Once again the operation of the central office was in the hands of Dr. Richard L. Jacob of Cornell College, Mt. Vernon, Iowa. Working on sectioning, parings, and results were: Mr. Dan J. Tewell, Pittsburg, Kansas; Mr. Jerome C. Boone, Akron-North High School, Ohio; and Mr. Frank Sferra, Fort Logan-Mullen High School, Colorado.

These arrangements include transportation, available contest rooms, local judges, publicity about the tournament, hos-

pitality for coaches and students, meals, banquet, and timekeepers. We owe a grateful thank you to our Co-Chairmen: Mr. Gerald F. Ashen, Shawnee Mission-South High School and Mr. Maurice Swanson, Shawnee Mission-East High School. Their planning made the job of tournament operation less difficult.

## NFL National Congress - 1970

Any adult who has lost confidence in the Young People of today should have the experience of scoring a National Forensic League Student Congress. The thirty-one young men (there were no female senators) who participated in the 1970 National Congress were excellent examples of the conscientious, concerned youth of our nation. For three and a half days they wrestled with the pros and cons of questions like: abolishment of military courts; withdrawal of military personnel from S.E. Asia; betterment of conditions for the American Indians; stabilization of the population of the United States; taxation of non-profit organizations; strengthening of the executive, legislative and judicial powers of the UNITED NATIONS; right to strike by public employees; repealment of the present fault auto insurance with no-fault auto insurance; and retainment of student military deferments. As one listened to the evidence presented by the young men, he could not help being struck by the great amount of research which they had done on all questions. In fact, there were so many excellent, enthusiastic speakers that all the scorers remarked that they found it difficult to decide which individuals were outstanding at the end of each legislative day.

The first half day was a little difficult for every one since it became immediately evident that many states are not operating their local congresses strictly according to NFL rules. After the opening session some senators remarked, "They sure do things differently in Kansas." This, however, was not the case since

"things" were being done according to the NFL Congress Manual. Coaches would make available more time for debate on bills in future national congresses if students were forced to follow the MANUAL in local congresses. There were some few senators who sought to confuse by parliamentary manipulation. While a knowledge of parliamentary know-how is important, it is not the real reason for a congress and should never be regarded as such.

I have always been an enthusiastic supporter of student congresses; I am now more than ever convinced that this is the best practical training high school coaches can give their students since it teaches them to research, to think, and to speak. I am hopeful that we can again find some way to have a National House of Representatives in addition to a National Senate.

National Parliamentarian

The 1970 National Student Congress was called to Order on Tuesday morning June 16, by speaker pro tem Calvin J. Karlin, Nickerson High School, Hutchinson, Kansas.
