

ROSTRUM

Volume 71

October 1996

Number 2

*Ben S. Lerner
1996 High Point Student*

THE REALLY BIG L.D. BLOCK BOOK, VOL. 2

Adds crucial ideas, blocks and case concepts to your L.D. arsenal.

You'll be more knowledgeable and much more successful when you're brainstorming, case writing or competing—if you own the NEW Volume 2. These blocks reflect unusually insightful concepts, examples, organizational suggestions, and evidence sources. The Really Big L.D. Block Book Volume 2 really performs three functions in one:

1. Ideas to stimulate your affirmative and negative research.
2. Blocks that suggest approaches that other squads will probably overlook.
3. Evidence and logic that only National Trophyists are used to producing.

Unique blocks make a perfectly balanced research and case aid.

Outstanding quantity: over 300 new blocks in new topic areas and concepts.

Research quality: a remarkable diversity of sources, from philosophy to poetry to underground newspapers to N.S.A. Reports have been consumed for your blocks.

Outstanding thought: Only Sam Donaldson, twice a trophy winner at N.F.L. nationals, could bring you such a winning product.

Cost is \$47.00.

Use order form on back cover.

OWN Your Own L.D. Block Encyclopedia

Here's your choice to own the Lincoln Douglas reference book that every debater needs. It gives you 100s and 100s of blocks on both sides of value issues. You can use the alphabetized index to easily guide you to the blocks that best fit the topic you need help on. AND it's not just evidence cards thrown together. Analysis and examples are integrated throughout the work.

As a reference tool it is unsurpassed. As an insight into philosophy and clash it is invaluable. As a beginning for case writing it is delightful.

Cost: \$47.00. Just use the order form on the outside back of this catalogue.

THE BEST DEBATE RESOURCES FOR 1996-97

Reducing Juvenile Crime

NTC's "BIG 3" DEBATE TOPIC BOOKS

1. Reducing Juvenile Crime in the United States

The Complete Resource Handbook

Analyzes the problems, outlines the issues, and offers supporting evidence for this year's topic. Also provides names and addresses of organizations publishing relevant material.

Softbound, #EL5406-1\$20.95

2. U.S. Policy on Reducing Juvenile Crime

Issues Relating to Reducing Juvenile Crime in the United States

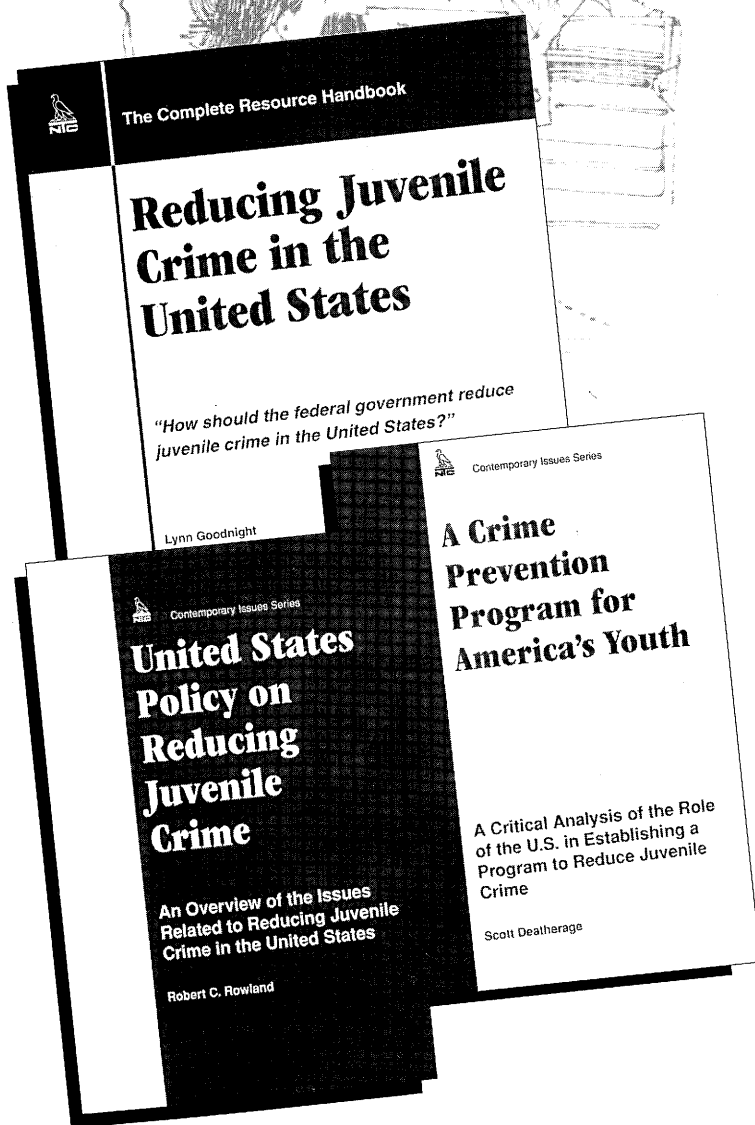

Everything debaters need to grasp this year's topic. Includes empirical findings, related issues, ramifications, alternate solutions, and more. Softbound, #EL5409-6\$18.95

3. A Crime Prevention Program for America's Youth

Federal Government's Role in Establishing a Policy to Reduce Juvenile Crime in the United States

This collection of critical essays and arguments is written by recognized experts. Many of the selections have appeared in specialized journals and other scholarly publications generally not available in libraries used by high school debaters.

Softbound, #EL5408-8\$18.95

WHY SPEED KILLS

by James Talley

The use of a high rate of a delivery in academic debate has long been an issue of controversy, leading old-school judges to withdraw their allegiance from the activity, fueling dissatisfaction and encouraging the formation of alternative debating leagues and formats. It is unfortunate that the main outcries against speed debate are based largely on misconceptions and flawed conventional wisdom.

The most often heard objection to speed debate is that the practice results in poor analysis of the issues and arguments. This charge is, itself, fallacious. How rapidly one speaks has no necessary effect on the quality of one's argumentation or the rigor of one's thought. A brilliant debater will remain a brilliant debater whether she speaks like Alvin the Chipmunk or like Paul Harvey. Speed can be used as a ploy to mask shoddy analysis, however, but the solution to this problem is to encourage sound reasoning at all levels of experience and at all rates of delivery.

The second major complaint leveled against rapid delivery is that speed destroys debate's benefits as a communication training ground. If students were taught from the beginning of their debate careers to use ample jargon, word economy and rapid delivery, this criticism might be more valid. However, the norm is more likely to recognize a variety of judging preferences, paradigms, and familiarity levels, and thus teaching rightly focuses on adapting to the audience. If one's audience can follow and understand, and actually prefers a rapid delivery peppered with jargon, then providing "speed and spread" is consistent with precepts of good communicative adaptation. Hopefully, a debater can vary his speed and presentation to adapt convincingly to other audiences as well, and few debaters leave high school under the impression that audiences in the "real world" will comprehend, much less enjoy and find persuasive, speeches ranging from 250 words per minute on up.

Let's be honest, however: few debaters use speed to better adapt to the preferences of a judge. Speed is used to win rounds, and not by way of any lofty concepts of judge

adaptation. For the most part, the rapid delivery strategy is simple: lodge enough arguments of varying degrees of quality that the opposition will be unable to address them all, then focus on the unaddressed arguments and use these—in combination with the "no new issues in rebuttals" rule—to claim victory. It is in circumstances like these that "disadvantages improve once dropped," as a debate colleague once put it. An argument which, on its face, is inadequate and easily answered, takes on decision-rule finality once the time for the first affirmative rebuttal runs out.

Neither of the standard objections to rapid delivery serves to refute this practice. Critics of speed debate have not chosen their arguments well, preferring to base their

munk or Paul Harvey**

gripes on what they generally observe in competition (the correlation between shoddy argumentation and rapid delivery), without giving much thought to whether the harms they diagnose are actually caused by debate speed or merely associated with it. Instead of complaining about deficient analysis or improper communication, these critics would do better by assailing rapid delivery where it is actually vulnerable: in its ethical implications.

Since its beginning, debate has been used and justified as a means of ascertaining the probable truth of a proposition, or at least as a method for selecting the better among competing ideas. This ancient purpose still resides at the core of most traditional debate ethics. In this model, argumentation is a search for the probable truth, with each advocate testing the claims of the opposition for errors and fallacies, which, once weeded out, will clear room for a critic to evaluate a proper course of action based on the truth that has emerged

unscathed from both sides of the controversy. This view instructs us that anything which avoids argumentation and the clash of opposing claims is a retreat from the ethical purpose and justification of debate. Each claim must be tested to determine its worth, or "debate," as such, does not actually occur.

Nearly every form of unethical behavior in debate is an avoidance of clash; a hiding of, and hiding from, the truth or the means for determining the likelihood that a given claim is truthful. Falsification is not merely intellectual dishonesty. It is the conscious construction of supportive material that does not, in actuality, exist. How can falsified or fabricated evidence be legitimately tested by the opposition? It cannot. (Exposing falsification with proof from the original is not the same as testing the reasoning of a falsified claim but rather a "crying foul" against the rules violation.) It is deception designed to dodge honest inquiry into the internal reasoning upon which a claim's support is based. Use of falsified evidence deprives the opposition of the ability to logically test the falsely supported claim, an ability that is both the opposition's obligation and an integral component in debate's function. It is a case of running from a fight one does not believe can be won—usually because the fabricator is, at base, a coward.

Misuse of rapid delivery is a similar breach of ethics. The very nature of this strategy is a retreat from argumentation, an escape from clash, an avoidance of the mutual testing of competing claims which is intended to result in the discovery of the probable truth. The advantage of this strategy is that it allows a speedy debater to take the easy way to victory, but the easy way is not a proper course for the ethical debater. Like the fabricator, the speed tactician is usually afraid of letting his arguments receive an honest and thorough testing by the opposition.

The strategy is based on two factors: the drop rule in debate which holds that an issue unanswered from constructives cannot be answered in rebuttals; and the debater's ability to "spread" the op-

position, usually during the negative block. The existence of both the drop rule and the negative block is an idiosyncrasy of academic debate, and neither has any necessary relation to the truth or falsehood of any claims made in the round. To be sure, both factors have their purposes. The drop rule is intended to seal-off constructives so that arguments do not proliferate without an end in sight. The negative block is a consciously constructed counterbalance to the affirmative's privilege of having the first and last word in the debate. But when rapid delivery is employed by a negative team as a tactic for winning the round, the original purposes of the two rules which allow spread tactics to operate become eclipsed and in fact reversed. Both the drop rule and the negative block were intended to promote fairness, equity and sound debate. Neither was created to allow or promote a strategy which defeats the very purpose of argumentation, the clash and mutual testing of competing ideas.

Yet this is the result of speed used as a tactic. The negative team hopes that some of its arguments will be "time-dropped" by the first affirmative rebuttalist--not because this speaker is incapable of speech time management, not because s/he takes a sloppy flowsheet, not because s/he is without a response that would illustrate the deficiencies in negative's positions--but because s/he simply has not attained the purely technical and mechanical ability to speak at 300 words per minute. Delivery rate has more in common with debater pen-twirling than it does with the critical thinking skills debate attempts to promote. A speed debater asks for a decision based on two flukes of the activity, the drop-rule and the time constraints of the round--rules which exist to improve the search for truth, not impede it. The round is to be based on claims that have gone untested. The message sent is that quality, analysis, and truth do not matter so much as quantity and pure technical finesse at flapping one's lips. This message strikes at the justifying foundations of academic debate, and it is echoed in the words of every debate critic who complains about a wonderful affirmative that was unable to answer a mindless argument at the tail end of the IAR and thus lost the round. Such critics act as if they are

forced by the rules to render what they describe as an unfortunate, unfair, or even tragic ballot, when in reality, they are abdicating their responsibilities to maintain the activity as a forum of true argumentation.

The two main objections to speed most commonly seen have little to offer us unless seen in the light of debate's ethical dimensions. The "poor analysis" complaint could be dismissed because it mistakes a correlation between speed and logical sloppiness with a causation, yet it is the connotation of the spread strategy which is at fault here. There are grounds to believe that the use of rapid delivery as a tactic implies that arguments need not be up to snuff so long as there are many of them on the flow. The use and success of the spread send a message to debaters that the quality of an argument matters less than the quantity of arguments lodged. It also suggests that the easiest way to a winning ballot is a veritable cancer of positions, when in actuality arguing ten implausible or poorly constructed disadvantages requires much more physical work and wastes far more wood pulp than arguing one or two finely crafted and rigorous ones which cut to the heart of the affirmative proposal. The only "ease" involved in the spread is the relative laxity in critical evaluation and selection required of negatives when viewing and attacking the case, but this free lunch is paid for in extra effort to cram all the spread positions onto the flow and into the constructives. The spread tactic requires little critical skill to execute. It is akin to killing someone with a shotgun blast: one's aim need not be terribly good to achieve the desired result. Conversely, critically examining the case for its flaws and vulnerabilities, then selecting arguments which target those vulnerabilities is more like marksmanship, requiring study, practice, and a higher dimension of critical skill.

In terms of effective communication, speed debaters are speaking to critics whose level of ethical understanding is not fully developed: these judges see nothing wrong with a tactic that renders a substantive rule of the activity a mere technicality. Few critics would smile on a team that mumbled its arguments when faced with an opponent who was

hearing-impaired. A speaker's partial deafness has as little to do with his debating ability as his skin color has to do with the content of his character. But this connection is seldom made by either the debaters who employ speed as a tactic or the critics who award this strategy with negative decisions.

To be sure, speed can be used by affirmatives as well as negatives, and there is something of a difference between gratuitous and necessary speed. Affirmatives already possess the substantial advantages of framing the debate, choosing a proposal to focus the resolution, defining terms, preparing well ahead of competition, and having the first and last word in the round. There is little need for affirmatives to add to their privileged position by beginning the round at mach 2 in hopes of burying the opposition. But the spread tactic was originally a negative innovation, and for the most part, it is used exclusively by negatives.

Necessary, as opposed to gratuitous, speed is, at base, a judgement call of the critic. The critic's experience with debate will instruct her whether rapid delivery is required to cover all the ground. As a rule, the first affirmative rebuttalist should be expected to pick up the pace, and rightfully so; the existence of the negative block--irrespective of spread tactics--presents the IAR with a great deal to address. For the most part, a seasoned debate judge can tell when the spread tactic has been brought into play by either team, and if this statement is seen as a call for subjectivity in judging, some subjectivity is unavoidable in debate evaluations. Let those who claim to know a purely objective critic produce him or her. It is not a question of subjectivity versus objectivity, but rather one of justifiable versus unjustifiable subjectivity.

Critics are asked to choose the team that has done the better debating. If debate is a session of argumentation, and if argumentation is the clash and mutual testing of competing ideas, then the better debaters will be those who eschew the temptation to take the "easy" way out and spread their opponents in hopes of a default victory based on misinterpreted rules of the activity.

(James Talley debated at Hutchinson (KS) H.S.)

No debate: It's your best first source on topics like juvenile crime.

If your team is debating the federal role in reducing juvenile crime, make sure they start with The CQ Researcher.

- **March 15, 1996, *Preventing Juvenile Crime*** — Highlights government initiatives and juvenile crime as a public health issue.
- **February 25, 1994, *Juvenile Justice*** — Highlights the problem of guns and concerns with the juvenile court system.
- **And both issues thoroughly investigate other sides of this complex topic**, with a pro/con debate... two annotated bibliographies... historical background... the current situation... the outlook... and much more.

So if your team needs to become overnight experts, debate no more. Get The CQ Researcher. Copies are just \$8.00 apiece—order yours today!

"The pro and con treatment of the issues is most useful because it forces the students to think. We often tell them that a good debater always knows what the opposing debater is going to argue. Forewarned is forearmed. We love your expert handling of the issues."

—Johnnie Margurite Boyd
George Wythe High School, Richmond, VA

"NATIONAL TOURNAMENT OF CHAMPIONS" SATURDAY, SUNDAY, MONDAY, APRIL 26, 27, 28, 1997

◆ 2-PERSON VARSITY DEBATE

◆ LINCOLN DOUGLAS DEBATE

ELIGIBILITY: TWO-PERSON DEBATE

High school debaters may qualify for the TOC two-person debates by meeting any TWO of the qualifications listed below. TEAMS MUST QUALIFY AS A UNIT. PLEASE NOTE: If any two debaters from the same school have qualified with different partners, they should submit for an at-large.

1. By reaching the OCTAFINALS in any of the following tournaments:

University of California-Berkeley	Emory University	The Glenbrooks	Greenhill High School	Harvard University
Montgomery Bell Academy	Redlands University	St. Mark's High School	Stanford University	Wake Forest University

2. By reaching the QUARTERFINALS in any of the following tournaments:

Bronx High School of Science	Edison, Virginia	Isidore Newman High School	Lexington, Massachusetts	Loyola University, California
Mid-America Cup, Valley	New Trier, Illinois	Princeton of Cincinnati	Westminster, Atlanta	

3. By reaching the SEMIFINALS in any of the following tournaments:

Alta, Utah	California Warmup, Stanford	East Grand Rapids	Georgetown Day	Jesuit, New Orleans
Ohio Valley Invitational	Omaha Westside	Samford University, Alabama	University of Southern California	Vestavia Hills, Alabama
Westchester Classic, Lakeland				

4. By reaching the FINALs in any of the following tournaments:

(Must have 50 or more teams in Varsity Debate from 5 or more states. Otherwise, do not submit.)

Arizona State University	Appleton East, Wisconsin	Blake, Minnesota	Calhoun, Georgia	Carrollton, Georgia
Churchill, Texas	Dallas Jesuit	Florida Blue Key	Hendrick Hudson	High Point
Homewood, Alabama	Homewood-Flossmoor	Houston Memorial	Iowa Caucus, Cedar Rapids	Lakeland
Lewis and Clark, Oregon	University of Massachusetts	Newark Science, New Jersey	Newburgh Free, New York	North Texas State, TOC
University of Oregon	Pacific Lutheran	Puyallup	St. Francis, Kansas City	St. Joseph's, Villager
Watertown, South Dakota				

5. Teams who were in the elimination rounds of the 1996 TOC will automatically be invited to the 1997 TOC. Both members of the 1996 team must return as a team.

6. At-large applications MUST be received in Lexington by MARCH 14th.

ELIGIBILITY: LINCOLN-DOUGLAS DEBATE

High school debaters may qualify for the TOC Lincoln-Douglas debates by meeting any TWO of the qualifications listed below. Invitations mailed only on request.

1. By reaching the OCTAFINALS in any of the following tournaments:

Emory University	Bronx High School of Science	The Glenbrooks	Greenhill School	Harvard University
St. Mark's School	Stanford University (The Spring National)	University of California at Berkeley	Wake Forest University	

2. By reaching the QUARTERFINALS in any of the following tournaments:

Crestian Classic (Florida)	Edson (Virginia)	Florida Blue Key	Hendrick Hudson (New York)	Homewood (Alabama)
Iowa Caucuses	Isadore Newman (Louisiana)	Jesuit-New Orleans	Lexington (Massachusetts)	Mid-America Cup at Valley (Iowa)
	Monticello	Omaha-Westside (Nebraska)	St. Joseph's University	Vestavia Hills (Alabama)

3. By reaching the SEMIFINALS in any of the following tournaments:

Holy Cross (Massachusetts)	Loyola-Marymount University (California)	Manchester-by-the-Sea (Massachusetts)	Newburgh Free Academy (New York)	Princeton of Cincinnati (Ohio)
Samford (Alabama)	Silver and Black Invitational at Alta HS (UT)	Stanford Univ. (The Winter Warm-Up)	University of Southern California	Watertown (South Dakota)
Westchester Classic (New York)	Whitman College (Washington)	Yale University		

4. By reaching the FINALs in any of the following tournaments:

Andrews HS (North Carolina)	Apple Valley (Minnesota)	Arizona State University	Calhoun (Georgia)	Clark HS (Texas)
Iowa City West (Iowa)	La Cueva HS (New Mexico)	Killian-Miami (Florida)	Long Beach State University (California)	Memorial-Houston (Texas)
North Hills (Pennsylvania)	North Miami Beach (Florida)	University of Oregon	Pacific Lutheran University (Washington)	Princeton University (New Jersey)
University of Pennsylvania	Project Pride/Newark City Invitational (New Jersey)			

5. Individuals who were in the elimination rounds of the 1996 TOC will automatically be invited to the 1997 TOC.

6. At-large applications MUST be received in Lexington by MARCH 14th.

"TRADITIONS OF EXCELLENCE CONTINUE"

THE EMPEROR HAS NO CLOTHES, OR, WHAT IS WRONG WITH SPEED DEBATE

by Douglas Modde

I have been associated with debate on and off since 1979, as a debater, a judge, and a part-time coach. My experience in debate has had a more profound influence on my life than any other single thing I have done. In recent years, however, I have become increasingly dismayed with the direction of policy debate. I believe that speed and jargon have replaced solid speaking skills and quality analysis. As an ex-debater, I am ashamed because of the lack of clear speaking at weekend tournaments. As a judge, I am ashamed that I have helped to perpetuate this travesty by not forcing young people in my rounds to speak clearly. As an ex-coach and an educator, I am ashamed that I have taught the wrong skills to my students. Collectively, we should all be ashamed.

Debate has the propensity to teach young people several valuable skills. The primary skill is, of course, speaking. The ability to speak in a clear, concise and succinct manner is a life skill that will assist young people in all their endeavors. Good speakers earn better grades in college and secure better jobs when they graduate. Great speakers lead the nation and the world.

Unfortunately, the current theme in debate is speed, not speech. Garbled sentences are accepted as evidence. Blip responses are accepted as refutation. Jargon and catch phrases are accepted as analysis. The ability to speak well have been sacrificed at the altar of speed. As debaters, we should all be ashamed.

At a recent tournament I attended, there were no ballots. Judges were given little index cards on which to record their decisions and were told to give "oral" critiques. This was done in order to expedite the process of recording decisions. I cannot imagine a worse idea. Oral critiques only cover debate jargon and decision criteria. In contrast, the ballot is designed to allow the judge to make comments on speaking style, delivery, and poise. By failing to critique the true

speaking skills of the debaters, judges and coaches are giving tacit approval to garbled, mumbled, and slurred styles of debate. As judges, we should all be ashamed.

Anecdotally, I was venting some of my concerns one day to two other coaches when one of them said they would "lose their funding if the principal saw a policy round." The other coach explained how he was attempting to generate some outside funding sources, but "of course, he would never show the corporate sponsors a policy round, because that would kill the idea." How tragic. Policy debate should be a showcase of a school's best and brightest, a gem to be held up and admired. Instead, the shoddy speaking skills we have all accepted are an embarrassment, something to be hidden away. As coaches, we should all be ashamed.

Another problem that accompanies the speed frenzy is the superficial manner in which issues are covered. Real analysis is almost nonexistent. In its place jargon is bandied about in some bizarre type of secret code. To the outsider, the code is gibberish. To the informed, it is also gibberish, but we are all afraid to say that the emperor has no clothes. Instead, we all applaud the beauty of the clothes and silently pray that no one exposes our hypocrisy. As educators, we should all be ashamed.

Given these problems, what can be done? We all need to be like the brave little boy who speaks out and says that the emperor is naked. Debaters need to learn to speak clearly before trying to speak quickly. Judges need to hold speakers accountable. Coaches need to emphasize clear speaking, not sloppy verbiage. Educators must never lose sight of their true mission, to prepare the next generation for the future. The game of debate must be changed. Clear, concise, succinct speakers should be rewarded. Garbled, vague, unintelligible speakers should be negatively sanctioned. As debaters, judges, coaches, and educators, we should all work to end our shame.

JUVENILE CRIME ONLINE

The *Federation News* reports that the Juvenile Justice Clearinghouse (JJC), OJJDP's centralized source for maintaining and disseminating information, has made hundreds of agency publications, research findings and program evaluations available free of charge to those with electronic access.

First-time users can send an Internet e-mail message to look@ncjrs.org to automatically receive a reply outlining the services of the Juvenile Justice Clearinghouse, a component of the National Criminal Justice Reference Service (NCJRS).

The publications are available through OJJDP's World Wide Web homepage and the NCJRS Bulletin Board System (NCJRS*BBS).

* OJJDP's World Wide Web homepage:
<http://www.ncjrs.org/ojjhome.htm>
Look for the welcome to high school debaters.

* NCJRS's Bulletin Board System (NCJRS*BBS):
Direct dial through your modem:
301-738-8895
Modems should be set at 9600 baud and 8-N-1
Gopher to ncjrs.org:71 or telenet to bbs.ncjrs.org
At the login prompt, type [ncjrs](http://ncjrs.org) and follow the instructions to become a registered user.

For specific requests, send an e-mail message to askncjrs@ncjrs.org

(Thanks to Dick Fawcett at the National Federation for compiling this material. The Federation has a comprehensive list of free and low cost debate materials as well as the fine debate series "Forensic Quarterly". See the Federation News, June 1996 for the complete list.)

SYNOPSIS OF THE PROBLEM AREAS FOR 1997-98

Political Reform

Public issues consultant, Richard Harwood, has written about a concept he calls, "Civic dissonance" saying, "People feel isolated and fragmented from neighbors and society at large. . . People are deeply ambivalent about issues facing America. . . People are tired of the bickering and finger pointing among politicians, special interests, and even 'good government' groups. . ." Discussion of issues related to the reform of the electoral process would go a long way toward reducing such cynicism. Public criticism of the electoral process in the United States has reached a high pitch in the post-Watergate era. Specifically, those aspects of law and procedure which affect the election of federal officials have been of increasing concern. Key issues include the structure of the electoral system, campaign finance policy and legislation, and the mechanisms that facilitate or hinder individual or group participation in the federal electoral process. Affirmative cases might deal with such issues as the alteration or elimination of the Electoral College; easing access to the ballot for third parties; adoption of new systems of voting, such as proportional or cumulative voting; reform of the media's participation in the process; term limitations; reforming laws governing campaign finance; or altered systems for conducting primaries. Negative strategies may include defense of the present electoral system, advocacy of reforms by states or localities, examination of alternative political philosophies, and criticism of the efficacy of changes within the political system.

Freedom of Speech

Justice Hugo Black has written that the First Amendment is "at the core of all human freedoms." Key First Amendment issues under current discussion are hate speech, school publications, and commercial speech. Many states, localities, and universities have established restrictions on "hate speech." While numerous definitions of "hate speech" are available, one standard definition was offered in the International Covenant on Civil and Political Rights: "Any advocacy of national, racial, or religious hatred that constitutes incitement to discrimination, hostility or violence." Affirmative cases could deal with such issues as restricting the imposition of speech codes in publicly funded institutions or preventing states and localities from criminalizing distasteful expression. School publications are sometimes defined as "material produced by stu-

dents in journalism, newspaper, year-book, or writing classes." Affirmative cases might extend the rights of students to freely express themselves in such publications. Commercial speech has been defined as "an expression related to the economic interests of the speaker" and has been afforded less protection by the Supreme Court than political speech. Many cases in this area would likely deal with the regulation of advertising of tobacco, alcohol, or other products. Negative teams might focus on such areas as the trivialization of the First Amendment; the need to bring U.S. rights interpretations in line with international interpretations; the public interest in regulating commercial advertising; or the need to restrict politically incorrect speech, cross burning, talk radio, militia or white-supremacist groups.

The United Nations

In 1995, the UN celebrated its 50th anniversary. When the United Nations was established, a primary objective was to maintain international peace. These days the UN receives more criticism than congratulations. Its peacekeeping operations, its bureaucratic inefficiencies and its Security Council have been under attack. In defense of the UN the *World Press Review* in June 1995 proclaimed, "Yet the charter remains an eloquent and powerful statement of faith in the possibility of peace and human betterment." What does the future hold for UN peacekeeping operations? Fertile ground for affirmative cases would include: how to fund peacekeeping; rapid deployment and troop readiness; changes in the veto power of the UN Security Council; creation of a permanent force; and the command structure of UN forces. The affirmative may also choose to discuss specific conflict areas, including current operations such as Cypress, Haiti, and Bosnia, or deployment to new areas. The negative could question the effectiveness of the UN in general, as well as in global conflicts. Other negative ground would be evaluating the cost in both financial and human terms; the potential for backlash to UN/industrialized nation intervention; and the desirability of international law.

Right to Privacy

Privacy has been described by the US Supreme Court as a right more fundamental than any of the rights enumerated in the Bill of Rights, but privacy in the workplace is severely limited. The employer's goal in every case seems to be the same - to gain

greater control over the workplace by learning more about employees, often with neither their knowledge nor their consent. Employee rights could be strengthened by regulating the use of medical data; political participation, off-the-job behaviors, access to private correspondence (including the Internet), sexual orientation, on-the-job surveillance techniques, and instructional practices of teachers. Harms would address not only privacy itself, but freedom of speech, freedom of association, and due process. Negative positions would include the right of employers to oversee a safe and productive workplace, as would the need to protect the public and shield employers from liability for harms precipitated by dangerous, diseased, or corrupt workers. Disadvantages might include increased costs for consumers, reduced employment opportunities, American economic competitiveness, health and safety on the job, and the importance of privacy rights vis-a-vis other constitutional guarantees.

Renewable Energy

Energy usage in the United States and the world is projected to increase dramatically over the next fifteen years. Today most of the energy consumed is provided by fossil fuels. Continued reliance on these fuels may risk long-lasting damage to the global environment and may also threaten human health due to atmospheric pollution. Fossil fuel reliance also creates the potential for the United States economy to be held hostage to nations in the Middle East - nations which may not remain friendly, dependable suppliers of United States energy demands. The United States investment in renewable energy is being reduced, and dollars are being invested in programs designed to increase the efficiency of the way the United States uses fossil fuels. Affirmative debaters could offer a variety of cases which would justify shifting production to such renewable energy sources as biomass, solar, wind, geothermal, or water power. Promising technologies are in need of the push provided by a shift to developing renewable energy sources for wide-scale domestic use. Negative teams could defend such energy alternatives as nuclear reactors, improvements in fossil fuel-related technologies, alternative fuels such as natural gas or liquefied natural gas, or increasing emphasis upon energy conservation. Negative teams might also argue that the free market system best regulates the development and use of energy technologies.

CHAPTER HONOR SOCIETIES

PENTAGON

(The classic five sided figure is the elite mark of honor for NFL chapters over 500 degrees)

School	Coaches	Degrees
Evansville-Reitz HS, IN	Mr. Daniel Durbin	709
Downers Grove-South HS, IL	Mr. John Hires, Ms. Jan Heiteen	694
Watertown HS, SD.....	Mr. Donus Roberts, Mr. L. Feuerstein, Mr. R. Mittelstedt, Mr. S. Shephard, Mrs. J. Pederson	560
Miami-Palmetto HS, FL	Mrs. Francine Berger	509

THE 400

(Formerly the 400 families in New York City society now this name honors NFL chapters holding 400 plus degrees)

School	Coaches	Degrees
Blue Valley Northwest HS, KS	Mr. Mahlon Coop	469
Bronx HS of Science, NY.....	Mr. Richard Sodikow, Ms. Ann Shapiro, Mr. Robert Levinson, Mr. Kirby Chin	455
Shawnee Mission-Northwest HS, KS.....	Mrs. Deborah Glenn, Mrs. Helen Sue Bryant, Ms. Sandi Gresham	453
James Logan HS, CA	Mr. Tommie Lindsey, Jr.	424
Houston-Bellaire HS, TX.....	Mr. David Johnson, Mrs. Dianne Johnson	405
Chesterton HS, IN.....	Mr. Robert Kelly, Mr. James Cavallo, Ms. Carolann Biel, Ms. Barbara Funke	403

SOCIETE 'DE 300

(An elite recognition for chapters achieving 300 or more degrees)

School	Coaches	Degrees
Bellarmine College Prep, CA	Mr. James Harville, Ms. Kim Jones, Mr. Bill Healy	391
Washburn Rural HS, KS	Ms. Cynthia Burgett, Ms. Sarah Thomas, Mr. Bret McClendon	386
Ben Davis HS, IN	Mr. Harold McQueen, Mrs. Ann Stepp	382
Topeka HS, KS	Mrs. Pamela McComas, Mrs. Jean A. Hardy	379
Apple Valley HS, MN	Ms. Pam Cady, Mr. Wayne Brinton	370
Regis HS, NY	Mr. Eric Di Michele	366
Plymouth HS, IN	Mr. Daniel Tyree, Mrs. Charlotte Tyree	361
Sioux Falls-Lincoln HS, SD	Ms. Kim R. Maass, Ms. Rosella Blunk	350
Independence-Truman HS, MO	Mr. Mike Jeffers	343
Miramonte HS, CA	Ms. Sandra Starke	341
Lynbrook HS, CA	Mrs. Shirley Keller-Firestone, Mr. Bruce Wilkinson	341
Cherry Creek HS, CO	Ms. Peggy Benedict, Mr. Gary Addington	339
Eagan HS, MN	Ms. Joni Anker, Mrs. Paulette Reikowski, Mr. Michael Vergin	332
Appleton-East HS, WI	Mrs. Debra Weiher-Traas, Mr. Michael Traas	326
Leland HS, CA	Mrs. Gay Brasher	325
Munster HS, IN	Mrs. Helen Engstrom, Mr. Doug Fix, Ms. Mary Yorke, Mr. Donald Fortner	324
Forest Lake HS, MN	Ms. Dorothy Sunne, Mrs. Deborah Bendix, Ms. Susan Novak	321
Rosemount Sr. HS, MN	Ms. Wanda V. Manther, Mr. Jon Kachelmacher	321
Modesto-Beyer HS, CA	Mr. Ron Underwood	320
Glenbrook-North HS, IL	Mr. Ted Belch, Mr. Gerald Murphy	319
James Madison HS, VA	Mr. Curtis W. Somers	316
Auburn Sr. HS, WA	Mr. Michael W. Burton	314
North Kansas City HS, MO	Mr. Ron Jackson	313
Centerville HS, OH.....	Mr. Ralph Bender, Ms. Marie Dzuris, Mrs. Lynne M. Bustle, Mrs. Elaine M. Daly	312
Millard-North HS, NE.....	Mr. Terry Peterson, Mr. Scott Milliken	311
Marshall HS, MO	Mr. Paul Gieringer	311
Garden City HS, KS	Mr. Shelby McNutt, Mr. David Williams	301
Neosho HS, MO	Mr. David Watkins	301
Academy of the Holy Names, FL	Sr. Mary Patricia Plumb	301
Park Hill HS, MO	Mr. Don Crabtree	301

Judge: There! I'm glad we could widen that door to get this Lazy Boy recliner in here. Stupid superintendent can just go find it himself on Monday! Ha!

What's the topic?

Judge: Yeah. Don't make much difference, do it? Well, little lady, are you ready to give the big bad IAC?

Judge: I'm bored. Talk faster.

Observation one: Pleasure is good.

Observation two: Stripteasing is pleasurable.

(Bill Davis coaches at Blue Valley, (KS) and writes this regular Rostrum column.)

Says Debate Be
Who studying Can't **FUN?**

There is no question that humor is one of life's greatest gifts and that it often provides a wonderful avenue for learning. *A Fool For Forensics* is a collection of essays about debate and individual events that coaches and students alike will savor and enjoy. Some of these essays were previously published in *The Rostrum*; others are original to this collection. Classroom teachers will find many of the essays useful in teaching particular concepts and strategies. All are crafted by a man who loves forensics and cleverly lets us know why he is truly, *A Fool For Forensics*.

POLICY DEBATE SUBSCRIPTIONS:

Basic Subscription—SQUIRREL-KILLERS Vol. I & II
\$72 for 1st subscription (Print, Disk, or E-mail)
\$36 each additional printed copy

Basic Subscription plus 6 issues Update Briefs
\$108 for 1st subscription (Print, Disk, or E-mail)
\$54 each additional printed copy

Basic Subscription plus 4 issues Update Briefs
\$96 for 1st subscription (Print, Disk, or E-mail)
\$48 each additional printed copy

Individual subscription items as follows:

SQUIRREL-KILLERS Volume I

Date of Publication: **May 15, 1996**

150 pages (3 booklets—contains 50 pages of AFF
CASES and 100 pages of NEGATIVE BRIEFS)

\$24 for 1st copy (Print, Disk, or E-mail)

\$12 each additional printed copy

(on orders of 8 or more, ALL copies are \$12 each)

SQUIRREL-KILLERS Volume II

Date of Publication: **August 15, 1996**

300 pages (6 booklets—contains 50 pages of AFF
CASES and 250 pages of NEGATIVE BRIEFS)

\$48 for 1st copy (Print, Disk, or E-mail)

\$24 each additional printed copy

(on orders of 8 or more, ALL copies are \$24 each)

UPDATE BRIEFS

30 pages of NEGATIVE BRIEFS per issue.

Emphasis on updated evidence against cases requested
as the debate season progresses.

Six issues option. Dates of Publication:

Oct 1; Nov 1; Dec 1; Jan 1; Feb 1; Mar 1

\$36 for 1st subscription (Print, Disk, or E-mail)

\$18 each additional printed copy

(on orders of 8 or more, ALL copies are \$18 each)

Four issues option. Dates of Publication:

Oct 1; Nov 1; Dec 1; Jan 1

\$24 for 1st subscription (Print, Disk, or E-mail)

Executive Council Minutes, June 22, 1996

Present: President Donus Roberts, Vice President Billy Tate, Frank Sferra, Bro. Rene Sterner, FSC, Harold Keller, L. D. Naegelin, Don Crabtree, Glenda Ferguson, Ted Belch, alternate Roger Brannan, and Secretary James Copeland

Mary Sue Crommelin appeared before the Council briefly with information on the invitation to host the 1999 national tournament at the College of William & Mary in Virginia.

Moved by Sferra, for every debate entry a school has for the national tournament, a judge must be furnished for that entry. Failed, no second.

Moved by Ferguson, seconded by Belch, that NFL provide two judges in policy debate only in prelims only for the 1996 national tournament. Defeated: Ayes: Naegelin, Sferra, Ferguson, Belch. Noes: Bro. Rene, Tate, Keller, Crabtree, Roberts.

Moved by Keller, seconded by Sferra, that the Executive Council go on record to retain duo interp as an event at the NFL district and national tournaments.

Moved by Sferra, seconded by Keller, to table motion until fall meeting. Carried unanimously.

Moved by Sferra, seconded by Naegelin, that Nevada be split into two districts for a three year trial period. Carried unanimously.

Central Texas District will be split into two districts according to the Roberts' Rule.

Moved by Keller, seconded by Naegelin, that for the district tournament traveling trophy, the school with the highest number of rounds must be present at the district tournament in order to win the trophy. Carried: Ayes: Ferguson, Crabtree, Roberts, Naegelin, Keller. Nays: Sferra, Belch, Bro. Sterner, Tate.

Albert Odom's report on district participation discussed. Harold Keller gave report on district congress participation this school year.

Interim report given by Frank Sferra on meeting of Council L-D Committee. The report of the Committee due back at the fall meeting.

Moved by Mr. Sferra that the Executive Council express our gratitude and thanks and is enormously grateful for the service that Marilyn Hageman has given to NFL over the past 31 years. Unanimous.

Moved by Ferguson, seconded by Naegelin, that if the Barbara Jordan debate people have a proposal the council will vote on it at the fall meeting. Unanimously.

Moved by Sferra, seconded by Bro. Sterner, that we empower James Copeland to sell the old NFL building to Fisher Environmental for contracted price. Unanimous.

Fall meeting in Bloomington, MN September 27-28, 1996. Fly in on Thursday, September 26; out Sunday September 29.

C.A.R.E.

Coaching Attraction, Retention and Education

The Mission:

The vision of the Coach Attraction, Retention and Education(C.A.R.E.) Committee of the National Forensic League is to provide forensic coaches with the knowledge and tools to establish competitive speaking programs for students. Addressing the multi-cultural and gender aspects of American culture will lead to a stronger representation of civic leaders for the twenty-first century. It is our mission to effect positive change through forensic/debate instruction and assessment, performance based activities and professional growth opportunities for educators and students. District chairs, member coaches and all involved must commit themselves to a revival of the teaching of forensics in America.

The C.A.R.E. committee was established as a result of the NFL Conference on Urban and Rural Speech Education in Denver, August 13-17, 1992.

I. District Level

Outreach/mentorship grants available
Newsletters to members and nonmembers
Fellowships to Nationals(Never been to Nationals? This may be your chance)
Fundraising ideas for dollars

II. Regional Level

Workshops to educate teachers/coaches

III. National Level

Professional video sought. 12-15 minutes to sell NFL
Outreach to administrators and school boards to sell NFL with research

The C.A.R.E. committee welcomes input and proposals from all coaches and students. The goal is to attract, retain and educate coaches to further opportunities for students.

A CALL to C.A.R.E.

The Coach Attraction, Retention and Education(C.A.R.E.) Committee of the National Forensic League is involved in many of the most exciting activities facing the forensic world today. This is a call for new members to join this working group,

The committee met in Denver in August to prioritize needs for the next few years. Goals ranged from area workshops, to new poster ideas. The first priority is to get four area workshops offered in the summer of 1997. These are planned for Maine, Illinois, Colorado and California. C.A.R.E. is anxious to offer a new coaches' workshop in the North and Southwest the following year.

Funraising continues to be a major need for many programs. Connie Link(IL) is compiling a book of ideas that will be distributed to all chapters. Robert Shepard(MO) is creating a poster series for and about forensics and NFL.

Twelve coaches have received money to attend the National Tournament in the last two years. This fellowship program is going to continue to bring coaches to the National Tournament who have never qualified a student to that level.

Monies have also been sent out to districts across the nation to encourage forensic activity as they see fit. This program has grown each year and some districts are now combining their efforts to use the money more effectively. District Chairs need to apply for mentorship money each year.

Starting in the November Rostrum look for the monthly column: "Tender Loving C.A.R.E." This will keep all abreast of committee activity. The column is being written by Cat Bennet(NM) and Connie Link(IL).

These are the highlights of what C.A.R.E. has been doing and has set as some of its goals. If you want to be a part of the excitement you need to apply now and be ready to join us. I hope all of you have a great season and remember, I C.A.R.E.

ECONOMICS IN ARGUMENTATION

Leading think-tank &
journal sourced
research materials
for the juvenile
crime topic.

Prepared by Philip Michelbach,
David Beers & Gregory Rehmke.

- ➔ **Policy Solutions: Top Affirmative and negative positions on the economics of juvenile crime.** This collection includes thorough analysis of key economics-based affirmative cases and negative positions on the new policy debate topic. We provide detailed economic arguments found nowhere else. All cases and positions are fully supported with high-quality evidence, clear economic analysis, and answers to expected attacks. Much more than just an evidence handbook, this text teaches the background knowledge and economic reasoning debaters need to win debates. Plus we keep each of these positions fresh and competitive with Updates mailed during the school year. **Price just \$17.**
- ➔ **The Economics of Juvenile Crime** collects important articles and policy studies from leading market-oriented public policy think tanks. As usual, few (and certainly not *the latest*) of these publications will be included in other debate research books. Few college debate researchers understand or are interested in economics, so few research economics-based affirmative and negative positions. We do. And you will find supporting research materials in both of our research books for the 1996 topic. **Price \$17.**
- ➔ **What Everyone Should Know About Economics & Prosperity** by James Gwartney & Richard Stroup. Included with this 117 page overview of key economic concepts is David Beers' essay *What Every Debater Should Know About Economics & Prosperity* which shows debaters how to use this book to strengthen their analysis and identify opponents' weaknesses. This edition co-published in 1996 by the Free Enterprise Institute (original edition published in 1993). **Book with essay, just \$5.**
- ➔ **TEAM PACKAGE—INCLUDES ALL THREE BOOKS ABOVE PLUS SPRING STUDY GUIDE AND FALL UPDATES! FOR SPECIAL PRICE OF \$31. SAVE \$8!** Team package includes above books plus *Study Guide to the Economics of Juvenile Crime* (mailed in May) and special *Updates* of cases, evidence and new studies, mailed at least twice during the fall.

THE NATIONAL CENTER FOR POLICY ANALYSIS

JUVENILE CRIME HOTLINE IS UP!

<http://www.public-policy.org/~ncpa>

The NCPA's Criminal Justice Center has compiled a series of articles pertinent to the debate topic: *Resolved: that the federal government should establish a program to significantly reduce juvenile crime in the United States.*

By starting at the NCPA home page, participants can access not only the Juvenile Crime Hotline but also the Policy Issues-Crime filter containing other crime-related publications and information. They will find a wealth of material for use in preparation and debate.

Juvenile Crime Hotline topics include:

- ***Fact sheets on juvenile crime.***
- ***Does crime pay?***
- ***Does punishment work?***
- ***Crime and expected punishment.***
- ***Should we abolish the juvenile justice system?***
- ***Welfare, illegitimacy and education.***
- ***Reforms that work: privatization.***
- ***Pro-market and pro-family solutions to crime.***

The NCPA's Internet address is <http://www.public-policy.org/~ncpa>

Our e-mail address is devon@ncpa.public-policy.org

#

The **National Center for Policy Analysis** is a public policy research institute founded in 1983 and internationally known for its studies on public policy issues. The NCPA is headquartered in Dallas, Texas, with an office in Washington, D.C.

ANNUAL REPORT 1995 - 96

This report summarizes the number of new members and degrees added by each chapter during the school year 1995-96. It does not reflect the current strength of each chapter. The number of new members and degrees added by each chapter appears in the column "New." The "Total" column indicates accumulated members and degrees for the chapter since its founding or since it last received the Leading Chapter Award.

The column marked '96 designates the chapter rank as of June 30, 1996. The column '95 designates the chapter rank the previous year. The special symbols are defined above the summary.

Each year the top chapter in accumulated members and degrees, not more than one in a district, receives a special chapter award for excellence in speech. When a chapter has received the Leading Chapter Award its accumulated total returns to zero and begins a new Leading Chapter Award record. The symbol ('83) indicates the last time a chapter was awarded the Leading Chapter Award. A school may not receive the Leading Chapter Award unless it has been a member for five years or a period of five years has passed since last receiving the award. If it lost its Charter or has been suspended or expelled or failed to add new members and degrees during the school year it is also ineligible.

A tie in the accumulated total for the Leading Chapter Award is broken in favor of the school which enrolled the greater number of new members and degrees during that school year.

This report does not contain the records of affiliate schools.

NEW NFL MODEM AWAITS YOUR CALL

The NFL has recently installed a new updated modem system. This allows any person with a computer and modem to access NFL data about students, schools, coaches, districts, and chapters. Additionally a bulletin board will contain messages from the NFL office and L/D and CX topics.

If you have a computer and modem call (414)748-9393 and try to access the various screens (bulletin board, student file, coach file, chapter file, district file) available. If your present equipment can not access the NFL system you will need special software which NFL will provide. A diskette

containing all necessary software is available from the NFL free of charge along with a booklet on how to install the software and information on the different screens that display data. The software is not copyright protected so the diskette can be passed onto other schools in the area who also want to access the NFL modem.

When you call or write to the NFL office to request the disk we need to know: Does your computer require a 3 1/2 inch high density diskette, a 3 1/2 inch low density diskette or a 5 1/4 inch diskette. Questions? Please contact Diane at the NFL office.

NFL'S TOP 50 DISTRICTS

(Summary 1995 - 96)

This summary does not reflect chapter strength. It indicates the average number of new members and degrees added by the Chapters in a district.

Rank	Change	District	New Chapters	Ave. No. Degrees	New Degree Leader	Degrees Added

Issues and **Controversies** **On File**

*A ready-made file for extemporaneous speakers.
A first-stop research tool for debaters.*

Discover how easy it is to research complex issues and stay abreast of contemporary thinking with the new **Issues and Controversies On File**.

Each bi-weekly issue brings you evenhanded, up-to-the-minute coverage of the most pressing debates in the nation. It's a complete, convenient resource, one your school will use again and again.

Each issue supplies you with...

- An overview and analysis of three hot topics
- Pros and cons of every issue
- Background information to put it in context
- Facts and statistics to back up the arguments
- Key words to incorporate into speeches and debates
- Up-to-date contact information
- Extensive bibliographies to continue research
- A comprehensive index to pinpoint information.

For fast facts and balanced stories of every important issue in the news, get **Issues and Controversies On File**: the best new periodical for debaters and extemporaneous speakers.

Facts On File, Inc.
11 Penn Plaza
New York, NY 10001-2006

For years, Phillips Petroleum has sponsored Project Wild, Project Learning Tree and Project Wet. These unique programs help kids learn about the environment today so they will make responsible decisions about

it tomorrow. And that's one class assignment that just won't fit under a refrigerator magnet. At Phillips, that's what it means to be The Performance Company. **PHILLIPS PETROLEUM COMPANY** 

Imagine a class where
the homework includes
saving the planet.

For an annual report on Phillips' health, environmental and safety performance, write to: FIES Report, 16 A1 PB, Bartlesville, OK 74004.

Phillips Petroleum
Is Proud to be the National
Sponsor of the
National Forensic League.
