Chapter Directory

In the following listing of NFL Chapters the numeral preceding the name indicates the years of membership for that chapter. Inactive or suspended chapters are so indicated, but suspended chapters which have undertaken reinstatement are not marked.

The active faculty sponsor is named as well as additional instructors holding active membership in the Local Chapter. "National" indicates the years in which that chapter participated in the National Speech Tournament. "Chairman" indicates the years in which a member of that chapter served as District Chairman, though not necessarily the present sponsor named in this directory.

Although these lists have been checked for errors and omissions, it is still probable that some have occurred. If Chapters will kindly call attention to them, the national office will make correction.

This is our first comprehensive NFL directory. Is it what you want? Is the information interesting and useful? What might be left out and what should be added? Within the limitations of space and the feasibility of collecting the data, we should like to include in our next directory just what most of the chapters want. What is your specific suggestion? Write the national secretary about it while the idea is fresh in your mind.
