without any thoughtful combination of other answers that would question the internal links, thresholds, and other aspects of these new scenarios, although each incurs a wholly different set of political outcomes than the basic ANWR story.

**Conclusion**

My suggestions are basic. But lest I lost you by insulting your intelligence, I'll conclude with the overall point I aim to stress. Politics positions have taken over. This dominance is likely to continue since political arguments have supporters, since the major evidence sources (the handbooks, trading, Planet Debate) will continue to feed the beast, and since topic writers seem unwilling to draft resolutions that would obiterate or complicate political claims (why not this? "Resolved: Setting aside the political implications for the U.S. President's broader agenda, the United States should...""). Meanwhile, many of the obvious possibilities for affirmative response are foreclosed by the prevailing winds of opinion on the national circuit.

Do politics arguments win every major debate? Of course not. But the time has come to diversity our ways of handling politics-based claims, and the ideas I've advanced here are a most rudimentary starting place. While racing to stay one step ahead in card cutting and one trick ahead on the link will always serve experienced teams well, start thinking about the other avenues available to pressure the negative when politics is their inevitable argument of choice.

Next month: An introduction to the new policy debate ocean's topic.

**Dr. David M. Cheshier is Assistant Professor of Communications and Director of Debate at Georgia State University. Dr. Cheshier will host the 2003 Lincoln Financial Group/NFL National Tournament at Georgia State University. His column appears monthly in the Rostrum.) © David M. Cheshier**

The National Summer Institute in Forensics and the University of Iowa invite you to visit our web site. All information and application material is available in pdf format. Credit card payments accepted exclusively on our web site. No credit card payments accepted by mail.

Please call us at 319/335-0621 or email paul-bellus@uiowa.edu with any questions.

Beginning March 3rd, you may register on our secure website at:

www.iowadebate.com
The National Summer Institute in Forensics
The University of Iowa
Iowa City, Iowa

Get a head start on college!
Make this summer an Iowa summer!

A unique educational opportunity is now available to all high school participants in the Lincoln-Douglas and Policy Debate Divisions, the ability to earn three hours of college credit.*

Senior Summer Program
June 23 - July 12
Lincoln-Douglas Debate
June 23 - July 6

For more information contact:
Paul G. Bellus
A. Craig Baird Debate Forum
B12 International Center
University of Iowa
Iowa City, Iowa  52242-1802
319/335-0621 • FAX 319/335-2111

*In addition to tuition, student participants may register for course 26.002 Workshop in Debate
All registration requests must be made through the offices of the National Summer Series and be indicated on your application form. All fees must be paid in full prior to this section. Last year this program cost $550. Although tuition has not been set at this time, I anticipate a significant increase. Iowa's tuition is the lowest in the Big Ten. There may be no expensive credit hours you ever purchase.

www.iowadebate.com
THE JAYHAWK DEBATE INSTITUTE
AT THE UNIVERSITY OF KANSAS

A Tradition of Excellence for Over 35 Years

TWO-WEEK SESSION
June 29-July 12, 2003

JAYHAWK EXTENDED DEBATE INSTITUTE
June 22-July 12, 2003

COACHES WORKSHOP
July 10-July 11, 2003

Outstanding Faculty: The squad leaders include college debate coaches and exceptional senior debaters from around the nation. This year, JDI will be headed by Dr. Scott Harris, KU's Director of Debate. Many of the topic and theory lectures will be delivered by Dr. Robert Rowland, former Director of Forensics at KU and Baylor University. Other members of the faculty include quality coaches and debaters from across the country. Combined, our faculty have over a century of competitive debate and coaching experience.

Outstanding Resources: The University of Kansas holds over 5 million volumes in its library system. The campus is also home to a large federal document depository and a nationally-renowned archive. Students will find a wealth of resources related to the oceans topic at KU.

Outstanding Facilities: Students stay in air-conditioned residence hall rooms and eat in an award-winning dining facility. All the things a student might need during their stay - including a bank, restaurants, recreation facilities, basketball and tennis courts - are available on the beautiful Mt. Oread Campus at KU.

Outstanding Value: Over the last four years, the Jayhawk Debate Institute has maintained an average 8 to 1 student/staff ratio. Students who attend have a chance to work with a variety of college coaches from among the nation's top college and university programs. Our students leave Lawrence prepared to debate a variety of positions that can be used locally and on the national circuit.

Outstanding Track Record: Over the past several years, students attending the Jayhawk Debate Institute have returned to compile strong competitive records in national and regional competitions.
Outstanding Options

THE TWO-WEEK POLICY DEBATE SESSION
The two-week policy debate camp will offer labs in advanced, intermediate, and novice divisions. The advanced division is for experienced high school debaters. Students are exposed to advanced theory and work intensively on developing in-depth approaches to the topic. The intermediate division is for students with some experience who seek to improve their basic skills and to begin investigating more advanced theoretical concepts. All students are given ample opportunity to research both affirmative and negative aspects of the topic. A tournament concludes the two-week camp.

THE JAYHAWK EXTENDED DEBATE INSTITUTE (JEDI)
The most advanced workshop offered by the Jayhawk Debate Institute. The three-week session is for advanced high school debaters. Students will receive extensive assistance in research, argument construction, and debate skills. They will participate in tournaments and receive special instruction in advanced debate theory. The JEDI is directed by Dr. Scott Harris, Director of Forensics at KU. JEDI students should expect to participate in ten tournament-style practice rounds during the institute as well as numerous, individualized practice sessions. Students participating in this session should expect to be doing a great deal of original research during their stay at the institute.

COACHES’ WORKSHOP
The KU coaches’ workshop is under the direction of Dr. Scott Harris and Dr. Robert Rowland. It will offer extensive analysis of the Ocean Policy topic as well as theory and practice relevant to coaching high school debate.

LOW COST!
With Room and Board: $1100 (3 Weeks) or $800.00 (2 Weeks)
Without Room and Board: $725.00 (3 Weeks) or $475.00 (2 Weeks)
A $50 non-refundable deposit is required at the time of application.

Dorm size constraints force us to cap enrollment, so apply early to assure acceptance

(McCready continued from page 36)
been introduced. No doubt we are all in favor of new and challenging student activities, but can you imagine the bewilderment students will experience when being told their school offers two forensic clubs, but the two clubs are so different in their focus and agendas that they have nothing to do with one another?

According to my colleagues in the Midwest--"The Heartland"--the misconstruing of "forensics" is less of a problem than in some other parts of the U.S., particularly in the East, where we must fight the battle year after year to have our clubs/teams recognized for what they are, and not mistaken for 'Future Detectives of America.' So even though the problem may be mainly a regional one, my only recommendation is to simply continue to press on with the semantic fight. In all publicity for the team at my high school, we display the words "speech," "drama," "poetry," "presentation," and "public speaking" as prominently as the word "forensics." The National Forensic League was founded in 1925 and has proudly borne its name ever since. I doubt it is contemplating a change of name. Therefore, we high school coaches in many parts of the country will need to continue to go the extra mile in publicizing and explaining the activities we sponsor.

(William (Rusty) McCready is Forensics and Debate Coach at Walter Johnson HS, Maryland. Rusty is President of the Montgomery County Debate League)

__CAMERA MAN BILL__

A special "Thank you" from NFL to Bill Hicks for providing many of the Queen City centerfold and congressional photos published in the September Rostrom. Bill coaches at Brebeuf Jesuit, IN. Take the time and drop Bill a note thanking him, especially if you spotted yourself or some of your students photos. Photos hold the memory!

Thank you Bill!

James M. Copeland, Executive Secretary
Sandy Krueger, Publications Director
The 24th Annual Marquette University Debate Institutes

Regent Program – July 26-August 9
Our flagship policy program, the Regent program has had alumni qualify to elimination rounds at every major national tournament, including the TOC, NFL, and NCFI. The program also has had outstanding success with novice and beginning debaters. Regent participants leave campus with every piece of evidence photocopied at MUDI from all policy debate programs.
Resident: $949 Commuter: $649

Scholastic Program – July 26-August 2
The more affordable counterpart to the Regent program, Scholastics will work with Regents during their week on campus. When they leave they receive all evidence compiled by all Scholastics and Regents up to the point of their departure.
Resident: $649 Commuter: $499

Lincoln-Douglas Program – July 26-August 3
Students get a balance of philosophy and practical skills. Our coaching staff has produced national circuit and state debate champions. Learn from a proven curriculum that has been modeled by other institutes.
Resident: $649 Commuter: $499

Debaters from our program have enjoyed great success including:
- Illinois State Champions: Nov, JV, Varsity Champions of Harvard, East Grand Rapids, MI; Elimination Rounds; NFL Nationals; CFL Nationals; TOC, KY; Glenbrook, IL; Iowa Caucus; New Trier, IL; Greenhill, TX; Chaminade, GA; and many more!

Our 2003 Faculty Tentatively Includes:
- Tom McLean, Marquette Univ. High School
- Jeanne Nuske, Univ. of Wisconsin-Oshkosh
- Edward Thom, Marquette Univ. High School
- Sean Loman, Marquette University

Our QM prides itself on its open educational philosophy. Every participant has access to all faculty members and each participant leaves with a complete set of evidence from all labs. We never exceed the 6:1 lab ratio and provide excellent dorm supervision.

For information contact:

TO THE EDITOR....

My name is Benjamin Walsh and I have been a Student Congress participant for the last two years in the Carolina West district for Independence High School. I enjoy speaking, but even more I love the job of presiding over chambers. If the NFL allowed it, I would preside every session.

In my experience as presiding officer, I have noticed that a lot of time is wasted during chamber. People also have different ideas about how a chamber should be run. I believe the largest flaw is with the establishment of priority in the chamber at the beginning of a session. I have witnessed two systems used:

**Athleticism** involved recognizing whoever stands up or raises their placard the fastest. The inherent problem with this system is that there is no way of insuring equality. A presiding officer essentially recognizes who they see first not necessarily who stood first. It also wastes time when a presiding officer must tell everyone to sit, bang the gavel again, and then basically guess on who stood first.

The other system I have seen used is **geography**. All too often this system is abused and not used to benefit the chamber. Some presiding officers alternate right to left on each speech. However, if an affirmative speaker is standing on the negative side the speaker must wait for the affirmative side to be exhausted. Most presiding officers also do not take into account how long a speaker has been standing. Say a speaker has been standing on the right for five cycles but is passed over for a speaker on the left who just rose. The speaker on the left is chosen because they are the only one on the left and the presiding officer is strictly alternating from right to left. I do not believe this is fair to the speaker who has been standing already and had a speech prepared. Noting these flaws, I have devised a system that I believe will be more equitable and will not waste speaking time during sessions.

My system involves a fair and random choosing of the speakers. I will use a small chamber of eight as an example. Before the session begins, each speaker chooses a number from one to eight. When the presiding officer is chosen, his number is eliminated. We'll say he was number five. Then the session begins. As with all systems, the authorization/sponsorship speeches are always given the best precedence. We'll say that speaker four gave the authorization. When the first negative is called, speakers one and seven rise. Speaker one is recognized because they have a lower number. The presiding officer then notes that speaker seven has risen for one cycle. When the second affirmative is called speakers two and six rise. Again speaker two would be recognized and speaker six is given credit for one cycle. When the second negative is called, speakers three and seven rise. This is when the cycle clause comes into effect. Normally, speaker three would be recognized before speaker seven. However, speaker seven has been standing for more cycles than speaker three, so the chair recognizes speaker seven and gives a cycle credit to speaker three. Then, the third affirmative speech is called and speaker six is recognized. Speaker three is then recognized for the third negative. The chamber then moves to a new piece of legislation. Again, authors always have precedence so speaker three is recognized even though he has the worst priority in the chamber. When the first negative is called, speakers two and eight rise. Speaker eight is recognized because they have yet to give a speech. Now all eight members of the chamber have spoken at least once and priority for the rest of session is set based on the number of speeches and the order in which they were given.

It is my belief that this system is more equitable than standing first or alternating from left to right. Less time will be spent during session determining who should speak and thus will allow more time for speeches. It will also eliminate potential bias in presiding officers, giving all speakers in the chamber an equal opportunity to speak.

I want the best for the NFL and Student Congress; I believe this new system will help insure equality and allow more speeches to be given per session. It is my desire to spread this system to help the NFL nationally and I would appreciate any feedback from the NFL on this new system. I thank you for your time.

Respectfully submitted,
Benjamin S. Walsh
Independence High School
Charlotte, NC

RESPONSE BY "MR. CONGRESS", HAROLD C. KELLER.....

The National Forensic League offers the congressional admonition that “members who have spoken least or not at all should be recognized first.” It is a simple statement written with the goal of achieving fairness and member equality.

There are many methods that a Presiding Officer might utilize to seek equality for speaking opportunity in a Chamber. I have witnessed a variety of systems being used in the recognition/priority process. For example: the right-to-left and front-to-back system, the blind draw of names or code-numbers from an envelope, the use of color-coded note cards, a computer-generated selection process, and other systems. All systems are used in an attempt to guarantee fairness, equality and efficiency in the recognition of speakers.

Benjamin Walsh’s intent is an attempt to guarantee equality and time efficiency, and that is good. But all systems have a similar goal. However, it is just another system in the field of many. No particular recognition process should be mandated. Hopefully in any democratic society, whether it is the classroom teacher or the Presiding Officer in the congressional market place of ideas, individuals will be allowed academic freedom in their attempt to reach designated goals. Rules are in place. Philosophical guidelines have been established. Academic freedom is present.

The First Amendment of the US Constitution guarantees the right to petition for change. Under the rules of parliamentary procedure a member can “appeal the decision of the chair” or “rise a point of order.” It is my contention that the members of a Student Congress are empowered by such tools to guarantee fairness and justice. The adoption of a set system of Presiding Officer protocol would in essence restrict freedom.
Iowa LD is 12 years old and 18 former Iowa participants have appeared in the Final LD Round of the NFL National Tournament!

Update on Iowa participants at 2002 tournaments:

Wakeforest University Earlybird
All four semi-finalists were Iowa participants

Grapevine Classic
All four semi-finalists were Iowa participants

Mid-America Cup
Four of the eight quarter-finalists were Iowa participants

Bronx High School of Science
Seven of the octo-finalists were Iowa participants

The Greenhill Fall Classic
Six of the octo-finalists were Iowa participants

Manchester Debate Tournament
Two semi-finalists were Iowa participants

St Marks School of Texas
Six of the octo-finalists and both finalists were Iowa participants

Apple Valley Debate Tournament
Three of the quarter-finalists were Iowa participants

The Glenbrooks
Nine of the octo-finalists were Iowa participants

The Ohio Valley Invitational
Three of the semi-finalists were Iowa participants

UT Austin's Longhorn Classic
Both finalists were Iowa participants

A comprehensive computer solution for managing speech tournaments

- Integrated solution supports debate, individual events, and congress in a single software package
- User friendly point-and-click operation with drag & drop sectioning and pairing
- Schedules judges - tracking competencies, preferences, school affiliations, strikes, obligations
- Tracks and schedules cross entries
- Flexible tabulation rules - user-definable to meet your specific requirements
- Sweepstakes calculations
- Unlimited rounds, sections, events, divisions, flights
- Network enabled allowing tabulation on multiple computers simultaneously
- Calculates entry and drop fees
- Tracks and separates selections for interpretation events
- Supports NFL District Tournament rules
- Runs on Windows 98 / 2000 / XP

The Joy of Tournaments has been used at numerous tournaments (175+ and counting) in several states including Texas, Arizona, Florida, South Dakota, Nebraska, Alabama, Kentucky, Ohio, California, and New Mexico. The software produces an assortment of more than 120 reports and includes full documentation.

For additional details, visit the website at www.joyoftournaments.com or email info@joyoftournaments.com

also offering online registration

- attending schools sign-up directly on the website
- available 24 hours a day, 7 days a week
- handles drops, adds, and substitutions
- provides judge sign-up
- calculates fees and judge quotas
- provides entry confirmations to registrants
- administrative options allow the host to view or edit entries and judges at any time
- information downloads directly into The Joy of Tournaments software, significantly reducing data entry and eliminating mistakes
- checks cross-entry restrictions and entry limits
- option to post tournament results
- utilized by over 100 tournaments

NFL Executive Council
% of Mr. Willam Woods Tate, Jr., President
Montgomery Bell Academy
4001 Harding
Nashville, TN 37205

Dear Council Members:

I am writing this letter because I feel it is necessary that you consider a number of concerns about the "new debate division event," Controversy or "Ted Turner Debate." Before proceeding, I need to make two disclaimers. First, I am not opposed to adding tournament events. In fact, I have been active in the past in helping to develop several new events both at the State level and at the National level. Second, this letter reflects only my opinions. My concerns about Controversy can best be grouped in three categories: the process of adopting the new event, the materials which have been published about the new event, and the event itself.

First, my concerns about the process of adopting the event. Contrary to the statement in the November Rostrum that "the NFL coaches of this nation have demanded a new debate event,..." I am aware of absolutely no concerted, organized attempts to solicit input from coaches, schools, or District Chairs. Perhaps I missed the referendum or questionnaire or comments solicited at coaches' meetings at the National Tournament, but I don't think so. I do know that when District Chairs were informed at the 2002 National Tournament that the event would begin this year, no one on the Council could tell us even how many students would comprise a team. I am deeply concerned that the National Council apparently signed a blank check for whatever someone might come up with in the future. I know that other events which have been added have all been tested in States, sometimes discussed at a summer symposium, revised and refined, and then, after solicited input from NFL coaches and District Chairs, adopted. I am concerned that a similar procedure was not followed with the event of Controversy.

The second category of concerns is about the material that has been published concerning Controversy. The article in the November Rostrum demeans all other NFL events either directly or by omission. The article states:

Policy debate and LD debate have become specialized, filled with code-words that ordinary people do not understand on topics people don't wish to hear. Debaters often talk beyond the speed limit. Extemp has also become a documentation speech, oratory has become interp, interp has become filled with innuendo and explicitness.

Note that all but one NFL sponsored event, student congress, is attacked as either useless or impracticable in a publication read by most of our students, many of our administrators, and many of our parents. Additionally, student congress is demeaned by omission both in that last quotation and in an earlier section of the article which purports to identify all of those events that "NFL sponsors." My specific concern is that administrators and parents will read this material in the Rostrum and then make decisions about the future of competitive speech. This article certainly implies that all the events we currently sponsor are not worthy of financial or parental support. Furthermore, if the negative accusations about all current NFL events are true, there can only be two reasonable alternatives: either correct the abuses or eliminate NFL sponsorship of the events.
Also, many of the statements in the November Rostrum will simply appear false to many readers. To indicate that we cannot currently attract students who "are not interested in researching a topic for a year or most of a year" ignores those very viable events of Lincoln-Douglas debate, extemporaneous speaking, and student congress. The suggestion that students who currently debate must "miss school so much," is to ignore the thousands of students who debate on many Saturdays and seldom if ever, miss school in order to do so. To suggest that only by adopting Controversy will we "be presenting exciting, current, controversial topics" ignores the hours students spend in practice congresses on Saturdays. And to suggest that only through Controversy will "topics be developed from significant issues" flatly ignores extemporaneous speaking as well as congressional debate and the work of the NFL L-D Wording Committee. Since very few schools in my state travel the "national circuit" and since participation in Lincoln-Douglas debate and student congress continues to grow yearly, it appears to be a public misstatement to level the above accusations at debate events in general. And since very few students in my area have to "compete every weekend" to be successful, the indication to the contrary in the Rostrum is simply false.

Additionally, in the handout from the National Office to District Chairs, which I faithfully forwarded to all of our coaches, someone (in an apparent attempt to appear clever) used insipid, banal cliches in describing Controversy. One example compares a supposed academic endeavor to playing a "football game." Later the use of the cliché, "grasp victory from the jaws of defeat" continues this misguided and inane writing. My concern is that the use of the cliches adds to the trivialization of academic competition.

Third, I have major concerns about Controversy as an event. Before I get into those concerns, let me say that I think Controversy appears to have tremendous value as a classroom activity to introduce students to some of the concepts of academic debate. However, I do not perceive it to be an activity for which we want to reward students at the national level of competition unless it is a supplementary or consolation event. Many of my concerns about the event are predicated on the assumption that debate is an academic activity. In many of the schools in my area, debate is identified as an "honors academic course." However, I do not see Controversy as a type of event that will require the in-depth research and critical thinking skills required of academic debate.

I am enclosing a recent Rocky Mountain News article entitled "Dumber and dumber" to demonstrate what it now takes to appeal to the media. "Dumb culture," it says, "has always been with us, but it's never been so aggressively marketed as it is these days." I do not believe that the "dumbing down" of academic debate in order that it be sold to the media is educationally sound. Furthermore, I fear that Controversy will reward students such as those about which I recently heard. Those students threatened to drop a competitive debate class because "the teacher is asking students to do too much." (The teacher was requiring that debaters collect 50 pieces of evidence over a four week period -- 20 of which had to come from the local high school library). While those students just might be witty, crafty, and generally read enough to be successful in Controversy, allowing such success would certainly reward laziness instead of academic excellence.

I am also concerned that the administration of Controversy adds considerably to the difficulty of hosting the District Tournament. In our District, we attempt to hire "flexible" judges. By "flexible" we mean those competent and willing to judge policy debate, Lincoln-Douglas debate, and all other speech events. By so doing, we can best avoid a contestant being judged twice by the same person. If I understand the intent of the judging rules for Controversy correctly, those qualified to judge policy and/or Lincoln-Douglas debate should not be used to judge Controversy. Essentially, that means we
would have to hire a separate cadre of judges just for Controversy. The use of "flexible" judges would be radically curtailed.

Additionally, I am concerned that yet another job is to be pushed off onto the currently over-worked high school teacher/NFL sponsor/debate coach. The Rotstrum article tells us that the "talented" teachers we want are those who "currently advise quiz bowls, academic decathlons, etc. Because of the time commitment, they would not become involved with current debate divisions." Most of the NFL coaches in my District do not sponsor activities such as quiz bowls and mock trials because NFL doesn't sponsor quiz bowls and mock trials. But, they are busy. If NFL adds Controversy, the NFL sponsor/debate coach will be expected to add one more burden.

I am concerned that during the "Grand Crossfire" no one is in charge or in control. Again, in a classroom with teacher control, this might work well, but in a competitive tournament in which the teacher/NFL sponsor/debate coach is forbidden to judge, chaos may well reign.

I simply do not understand how the use of news programs as research is consistent with the admonition, "NFL rules of evidence apply." I believe the theory behind that statement is that evidence should be available to all to check at later times. Most news programs are not re-broadcast at later times.

Finally, I fear that the admonition in the Rotstrum article that "something will change in the immediate future to improve our lot seems rose-colored thinking" probably best applies to the apparent dreams of instant media coverage of this event. But, should I be wrong, and should the media pick up this event, I for one, would be greatly embarrassed. To add Controversy as a main event as it is now constituted violates the very precepts of academic debate. As a debate teacher/coach, I would be deeply embarrassed if this event was to represent what I do. This event, like Irish debate, is well suited to entertainment and poorly suited to academic competition.

I believe the above concerns and problems must be addressed. Some concerns and problems may be solved through communications. Others require structural changes. To grant this event main event status while so many concerns remain and identifiable problems exist violates the very processes for which the National Council is admired. I request, I plead, I exhort the Council to please reconsider. Perhaps a reasonable alternative would be to make Controversy a supplementary or consolation event for the first few years of testing. On the other hand, one might simply put the event on hold until testing and adjusting is completed.

Sincerely,

Lowell Sharp, District Chair
Rocky Mountain South

cc: Colorado District Chairs, Rocky Mountain South NFL Coaches and Jefferson County, Colorado Coaches

(Secretary James Copeland's response follows on page 70)
Secretary James Copeland Responds:

Lowell:

You are technically correct that the council sent out no survey and held no plebiscite. But I disagree that a new debate event was not “widely demanded”. Just as John Dewey recognized the “felt need”, the council recognized that policy debate is no longer practiced in most schools.

In 1986 when I became secretary, about 1200 NFL schools debated policy; last year barely 600. Eight NFL districts conduct no contest in policy because no school in those districts debate. Ten other districts have only two or three debate schools. Kritiques and other counter intuitive arguments have caused states like Minnesota (Classic) and North Dakota (L/CD) to invent a different kind of debate to be used in their state.

The people’s voice (coaches and students alike) has clearly been heard. These people “voted with their feet” and left policy debate! When the new event was described to the district chairs at their meeting in Charlotte, it received strong support and applause!

The process used to begin Ted Turner debate is not unlike the process the council used when adopting Duo. A council committee studied the issue, rules for a trial event were distributed, a year of trial will take place, a survey will follow to refine the event.

No “blank check” was presented to anyone. Turner debate and its present rules are in a “trial year” and it will be fully evaluated by the students, coaches and council.

Your second concern finds fault with the materials written by Donor Roberts and James Copeland about the new event.

I do not believe that accurate criticism is demeining. If what you argue were true, the founding fathers “demeaning” King George and any citizen petitioning his government “demeans” the bureaucracy in charge.

If readers do not agree with Mr. Roberts’ findings, they are free to respond (as you have done) and NFL will gladly publish their rebuttals. The cure for error is not less speech but more!

I, James Copeland, admit to writing “in an apparent attempt to be clever” the “insipid, banal cliches” that offended you in materials published about the new debate event.

I believe my football analogy briefly and accurately describes the coin flip. Everyone has gone to a game, seen the flip and knows the options. [we have a flip in Turner Debate to eliminate artificial “debate” arguments like presumption and unreasoning by allowing the negative to begin]. You also object to the “misguided and inane” phrase “grasp victory from the jaws of defeat.” How better to describe one of the truly original concepts in debate (invented by Donor) “the last shot.”

I am surprised by your ad hominem attacks. When writing for students one must be interesting as well as giving a vividly accurate picture as to what is actually going on. And I don’t accept that a light hearted comment trivializes an academic activity. If that were true, L/D, for years the butt of jokes about being “Learning Disabled”, would be trivial and it clearly is not!

You final concern is that Ted Turner Debate is not academic enough and could not be an honors course. I agree. Nor can Extemp, Humor, Duo be honors courses. And beware of the standards you impose. By your reasoning English classes that teach Twain instead of Shakespeare are deficient and physical science classes are “dumb” because they are not physics!

You argue that Ted Turner debate “will (not) require the in-depth research and critical thinking skills required of academic debate”. Are you serious? There is little original research now in policy – policy is full of camp evidence. There is little critical thinking now in policy – policy is reading of briefs written by college debaters or purchased through the mail. I believe there will be much original thinking and original research demonstrated in Ted Turner debate as students research a new topic each month and prepare their own arguments.

NFL needs to attract students to learn debate skills. NFL needs to bring audiences and the media back to high school debate. Let’s try an audience friendly format that requires students to do their own thinking and that stresses communication and persuasion. Since you admit that Ted Turner Debate “has tremendous value as a classroom activity to introduce students to the concepts of academic debate” why is it unworthy of being an extracurricular contest?

I dismiss your argument that the Ted Turner Debate “dumbs down” academic debate. How can you make such a sweeping claim without proof and before a fair trial of the event?

Your letter then proceeds to a number of minor complaints:

Ted Turner Debate does not in any way add to problems with tournament administration. Anyone (repeat anyone) can judge except college debaters and ex-college debaters. Your adult judges in Extemp, Interm, L/D, Oratory are fine. Just keep the college debaters in policy – where they wish to be anyway.

You claim teachers are overworked and I agree. If a teacher chooses to try Ted Turner Debate it is her decision. NFL never requires that a school enter every event it offers. We hope teachers who have (regrettably) dropped policy debate may be energized to return to coaching.

Will the Crossfire get out of control? Perhaps, some will but I’ve judged some policy rounds where the CX period got out of control. We are dealing with adolescents who, even if very bright, are adolescents, and may initially make mistakes. If the argument you are making is that “if things get out of control they should not be allowed” would you ban policy debate due to its uncommunicative delivery; not to mention rhetoric, and Frencacut arguments?

You ask how news programs may be used as research. Many have web sites, most publish transcripts. But these are more of a source of ideas and arguments, not evidence.

There are basically two ways to implement a policy. Years of committee quibbling to try to perfect the product prior to initiation or “in ambulando” – beginning now and solving practical problems as we walk through the year. NFL has chosen the second way.
WHY FFI?

HERE’S ONE OF THE MANY REASONS........

INTRODUCING THE

Florida Forensic Institute
Administrative Team for Interpretation

Mr. Anthony Figliola
Director of Interpretation
Director, National Coaching Institute
- Coach of 5 CFL Champions in Prose/Poetry
- Coach of 6 CFL Champions in Duo Interp

Mr. David Kraft
Director of Curriculum
- Coach of 3 NFL Champions in Humorous Interp
- Coach/Consultant for numerous premiere Forensic programs around the country

Ms. Debbie Simon
Interpretation Administrator
- Coach of numerous CFL and NFL national finalists in all interp events

**Interpretation IV track** -- allows advanced interp students to work with top coaches furthering their own skills as well as learning through the mentorship process to actually coach other students!

**Oral Interpretation lab** -- FFI offers a lab for Prose/Poetry students only.

**Novice, JV and Varsity Interpretation labs** -- receive coaching from the best college and high school coaches (as well as college competitors) in Dramatic, Humorous, and Duo Interpretation.

FFI also offers top instruction in LD, OO, EX, and SC

Midwest Debate Institute

Rockhurst College, Kansas City MO

Beginning and advanced seminars help students develop research, listening and speaking skills that will be of lifelong benefit. Emphasis is placed on original research. All briefs will be developed by students from original research created during the institute.

Midwest students have consistently been successful in regional and national competition: 1st in Congress, 1st in Original Oratory, 2nd in CX Debate and 9th in CX Debate.

Students will return to their schools with a broad subject-matter background on the topic as well as improved understanding of the skills and techniques necessary for successful high school debating.

July 14 - 25, 2003

Tuition: $450
Housing/Meals: $350
NO HIDDEN COSTS!

Deadline: June 20, 2002
Staffed exclusively by high school debate coaches.

Open to Coaches!
Scholarships available!

William Driscoll and Joseph Zampetti
The book provides a practical introduction to the Kalamazoo Debate format. It discusses the importance and nature of educational debates in an open society and presents rules and guidelines for preparing and running a debate event, training judges and involving the community. The revised edition contains a transcript of a full debate on International Effort to Stimulate Peaceful Resolution with step by step critique, as well as new and expanded sections on topics, on debating in an international setting, and on choosing and selecting evidence. The book also includes 50 exercises to be used in the classroom or debate club. (pb)
Price $29.95 / ISBN 0-9702130-9-3

The Democracy Reader Sonja Myers (Editor)
Foreword by Benjamin Barber
A comprehensive tool for understanding democracy and the central role that citizens play in making democracy work. The first section contains essays by distinguished scholars and discussion questions on the basic elements of democracy; the second, using the same format, deals with the debates surrounding the way to democracy and strategies for addressing them. The third is an album of civic stances, accounts of civic epiphanies and transformations from around the world. (pb)
Price $25.95 / ISBN 0-9702130-3-4

Many Sides: Debate Across the Curriculum
Alfred C. Stroper and Maxwell Schnirer
A comprehensive guide for using debate in an educational classroom setting, including plans to integrate debate into the curriculum, designing proper formats, developing topics for debates, preparing students for debate, staging the debates, audience involvement and evaluation of classroom debates. (pb)
Price $24.95 / ISBN 0-9702130-4-2

Art, Argument and Advocacy: Mastering Parliamentary Debate
John Mavy and Kate Slater
Provides a theoretical and practical foundation for effective participation in academic parliamentary debate competitions. It explores contemporary American and international parliamentary debate formats, offering a comprehensive examination of argumentation, construction, and authentic debate, critical thinking, critical evaluation of government assertions and data, and persuasive speaking. (pb)
Price $24.95 / ISBN 0-9702130-7-7

On That Point: An Introduction to Parliamentary Debate
John Mavy and Kate Slater
This is the first parliamentary debate textbook for secondary school students. The text is designed to provide a theoretical and practical foundation for effective participation in parliamentary debate in competition or in the classroom. (pb)
Price $25.95 / ISBN 0-9720941-1-1

The Debatebase Book:
A Must-Have Guide for Successful Debate
By the Editors of DEBATEBASE
An invaluable resource for debaters, this book provides background, arguments and resources on approximately 50 debate topics in areas as diverse as business, science and technology, environment, politics, religion, culture and education. Each entry presents the resolution in its entirety, placing the question in context, arguments for and against, sample motions and web links to further resources. Organised in a handy A-Z format, the book also includes a topical index for easy searching. (pb)

Transforming Debate: The Best of the International Journal of Forensics Jack Elsberg (Editor)
Represents the very best scholarly work published by the International Journal of Forensics. It is an essential work for anyone interested in the role of academic, competitive debate in shaping the social perception movement. (pb)
Price $24.95 / ISBN 0-9702130-1-8

Perspectives in Controversy: Selected Essays from Contemporary Argumentation
Kornel Brodi (Editor)
Brings together recently published essays from the journal Contemporary Argumentation and Debate in a single volume. These essays explore current controversies in the theory of competitive academic debate. (pb)
Price $24.95 / ISBN 0-9702130-5-0

AIDS, Drugs and Society
Anna Alexandrova (Editor)
Brings together articles that address the interrelated epidemics of HIV/AIDS and drug abuse. Background readings in the introductory section show how these epidemics are interconnected. The substantive part of the book offers different sides of each topic in the text. First, there are debates about policy aspects of the 'war on drugs.' Second, there are debates about the human rights aspects of viewing HIV/AIDS as a human rights issue. The editor places particular importance on 'harm reduction,' policy attempting to decrease the absolute consumption of drug use without total prohibition of drugs. The book ends with source documents that offer examples of harm reduction initiatives, human rights treaties, and a glossary of key terms. (pb)
Price $24.95 / ISBN 0-9702130-2-6

Globalization and the Human Right to Equalize
Julie Clark (Editor)
Brings together articles that address both sides of the debate that the global economic system is helping to create and explore the issue of the right to equalize. The second section introduces the first essay, which analyzes globalization as a potential for improving and extending the poor. The third section examines the role governments and international organizations play in globalization's effects on the poor. The final section of the book is a case study of the East Timor crisis; it explores the response to crisis and how the policies affect the poor. The book contains original source documents and a glossary of key terms. (pb)

Roma Rights: Race, Justice and Strategies for Equality
Claude Kahn (Editor)
Brings together diverse material related to combating anti-Romani racism. Early sections of the book present facts on the human rights situation of Roma in Europe. Subsequent chapters present arguments surrounding the strategies and approaches used by anti-racist activists in areas including the problem of hate speech, the promotion of minority participation in a democratic society, and methods of combating discrimination in the criminal justice system. (pb)
Price $24.95 / ISBN 0-9702130-6-9

SOURCEBOOK ON CONTEMPORARY CONTROVERSY SERIES
IDEA YOUTH FORUM / Slovenia 2003
July 21 - August 1, 2003 / Ljubljana, Slovenia

IDEA, in partnership with Za In Proti (ZIP), will host its 9th Annual International Debate Youth Forum. The Debate Youth Forum brings together secondary school students, university students and teachers from all over the world to discuss, learn, debate and meet one another.

The Forum features two debate tournaments: the national team tournament and the international mixed team tournament both using the Karl Popper Debate Format. The resolution for the national tournament will be: “the nations of the world should strengthen the International Criminal Court” and, the resolution for the mixed tournament will be: “the separation of public and private is detrimental to women’s rights”.

The educational track for secondary school students rests upon three elements: content sessions on the topics, general sessions on debate and “lab” sessions centered on the preparation for debates.

All participants will stay in the Dijaski dom Ivana Cankarja student dorms which have excellent conference facilities, comfortable rooms, an olympic size swimming pool, gym and outdoor fields and is a short walking distance to the center of Ljubljana. Additionally, participants will have the chance to explore the beautiful nature of Slovenia on a half day trip to Bled and a full day trip to the Slovenian coast.

The Slovenian staff and volunteers welcome you to one of Europe’s smallest and most beautiful capitals. For more information on the Forum and registration please see our website: www.idebate.org. If you have any questions, feel free to contact us at the below addresses.

Participant price: $350 for non-IDEA members / $300 for IDEA members

Price includes: room and board for 11 days, full day and half day trips, banquet and educational materials. You must pay for your own transportation to the site. Each delegation of three students must bring a judge. If you are not able to bring a judge there will be an additional charge of $100 per student.

International Summer Speech and Debate Institute/Duino, Italy

LOCATION:
The institute will be held at the United World College of the Adriatic campus, which is located on cliffs overlooking the beautiful Adriatic. In addition to the formal sessions, the campus offers opportunities for swimming, hiking and other outdoor activities. Siteseeing excursions to nearby cities such as Venice and Trieste will be offered.

SESSION 1: (June 30 - July 14)
Lincoln-Douglas Debate & Speech
The L-D workshop will be for students wishing to work on 2003-2004 NFL debate topics. The Speech workshop will offer instruction in Humorous and Dramatic Interpretation, Original Oratory, and Extemporaneous Speaking (including in-depth topic analysis). Students can cross-register in speech and debate.

PRICE: $1,400 USD

Institute Director: Eric Di Michele
(212) 288-1100, ext. 101 Email: edimiche@regis-nyc.org

SESSION 2: (July 15 - 21)
"Bridge Program" to IDEA's International Youth Forum in Ljubljana, Slovenia
For students interested in attending both the IDEA Speech and Debate Institute and IDEA's 9th Annual Youth Forum in Ljubljana, Slovenia, a special one week program will be designed. Students will prepare for the Youth Forum debates through research and discussion. Students will also have the opportunity for advanced research and discussion on the NFL topics covered at the Lincoln-Douglas camp. Additional sightseeing trips around Northern Italy will also be planned.

Session Director: Nina Watkins, IDEA
(212) 548-0185 Email: nwatkins@sorosny.org

PRICE for Sessions 1 & 2 - $2,000 USD
Session 2 is not available without Session 1.
These prices include:
- Housing and meals
- Research materials
- a "survival" Italian course
- two excursions per session
- transportation to and from the Trieste airport or train station

Travel to and from Italy is not included. IDEA will be arranging a group travel discount for students departing from and returning to JFK International Airport in New York City.
What Makes Our Institute Unique:

Our camp provides the opportunity for intensive debate and speech preparation with the caring guidance of nationally recognized veteran coaches within an international community of students. Last year's participants included students from the United States as well as Uzbekistan, Macedonia, Slovenia, Azerbaijan, Estonia, Albania, Croatia, Romania, Slovakia, Lithuania and the Czech Republic.

STAFF:

Eric Di Michele (Institute Director) has been the speech & debate coach at Regis High School in New York City for over twenty years. His teams have won the New York State Forensics Championship eleven times. He has coached NFL national champions in Lincoln-Douglas Debate and Ohmag Emet. Seven of his students have been national finalists in L-D. He was the co-chair of the NFL Lincoln-Douglas Debate Warding Committee for five years. As a consultant with the Open Society Institute, he has taught speech & debate seminars in over fifteen countries—from Iran to Uzbekistan.

Linda Eslinger, long-time forensics coach and an NFL 5-diamond coach, at Regis High School on Long Island (NY), has extensive experience in debate and speech. She has coached over twenty-five New York state champions, and her students have advanced to semi and finals in CFL nationals. NFL achievements include semifinalists and winners at every speech event at nationals, a 1st place in Congress and interpretation. Her past seven summers have been spent teaching extemp and interp in eastern and central Europe, as a senior consultant for the Open Society Institute. In her "day job" Mrs. Eslinger teaches AP English, coaches acting, and has directed more than twenty musicals.

John Sorensen (Guest Lecturer) has coached debate at Hunter College High School in New York City for thirteen years. His teams have won numerous national and international championships. In addition, he is the Executive Director of IDEA. A student of social and political philosophy, he specializes in the history of political thought ranging from the Ancient Greek philosophers to contemporary political theory.

Robert Pasquali obtained his International Baccalaureate at the United States, Rome, Italy. In 1995 he became the coordinator of the debate program, and also wrote a book about debate. As a consultant for the Open Society Institute, he conducted trainings throughout central and eastern Europe. In 1999 Marcia was elected the President of IDEA. He has been a member of the International Debate Education Association and consultant for the debate program.

Additional staff will be added in the
coming weeks and will be posted on our website: www.idebate.org

If a man with just one year of schooling could lead a nation, imagine what you could do with a little help.

Abraham Lincoln had almost no formal schooling. But he loved learning, and he understood the power of words—to stir men’s souls, to influence thought, even to change the world around him. That’s why, at Lincoln Financial Group, we’re proud to sponsor the National Forensic League, A&E’s BIOGRAPHY® Project for Schools, and other educational programs for young people. If you think you’re ready for the NFL, give them a call at 920-748-6206. After all, four score and seven years from now, there’s no telling what the history books will be saying about you.

“Love to dig up the question by the roots and hold it up and dry it before the fires of the mind.”
—Abraham Lincoln
