#### Your Chapter Standing

There is real significance in the chapter standing compiled each year. That is why most of this issue of The Rostrum is devoted to it. This record constitutes an important index of two attributes of a good chapter. It marks the chapter which maintains extensive programs of speech activity, for without such program they cannot qualify many students for membership and degrees. It also marks those chapters which take an active interest in the League and in the advancement of their own members.

To the chapters now near the bottom of their groups a special word of encouragement is addressed. Last place offers greater opportunity for advancement than any other position. Rapid advance is really easier, too, once you determine to and start to advance. The enrollment of just a few more members and degrees will send such chapter up five or ten places. Just for the fun of it, turn to the record and see how many chapters would have advanced significantly had they enrolled five more degrees last year.

The way to advance the standing of your chapter has often been stated, but bears repeating. Plan and carry through as extensive a speech program as local circumstances allow—and don't underestimate those circumstances. Enroll every qualified member as soon as he qualifies. Twenty points are now required for membership and if a student earns them fairly he is entitled to his certificate. Finally, procure all advanced degrees. This will be easy since the fees for Excellence and Distinction will have been removed by the time you get this Rostrum.

Look at your chapter standing again. Are you satisfied with it? If not, then mark the place in red ink where you want the Chapter to be next year and clip that page to your bulletin board as a reminder of the goal you have set. The increased enthusiasm permeating your entire speech program resulting from the attainment of this goal will be worth many times the slight cost and effort. And if now in first or second place, look well after your honors, for where are some of the leaders of yesteryear who did not!

## Chapter Membership Record

The annual record of chapters is here published to show to what extent each is really active in speech contests and in the work of the League. It lists the total number of members and degrees enrolled by each chapter since its founding. For purposes of equitable comparison the chapters are grouped according to the years of League membership.

The figure in the first column denotes the rank within the group. The next figure indicates the change up or down since last year. The final figure denotes the total number of members and degrees enrolled

up to June 30, 1938.

## Large Membership Last Year

While the addition of members and degrees should not be the first nor only purpose of a chapter, the achievement of a substantial increase does indicate an extensive program in speech activity necesary to qualify those members as well as an enthusiastic interest in the League organization. We accordingly honor the chapters listed on the next page for adding the indicated number of members and degrees during 1937-8 school year.

Is your Chapter on on the NFL 1938 Honor Roll? If not, what plans are you going to make to

put it there in 1939?

## **NFL** Costs Reduced

#### Council Votes to Remove Two Degree Fees Secretary Negotiates Lower Insignia Prices

A modest surplus in the oper- Balfour company, official NFL ating income of the League during each of the past two years has enabled the Council to take one more step to lower still further the nominal costs of NFL membership. It has voted to propose an amendment to the constitution eliminating the degree fee for the degrees of Excellence and Distinction. Ballots have been sent to all chapters and as the vote should be nearly unanimous, ratification can be assumed to be effective at the time this Rostrum is received. The fee of 50c for the Degree of Honor remains unchanged as that degree carries with it a subscription to the Rostrum.
